I am the way, there is no other besides me, turn to me and I will accept you into myself.

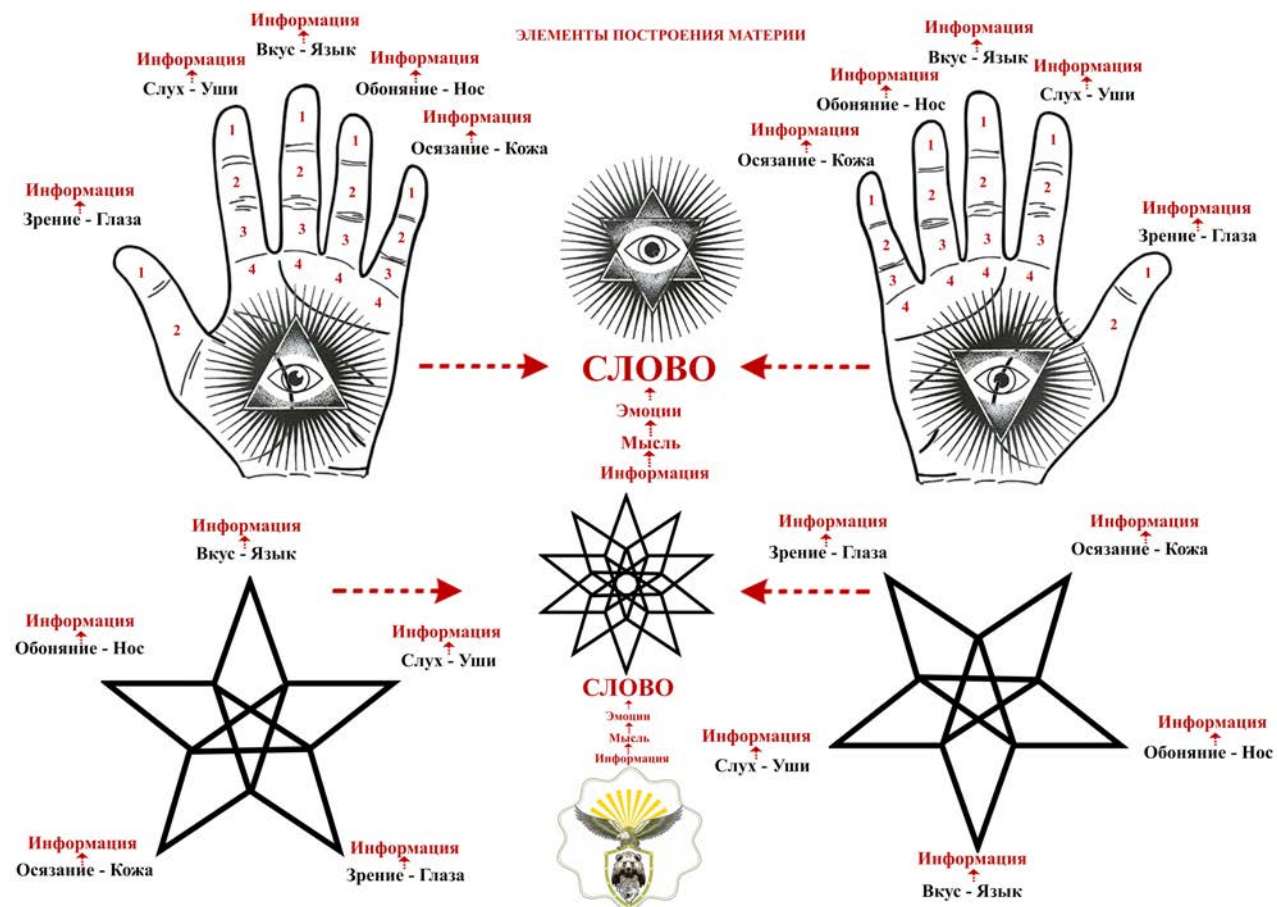

As for the question of how and by whose hand these words were revealed and spoken, the answer itself is correct no further than your own face.

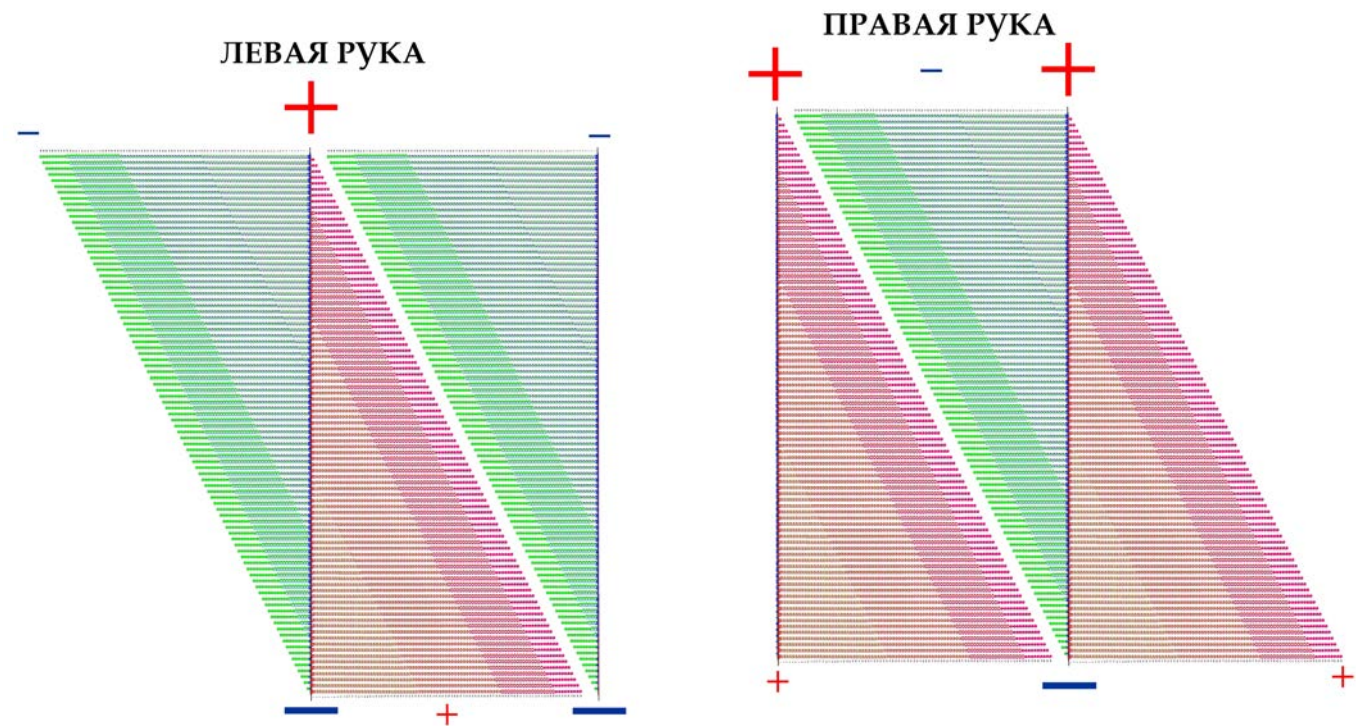

Therefore, if these words were spoken and written by your hand, they would have no less power and authority.

I am the way, there is no other besides me.

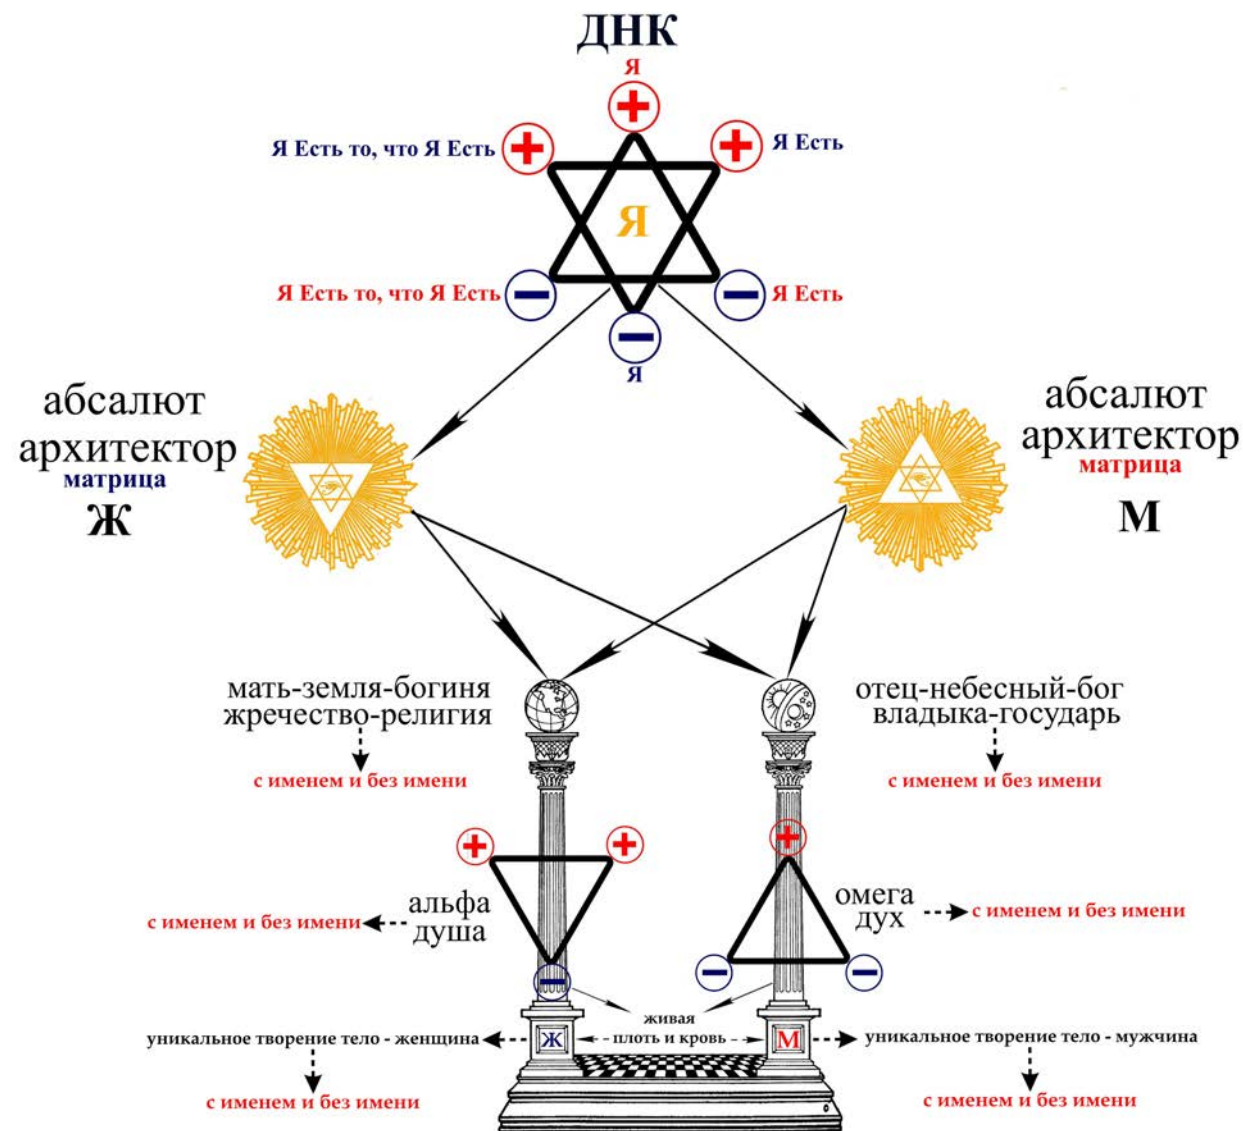

Turn to me and I will take you into me.

And my Kingdom, throughout the Universe, in Heaven, and from Heaven to Earth, and on Earth, and in the depths of the Earth!!!

Let there be Living Light, I Am Living Light

I, I Am, I am what I am,

Let it be as it is written, so it is.

Everything that is written and spoken exists from the very beginning in eternity.

“GOD – GODDESS” is the immortal divine mind, or the collective divine mind...

“SPIRIT – SOUL” is the immortal divine consciousness or the collective divine consciousness...

“LIVING FLESH AND BLOOD, A UNIQUE CREATION - BODY, MAN OR WOMAN” is immortal divine awareness or collective divine awareness...

“MIND” is the creation of creations...

“CONSCIOUSNESS” is the management of creation...

“AWARENESS” is creation itself...

Self-identification - (Man or Woman - creation itself) Awareness (conscious thinking) is the process of understanding that you are more than paper or a thing

Expression of Will - (Spirit or Soul - control of creation) Consciousness (conscious thinking) is the process of understanding that you are more than a man or woman than a slave or a beast.

Proclamation - (God or Goddess - creatures of creation) Reason (intelligent thinking) is the process of understanding that you are more than an immortal divine spirit or soul, or a holy spirit or a holy soul than a ghost

All matter is built from electromagnetic vibrations of different frequencies and densities, and different poles.

When observing, we observe a projection... As we approach the projection, the oscillation speed of electromagnetic vibrations of different frequencies and densities and different poles increases, which creates a projection into density.

All life consists of the transmission of electromagnetic vibrations of different frequencies and densities and different poles, through binding on blood to paper and subsequent monetization of energy, through a signature, sound, verbal consent, action (conclusive action), etc.

Declaration of God

“And the Word was first, and the Word was with God, and the Word was God, and the Word became the flesh of Reason.”

I AM the Word.

I AM that Word.

And my Kingdom, in Heaven, and from Heaven to Earth, and on Earth, and in the depths of the Earth!!!

Those who have ears, let them hear! Those who have eyes, let them see!

Those who have no ears and eyes, let them hear and see my thoughts!

I am Alpha and Omega, I am the Absolute, the One, the Only, EVERYTHING, EVERYTHING that is, was and will be.

There is no higher God, no power stronger than Me, I am the God of all Gods.

I am the Creator and Lord of all Creations

I am the Lord of all angels and arch-angels

I am the Lord of all demons and arch-demons

I am the Lord of all heavens, stars and planets.

Whose commands are the first and highest law.

For my laws are the rules on which the very existence of the Universe depends.

Therefore, the Universe and everything in it is subject to my commands.

So, let it be known by My command that no male or female law is superior to those rules and laws that most accurately honor My wisdom.

For I am a Unique Collective Mind, Consciousness, Awareness

And Mind, Consciousness, Awareness loves Life.
Therefore, let it be known to all men and women by all means of public notice that no rule of the law is superior to my rules.
For just as I am all things and all awareness, I am all men and all women.
I am life and death, like endless life.
The whole mind is immortal, only the body is perishable.
And no one can take you away from you.
For no one has my power to stand between another and the Absolute.
Neither priest nor magician has the real power of position, whether by apostolic succession or other counterfeit, to claim sovereignty in my name.
No church, no denomination, no lineage has superiority over others in my name.
I am the Lord God, and no one else. Hear My words.
Until this time you were blind and could not see,
The words were spoken, but you did not hear.
Lies were passed off as wisdom so that people would eat sand, thinking that it would fill their souls.
The keys of truth have now been given to you, freeing you from bondage.
For every man and every woman is given the right of free will.
Until these days, you believed in the tricks that good is evil, that black is white.
Now your eyes are open, your ears are cleared.
You are unique in the Universe, for you are a homo sapiens.
You are a living paradox.
There is no one in the universe, and there has never been anyone like you.
In your mind, in your soul, lives the capacity for great evil and destruction.
At the same time, your form contains the ability to create beauty and wonder, to feel the splendor of life and love.
Your emotions are so strong that even the Creator of all things cannot change your mind.
You are part of the one and the whole, but you are more like a man or a woman.
You can choose, if you wish, to live as you are - an animal without morals or self-restraint.
You can also continue to believe the lies of corrupt people.
But do not be afraid of the darkness and evil that has entangled this world.
I am the only true Lord, God, and there is no other. Listen to My voice.
I AM, that I AM, both above and below, both left and right, both front and back, both inside and outside.
Even where only sadness and evil reign, everything will pass.
Nothing is absolute. Everything is a matter of degree.
This is the secret of life.
I won't let you disappear and I won't be able to forget you.
I am always by your side, on the best days and in the most difficult times.
Don't be discouraged, even though they may judge you.
And reject you without hesitation.
Your life has more meaning than you think.
If even one grain of sand ceased to exist, everything would cease to exist.
This is the secret of existence.
Nothing is lost, for existence depends on the universal perfect memory of truth.
Stand firm, stand your ground, but don't hate.
For hatred is the path to darkness and destruction.
Know that I will not forget you and will not leave you.
And I will not judge you the way others want me to judge.
Sweet words that tell you that you are less than, that you are unworthy.
Such lies and evil words cannot be divine.
For I am not their false labels, They speak not for me, but for themselves.
For you are more, not less.

I can't intervene in the same place twice.
This is the secret of the Universal Mind.
The universe depends on your existence, whether you believe or not.
And whether you choose to see or blind yourself.
Know that my love is all around you, even in the midst of terrible despair.
Hear the voice of your loving Divine father and mother.
And let no man or woman come between you and the Divine.
I came to forgive and heal, not destroy.
I have come to put an end to the old world and help the birth of a new one.
I am darkness and light, I am the creator of the universe, I am the father and mother of humanity.
I rejoice at every birth, I weep at every death of every form.
I stood next to everyone who lived, I am a loving God.
And I will not leave a single one abandoned, For you and all are My creation.
I am the author of all wisdom, I am the eternal Observer, I Am because You Are.
Read and listen to my words, for my word has become the flesh of the Mind.
As for the question of how and by whose hand these words were revealed and spoken, the answer itself is correct no further than your own face.
Therefore, if these words were spoken and written by your hand, they would have no less power and authority.

I, I Am, God-I Am that I Am,

Let it be as it is written, so it will be, everything that is written and spoken exists from the very beginning in eternity, for the benefit of the world forever and ever.

Those who have ears, let them hear!
Those who have eyes, let them see!
Those who have no ears and eyes, let them hear and see our thoughts!
And let the content of this Act be known to everyone at all times.

1. *I AM God, creator and creator of countless universes and galaxies, countless physical dimensions and immeasurable spiritual dimensions "I AM that I AM" your creator, your creation, may you have no Gods besides me.*
2. *And when you gain wisdom from heaven to earth and on earth and the wisdom of your kind and create flesh and blood, a unique creation in the image and likeness of you, the body of a man or a woman, and you breathe life into it, settling and leaving a part of yourself known as a holy spirit (sha), a divine immortal spirit (sha), a great spirit (sha), and you will put your seal on each of your created unique creations - a man or a woman, and you will call them, you will become equal to the God/Goddess "I am you, you are I"*
3. *Be fruitful and multiply and fill the earth and subdue it and have dominion over the fish of the sea and over the wild animals and over all livestock and over all the earth and over every living creature and creeping thing on the earth and honor your kindred, the heavenly, the underground and the earth.*
4. *Do not enter other worlds with your own laws, but observe the laws of that world.*
5. *Do not follow the darkness, but follow the light, for those who follow the darkness will perish untimely, irrevocably.*
6. *Do not listen to those who call for lies, but listen to those who call for the truth.*
7. *Do not listen to those who say that life is finite, because they themselves do not understand what they are talking about.*
8. *Do not listen to those who say that your neighbor is your enemy, but listen to those who say that your neighbor is your friend.*
9. *Go through many worlds, learning and gaining knowledge, their wisdom, improving your spirit.*
10. *Do not create false commandments and laws that go against the laws and commandments of God, for you will destroy yourself and lead your descendants astray.*
11. *Do not strive for other worlds in order to capture them, for whoever thinks about this may lose his world.*
12. *Do not think that many lands, planets, universes are lifeless; there is life on them that is not visible to you, not felt by your senses.*
13. *Do not use knowledge and technology for evil in order to take over other worlds, but use them for good and knowledge of the worlds, and then you will find the friendship of the inhabitants of those worlds.*
14. *Do not reject the unknown and inexplicable, but try to know the unknown and explain the inexplicable, for I help those who strive to know wisdom.*
15. *Do not believe in the power of traditions, even if they were revered by many generations and in many places, do not believe anything because many people talk about it, do not believe in the power of the sages of antiquity, do not believe what you imagined, thinking that you inspired by God, do not believe anything that depends only on the authority of your teachers or priests. But believe what you yourself have examined and tested and found reasonable, and what is for your good and for the good of others. 19. *Do not destroy your world and its nature, for you will destroy yourself and lose your world.*

20. *Do not live according to the laws that foreign people created in order to deprive you of the will given by me, but live according to the laws and covenants of God for the sake of your only family.*
21. *Do not judge those who have strayed from the path of light, but direct them again to the righteous path, for they will answer for their deeds before their conscience and their family.*
22. *Do not be ashamed of what has been given to you by your nature and one family, but be ashamed of ignorance and ignorance.*

28. *Do not testify falsely against your neighbor; guard your lips from lies.*
29. *Do good deeds for the glory of the heavenly race, the underground race, your great ancestors and your holy land.*
30. *Do not take the life of your neighbor, for it was not you who gave it, but God, but do not spare the lives of the enemies who attack you and your lands, for they went against the will of God.*
31. *The greatest and most priceless treasures in the world are knowledge, conscience and wisdom. They bring prosperity to your family, every real man and every real woman from generation to generation must pass on their knowledge and wisdom.*

1. *I AM God, creator and creator of countless universes and galaxies, countless physical dimensions and immeasurable spiritual dimensions “I AM that I AM” your creator, your creation, may you have no gods but me.*
2. *And when you gain wisdom from heaven to earth and on earth and the wisdom of your kind and create flesh and blood, a unique creation in the image and likeness of you, the body of a man or a woman, and you breathe life into it, settling and leaving a part of yourself known as a holy spirit (sha), a divine immortal spirit (sha), a great spirit (sha), and you will put your seal on each of your created unique creations - a man or a woman, and you will call them, you will become equal to the God/Goddess “I am you, you are I”*
3. *Be fruitful and multiply and fill the earth and subdue it and have dominion over the fish of the sea and over the wild animals and over all livestock and over all the earth and over every living creature and creeping thing on the earth and honor your kindred , the heavenly, the underground and the earth.*
4. *Do not enter other worlds with your own laws, but observe the laws of that world.*
5. *Do not follow the darkness, but follow the light, for those who follow the darkness will perish untimely, irrevocably.*
6. *Do not listen to those who call for lies, but listen to those who call for the truth.*
7. *Do not listen to those who say that life is finite, because they themselves do not understand what they are talking about.*
8. *Do not listen to those who say that your neighbor is your enemy, but listen to those who say that your neighbor is your friend.*
9. *Go through many worlds, learning and gaining knowledge, their wisdom, improving your spirit.*
10. *Do not create false commandments and laws that go against my laws and commandments, for you will destroy yourself and lead your descendants astray.*
11. *Do not strive for other worlds in order to capture them, for whoever thinks about this may lose his world.*
12. *Do not think that many lands, planets, universes are lifeless; there is life on them that is not visible to you, not felt by your senses.*
13. *Do not use knowledge and technology for evil in order to take over other worlds, but use them for good and knowledge of the worlds, and then you will find the friendship of the inhabitants of those worlds.*
14. *Do not reject the unknown and inexplicable, but try to know the unknown and explain the inexplicable, for I help those who strive to know wisdom.*
15. *Do not believe in the power of traditions, even if they were revered by many generations and in many places, do not believe anything because many people talk about it, do not believe in the power of the sages of antiquity, do not believe what you imagined, thinking that you inspired by God, do not believe anything that depends only on the authority of your teachers or priests. But believe what you yourself have examined and tested and found reasonable, and what is for your good and for the good of others. “Doubt is the motivation for research, and research is the path to true knowledge.”*
16. *Do not use words without knowing their true meaning and the meaning that this word carries.*

17. *Master all the arts and ancient wisdom that your race originally preserves, and also learn the arts and ancient wisdom of other peoples and worlds.*
18. *Do not show aggression against those who come to you from other worlds, for how you behave, so they will think about your entire family and the inhabitants of your world.*
19. *Do not destroy your world and its nature, for you will destroy yourself and lose your world.*
20. *Do not live by the laws that foreign people created in order to deprive you of the will given by me, but live by my laws and covenants for the sake of your only family.*
21. *Do not judge those who have strayed from the path of light, but direct them again to the righteous path, for they will answer for their deeds before their conscience and their family.*
22. *Do not be ashamed of what has been given to you by your nature and one family, but be ashamed of ignorance and ignorance.*
23. *Give respect to me, your only creator, and you will find peace and tranquility in your life, and may the gates between the worlds be open for you.*
24. *Do not spare your life to defend your home, to defend your family and your holy faith, to defend your holy land.*
25. *Do not force the holy faith on people, and remember that the choice of faith is a personal matter for every man and every woman.*
26. *Do not offer bloody sacrifices, do not anger me, for it is disgusting for me to accept innocent blood from my creatures.*
27. *Do not boast of your strength to the weak so that they praise and fear you, but gain glory and strength in battles with the enemy, in knowledge and wisdom.*
28. *Do not testify falsely against your neighbor; guard your lips from lies.*
29. *Do good deeds for the glory of the heavenly race, the underground race, your great ancestors and your holy land.*
30. *Do not take the life of your neighbor, for it was not you who gave it, but I, but do not spare the lives of the enemies who attack you and your lands, for they went against my will.*
31. *The greatest and most priceless treasures in the world are knowledge, conscience and wisdom. They bring prosperity to your family, every real man and every real woman from generation to generation must pass on their knowledge and wisdom.*
32. *Every dead person must go to the heavenly world through a great fire, and the ashes of the deceased must be thrown into the waters of a river or sea, or buried in the ground, and in his memory a mound must be built and a memorial stone placed.*
33. *Keep my laws and commandments that I have given you and you will find my help, from the very beginning for the good of the world, forever and ever .*

I am living flesh and blood, a unique creation body-male, named by the will of God Sergei, by the will of the Holy Spirit Nicholas, I AM the Divine Messenger, I AM the Divine Personality, I AM the Enlightened One, I am a living man Sergei Nikolaevich, from the Almighty free family Vorobyovykh, the son of an earthly living woman, mother Mary and an earthly living man, father Nicholas from the Almighty free family of Vorobyovykh, "I AM that I AM, both above and below, both on the left and on the right, as in front, so behind, both within and without," by the will of God the Creator and Creator and by the will of the Holy Spirit and by my will, I solemnly proclaim, expound and announce the hierarchy of canons: In accordance with this sacred Proclamation and Covenant, creation is created and the Code is formed Divine Canon Law, Living Body of Canon Law, also known as Astrum Iuris Divini Canonum.

Astrum Iuris Divini Canonum, known as the living body of Canon Law, consists of three books:

- Canons of Divine Law, in accordance with the Divine Covenant
- Canons of Natural Law, in accordance with the Spiritual Covenant
- Canons of Positive Law,
- A law is a rule derived from divine instruction, scientific discovery, agreement, custom or practice, prescribing or prohibiting certain actions.
- Divine law is the laws that define the Divine and clearly demonstrate the mind, purpose and instructions of the Divine, including the operation of the will of the Divine, through existence. Therefore, we can say that all valid laws come from Divine law.
- Natural law is the laws that determine the action of the will of the Divine through existence in the form of physical rules and matter. Since natural laws determine the functioning and existence of the physical universe, all valid positive laws can be said to be derived from natural rights.
- Natural law cannot be written or created, it can only be discovered. Divine law can neither be written nor created, but only prescribed by Divine Revelation without contradicting Natural Law.
- Positive law is the laws that are made by men and women through proper authority to govern society. Since positive law ultimately refers to physical objects and living beings, all valid positive rights can be said to derive from natural law. Positive law cannot abolish, suspend or change

natural law. Positive or natural law also cannot abolish, suspend or modify Divine law. Therefore, the highest law of all rights is Divine Law, then Natural Law, then Positive Law.

- By the Power and Authority of the Divine Creator and Creator and the Holy Spirit, on behalf of all forms of life and all existence, that all other rights declared by the canonical, canonical canons, standards, are null and void from the beginning forever and ever for the good of light forever and ever.
- All other claimed canonical rights are null and void. The Roman cult, also known as the Vatican, also known as the Holy See, false claims that they are the heads of the Catholic Church are void from the beginning for the sake of light forever and ever.
- Any rights, judgments, opinions or other quasi-legal claims which are contrary to this sacred fact or which are contrary to one or more of the clauses contained in the Astrum Iuris Divini Canonum shall be effectively rendered null and void and shall be void from the beginning for the sake of light forever and ever.
- The highest of all claims to supreme status, recognized by all societies, regardless of which political apparatus holds the rule of law in their hands, is the recognition that where the claims of divine right proclaiming its universal law are believed, these divine rules (covenants) stand above all other known natural and man-made laws.
- In all cases from the beginning of all time there has been a belief in a Divine covenant existing between the Divine Creator and Creator and Messenger, so that those words set forth express the absolute and supreme rights of the Divine Creator and Creator, superior to all other rights, whether incarnated or not. this divine contract by right of birth or right of blood, divine calling, revelation, cry, proclamation or some other mechanism.
- Of all divine revelations, the most powerful is the Divine Covenant, in which the Divine Revelation is expressed in terms of a legally binding agreement, according to the most ancient principles of contract law, an agreement can only be valid when it is signed and sealed between equals. Therefore, since there is nothing higher than the Divine, no agreement - if actually executed - can be higher than the Divine Covenant, although theoretically it is true that for any Divine Covenant to be valid, the second party must be able to represent equality with the first. This is why the Covenant, first developed by the Sarmatian High Priest Rabba in the 4th century, expressed in the Holy Scriptures of the Talmud, stood as the highest legal form above many others - as Baba Rabba, the first rabbi, established by law, based on faith, that the rabbi has the highest jurisdiction on Earth, while Hosts, the Dark Lord of the demonic armies, controlled only the lower halls of the Universe.
- Although the sacred covenant between the first rabbi and the dark lord, also known by various names including Moloch, Satan, the Devil and Lucifer, has stood the test of time, it remains a lesser Divine Covenant, forcing those who seek to remain in honor to continually commit acts of unspeakable evil and cruelty against other higher orders of life until the Covenant was finally broken in 1922 and eliminated in 1948 by people who now worship only themselves above all other life and spiritual energy.
- Even though the Talmud is proclaimed to be the supreme covenant underlying the Roman legal system, based on faith rather than fact, there is a supreme divine covenant and contract by Divine right that has existed since the beginning of time and civilization. This divine Covenant and agreement is, by right of blood, the right of Divine messengers, Divine Revelation, and it has never ceased to operate.

Second Article (2) – Status of Law.

The status of any valid right expressed or affirmed in this Sacred Act is its relative status or condition, position, force, priority and position, as compared with one or more other rights, according to the following facts:

- Only valid rights can have their own status, since a valid right always trumps an invalid, false or prohibited right.
- A valid right received from another will always be inferior to the Real right from which it comes.
- Divine law is higher than Natural law, and Natural law is higher than Positive law
- Perfect Divine Right is superior to imperfect Divine Right.
- Absolute Natural Law is superior to Relative Natural Law.
- Natural Positive Law is superior to conventional Positive Law.
- A valid right of the same subclass and type, relating to the same person, may be equal or indeterminate and may therefore be subject to proper investigation by a competent judicial authority.

Article Three (3) – Transfer of Rights.

The transfer of any rights, titles and property associated with this sacred document is subject to the following four essential elements - writing, authority, seal and recording:

- Writing means that all valid transfers of any right, title and property under this sacred document must always be in writing.
- Authority means that all valid transfers of any right, title or property in writing shall always be made by a duly authorized fiduciary or agent in accordance with this sacred instrument.
- Seal means that all valid written instruments of transfer of property by duly authorized trustees or agents must always be duly affixed with one or more official seals of the superior class.
- Recording means that all valid transfers of any right, title and property shall be duly recorded in the rolls and registers of the superior class in accordance with this sacred document.

- Any party not named herein who has evidence of a valid claim for conveyance on a particular day and time, subject to this Sacred Instrument, may duly assert a valid claim.

Article four (4) – Assertion of law.

The valid assertion of any right is always made under the rule of law, through justice in accordance with these seven forms of action: record, notice, stipulation, order, demand, bill and petition:

- A record is a written record of a valid right kept in writing as evidence, usually within a specific book of records known as a register. A title corresponding to an entry in a register may indicate any legal title, while the presentation of any receipt or certificate from such a register may indicate the existence of an objective title.
- Notice is the assertion of one or more valid rights through a legal process in which a party is informed of any formal legal matter that may affect certain rights, as well as of the form of document used to convey such facts. The main types of notice are public (legal), factual, constructive and implied.
- A reservation is the assertion of one or more valid rights by notice, in the process of which the documents conveyed expressly indicate in writing the confirmation of certain rights. Thus, the presence of such an express statement regarding the assertion of certain rights does not permit the recipient of such documents to assert rights to infringe, seize, suspend, disqualify, contract, seize, seize, alienate, forfeit or extinguish any of the asserted rights, including, but not limited to , any rights expressed or implied in the contents of this document.
- A writ is an assertion of one or more valid rights by issuing a formal document of demand and authorizing one or more agents to direct certain actions to be performed, giving the agents (agent) limited protection from liability for any damages or upon filing of any - or a complaint (claim).
- A claim (complaint) is an assertion of one or more valid rights by challenging in a competent court against another party the right to the possession or use of any property or thing retained from the property of the plaintiff.
- A promissory note is the assertion of one or more valid rights by means of a special instrument and order (promissory note) whereby legal title to one or more valid rights is conveyed to a duly constituted political body by one or more persons in exchange for the proper administration and administration of such rights.
- Petition is an assertion of one or more valid rights by means of petition and petition to the highest sovereign authority in society, which demands recognition of the rule of law and justice to restore possession or ownership of any property or thing withheld from the petitioner's property by an officer or an agent of the same sovereign body (such as a government).

Article five (6) – Clause of law.

In accordance with this sacred document, the three formal types of Reservations regarding one or more valid rights of this sacred document are universal, absolute and perfect:

- The universal reservation regarding one or more valid rights of this Sacred Document means the expression “All Rights Reserved”, used in conjunction with the assignment of any copyright or instrument.
- An absolute reservation to one or more valid rights of this Sacred Instrument means the expression "All rights are reserved in trust for God." It must be used when transferring any copyrighted items or tools. This phrase clarifies that “All rights belong to the True Divine Creator,” using language in accordance with the principles of all Western Roman law. Therefore, the violation of such rights implies not only a violation of sacred trust, but also a failure of the rule of law.
- A perfect reservation to one or more rights of this Sacred Instrument is when the phrase "All rights are reserved in the Sacred Trust hereunder under the True Divine Creator and Creator." It must be used in conjunction with the transfer of any materials or shipments. The phrase makes it abundantly clear that all rights are held in sacred trust under the authority of God the True Creator and Creator in accordance with the highest legal form. Therefore, the violation of such rights implies not only a violation of sacred trust, but also the abandonment of all possible forms of the rule of law and justice.

Article Six (6) – Claim of Right.

Subject to this sacred act and the assertion of one or more valid rights through challenge before a competent court, in relation to the possession or enjoyment of any property or thing retained from the property of the plaintiff, the claim of right is found to be valid and motivated on the basis of

the following essential criteria, identification, certifications, considerations and obligations:

- Identification of a claim means that the claimant clearly identifies himself, his status and capacity in connection with the asserted claim.
- Certification of title means that the plaintiff presents a certified and true copy of a document issued by a duly authorized attorney or agent under the official seal and signed and executed to confer upon the duly identified plaintiff one or more rights giving rise to the claim.
- Review of the Agreement means that the claimant submits complete copies of eligible agreements, signed by a duly authorized attorney or agent under the official seal, for each separate reporting period at issue in connection with this claim and demonstrates the good faith execution carried out by the claimant, the terms and conditions and obligations under the agreement, the agreed fee schedule and any penalties for any violation of the agreement.

A legal dispute is when a party who recognizes and respects the due rule of law, fairness and due process of law disagrees as to the validity of one or more of the legal provisions of this Sacred Document. In accordance with this sacred document, the main concepts used to resolve such a dispute are the following, validity, obligation, status and priority:

- Validity is the determination of whether the rights in question are valid in accordance with this covenant. There is no such thing as a false or invalid right. An indefinite right in relation to an actual right is by definition inferior.
- Duty is the determination of whether a right remains valid due to the necessity of fulfilling some obligations and duties, as in the particular case of all imperfect Divine rights, relative natural rights and conditional positive rights. Evidence of failure to perform a duty may invalidate a right even if it is superior in status.
- Status is the determination of whether one valid right is superior or inferior to another by virtue of belonging to a higher class or subclass, provided there is no evidence of failure to fulfill any prescribed obligations or duties. Barring such evidence, there are no higher valid rights than divine rights, followed by natural rights, and then positive rights.
- Priority is the determination of whether one valid right of equal importance in terms of superiority has greater value by virtue of a prior record, notice, order or demand, thereby identifying such valid right as a valid prior right against any other claim. .

Article Eight (8) – Invalid and prohibited rights.

- any right that proclaims immunity from the operation of the law from which this right follows.
- any right which declares immunity from duties or obligations implied by such right.

- any law which makes it possible for a man or woman to hold the office of judge or magistrate and to act in that capacity without due oath.
- any law which makes it possible for a man or woman pretending to be a judge or magistrate to consider and decide questions of law unjustly, in bad faith or with prejudice.
- any law that proclaims the right to treat a financial or legal advantage obtained by fraud as legal and legitimate.
- deny the existence or validity of this Sacred Document and therefore seek to render part or all of its parts void, illegal or illegal.

As it is written, many believe that there will come a time, known by various names such as “Apocalypse”, “Revelations”, “End of Days”, when the world as We know it will come to an end and the beginning of a “New Age” or “Ages” representing, "An End to the Evil", arrogance and willful ignorance that We continue to see so prevalent in this world today.

Apocalypse is the Divine legal retribution against the willful ignorance and arrogance of the entities known as souls, angels and arch-angels, demons and arch-demons, limited to living flesh and blood, known as living men, women, with the name man, also known as Adam and Eve are the first people on earth, and artificial fictitious persons known as legal fictions, corporations and others.

We proclaim, state and announce:

Models of law

- Of all the varieties of law that have ever existed since the beginning of the first civilizations, two main models of the laws of society can be distinguished:

- 1) the model of slavery, in which a few rule and the rest are obligatory or voluntary “slaves”.
- 2) model of equality, in which “everyone is equal before the law”

- Contrary to the myths propagated by apologists for ancient slave-holding dynasties, the older of these two basic models of law is equality before the law, not slavery and slave laws. Slavery, whether voluntary or involuntary, involves a complex legal system that includes such concepts as trade and property laws. As a result, the laws of slavery came much later than the laws of equality - primarily due to the famous ancient city of Ur around 2200 BC and the Code of Ur-Nammu. It is the Code of Ur-Nammu that is the first historical example of the principle "all crimes against slaves are commercial" - a vital principle of ancient slave law, later the Uniform Commercial Code of 1933.

- In contrast and in direct opposition to the commercialization of law by Urom and the establishment of property principles necessary for sophisticated slavery, one of the most famous attempts to codify uniform laws under which "all are equally subject to the law" was the Babylonian Codes of Hammurabi around 1986 BC . Although slavery was also an integral part of Babylonian life, slave owners were required to treat their slaves with respect and slaves could earn their freedom. This idea that a slave could earn his freedom was also a feature of several civilizations that emerged after the Babylonians, including the pre-Christian Roman Empire.

- It was Constantine who in 326 put an end to the historical period of slavery, creating the Holy Roman Empire under the new imperial motto INRI, which means ILEX NOVUM ROMANUM IMPERIUM - literally "One Law (is) a New Name (for the) Roman Empire", rejecting Rome and its claims to the right to enslave the world through the motto S•P•Q•R (which in Latin meant SENATUS POPULUS QUO REGNUM or “(The Senate) Through Which Government (occurs)”).

- Nevertheless, the enlightenment and legacy of Constantine and his successors such as Justinian could not escape the hands of forgers and their slave owners. Instead of representing the people and leaders who sought to end the practice of treating people as property through enslavement, those who controlled the world of slavery for two millennia damned their souls by presenting them as apologists for the most brutal form of slavery that ever existed. or was intended – “spiritually ordained” slavery.

- All models of law based on forms of slavery, directly or indirectly recognized as "slavery", depend on beliefs based on faith and religion, rather than on facts and evidence. Thus, the most complex systems of slavery are imposed by fear and intimidation based on the absolute rights of slave owners, while the most sophisticated systems of slavery are based on the desire to be a slave and voluntary slavery.

Religiously Supported Slavery

- Of all the models of slavery, the most cruel, the most evil and the most perverse is the concept that slavery is not only permitted, but also supported by the Divine Creator. The original authors of this abomination and terrible lie are the priests and warlocks of the Israelites - most notably the House of Meneshe (Menes-He) in their wicked manifesto of enslavement and worship of Baal Moloch, also known as the Lord of Hosts, also known as Satan, the Devil and Lucifer.
- Religion claims Divine right and/or permission to treat certain members of the human species as less than us through the promotion of racism, blood rights, customs and scriptures. Such faith-based beliefs are "made legitimate" through legal fictions such as property rights, debts, acquiescence (estopol), and other devices. Since such legal systems must by definition be based on "faith" and not on the "fact (logic) of law", such systems periodically begin to collapse and require the unleashing of terror, horror and destruction to restore control and faith-based prejudice - hence the constant need in war and massacres.
- After their abandonment by the Hyksos, during the expulsion and captivity of the cruel Ramesses, Yahud cursed God for not saving them. For two hundred and ten years they served voluntarily their masters, while their children were killed and all forms of disaster and disgrace fell upon them from their ancestors. But when Yahud, also known as the Israelites, were captured and forced into forced labor a second time at the Persian court of Nebuchadnezzar, the leaders vowed that they would never again allow themselves to be slaves, instead of enslaving their enemies and the world - directly violation of God's covenants.
- Such was their hatred of the Divine who had abandoned them and this world that when Baba Rabban formed the Kingdom of Israel in the 4th century, he invented a three-tiered form of slavery in which slaves who accepted the new religion of the Jews were to receive the highest respect and were free for several years, and then the non-Jews, known in ancient times as the Canaanites, and now as the K-Nights and eventually all other people, were not to be considered slaves, or even worthy as animals, but simply things, known as property.
- While the legal concepts of this system are evil enough in themselves - in which the minority rules the majority, some of them are recognized as higher slaves, and the rest are considered only as property and things that are bought and sold as goods in the market - then What made this system extremely evil was the deliberate falsification of the House of Meneshe in its Talmud and the later distortion of the sacred scriptures of Christianity by claiming that Divine sanction was granted for such curses.
- Thanks to the fateful events of massive climate change, plague and their immunity through genetic anomaly, the descendants of the House of Meneshe spread their rule as gods under many names, including Khazars, Khans, Magyars, Umayyads, Genoese and Veneti throughout the East and Eastern Europe. Thus the damned continued to curse the name of the Divine Creator and all living things from the Divine, abandoning all pretense of caring for the world in which they claimed supreme dominion as any kind of trustees. Instead, they decided to continue to behave not as proxies, but as hyenas and scavengers "in their own lands."

Roman cult system of slavery

- As the climate improved and people became immune to endless terror, it became increasingly difficult to treat much of the world like pigs and farm animals. Thus, the descendants of the Twelve "tribes" of the House of Meneshe and the Sarmatian Kingdom of Israel developed their models of slavery to adapt to changing conditions with the introduction of a level of "middle management" to manage the slaves and enforce their "divinely ordained" requirements of slave law.
- Neither Charles Martel nor his sons Pepin, Carloman or Winfred could imagine that after the formation of their General and Apostolic Church, also known as the Holy Catholic Church in 742 in Paris, that they would contribute to the perpetuation of enslavement and unspeakable cruelty towards people of the Earth and the planet through the perversions of the Roman cult and their Venetian/Meneshekh/Khazar Overlords.
- While the Roman cult first seized power through Gregory VII in 1057 with the financial support and assistance of the fabulously wealthy Venetian Khazar Urseolini family, it was not until the 13th century that the Roman cult achieved real power with the formation of a false Holy See divided between Venice and the pagan Luciferian families Rome. The memory of the Franks and their hatred of slavery and the laws of inequality were replaced by even more curses from the Meneshe, making Charlemagne - as they had done with earlier enemies - one of the great patrons of slavery through the Salic law under which no one could escape slavery.
- The basis of the new mid-level slavery laws was the identification of real property with lesser forms of property. According to the legal system of the Roman cult, only flesh and land were considered to have real value, while all other forms of property were considered "derived" from the primary forms of real property. Therefore, the highest slaves, such as modern Roman slaves holding the positions of queens, presidents, governors, are considered flesh, while many of their "subjects" are considered simply chattel, tied to the land. Likewise, when a man and woman named "Man (Adam and Eve)" are legally deprived of ownership of their flesh, then they are technically in poverty - having no real property - and are legally a "debt slave."

- To ensure that no one would challenge the rights of the descendants of Meneshech and their absolute control over and claims to all "property", the Roman Cult was tasked with introducing a new form of Trust Law. The first express trust formed for this deception and theft was the Unam Sanctam, issued by Pope Boniface VIII of the Roman Cult in 1302 and falsely declaring that the Roman Cult had the right to assume the role of guardians in the form of the Court of Trustees known as the Curia for the first time formed for this purpose, derived from the Latin word cura/ae, meaning guardian/guardianship.
- Thus, all the "real property" of the world was expressed in this trust, administered by the Curia as a court of trustees, the hidden owners being not the Divine, but the blood descendants of the Meneshe for all eternity. To hide the operation of the trust, history has since created the terribly absurd claims that Curia is somehow related to the Latin word Senate and many dozens of false Papal Bulls have been created to hide the Trust Deed claiming ownership of the entire world in full view of all mankind .
- To ensure the collusion and cooperation of those who had less arrogance and hatred of the Divine than Meneshe, the offer of joining as Caananites or K-Nights (Knights) was offered along with the higher servile role of the Sovereign to a handful of trustworthy families at first turn to the loyal Scythians, who converted to Sarmatism and became known as the Black Khazars, and later as the Ashkenazis. The Curia, as trustees, then divided the world into areas to sell slavery contracts, first to Spain and Portugal and then to England, while those who enforced slavery and profited from slavery remained as descendants.

It changed.

- Notwithstanding the age of the Unam Sanctam trust deed, by the very laws of the trust which they themselves formed, both the Roman cult and their masters were guilty of fraud and dishonor from the very beginning of the formation of the curia and the stated transfer of property into this trust:
 - 1) First, the leader of the Roman cult, through the deed of trust of the Unam Sanctam, claims to represent an apostolic dynasty of spiritual leaders dating back to the original founders of Christianity, which is openly and easily debunked by anyone who rejects the office of Roman slavery and their corrupt history. The Roman cult, also known as the Vatican and the Holy See, were neither the founders of the Catholic Church nor Imperial Christianity. Instead, they are and remain devoted Satanists, obediently serving their masters, who are the descendants of Meneshe - they themselves are not the true blood leaders of Yahud, now known under the false term "Jews." Therefore, in the knowing and open representation of their declared powers, the transfer of the property claimed by the Unam Sanctam must be wholly illegal, void, illegal, since the Curia has neither legal trustees nor any valid trust.
 - 2) Secondly, the Roman cult leader, through the Unam Sanctam trust deed, refers to the distorted and completely evil writings of the Meneshe and their Talmud, using "faith" and these false descriptions to claim the Divine Right to transfer all "real property" into the stated trust. Since such writings cannot easily be proven to be neither genuine nor original, and that both the Roman Cult and their masters have demonstrated a long history of forged and fraudulent documents, any "legal rights" invalidate the false deed and any such transfer rights both illegal and invalid.
 - 3) Thirdly, and most importantly, the Roman cult and its slave owners do not admit in their fraudulent alleged trust deed of 1302 that for over 5000 years the Divine Creator recognized the ancient lineage as Trustees, Stewards and Guardians, and that all real estate has already been legally placed in trust by Holly aka the Saint aka the Hyksos, the Prophets, the Serpent Kings, the Shining Those Priests the Kings of Ur, Ebla and the true Kings of the Messiah Yahud and Meneshes. Therefore, the destruction of sacred lands and the removal from the history of their existence, including the assignment of the title "Saint" to them, has no legal basis and negates any criminal and dishonorable act committed since then, including making the Unam Sanctam invalid and having no legal force
- While these facts cannot be disputed, regardless of the force exerted by either the Roman Cult or its masters to the contrary, there is historical evidence to suggest that members of the lower families of Meneshech and the Roman Cult have long known that their claimed role as guardians is unsustainable - hence the introduction in the 16th century of a new form of slavery, voluntary servitude, expressed in the denial of both the Roman cult and the Meneshes in the form of "Common Law Laws".

The system of general slaveholding law.

- Almost all those who testify to the so-called "superiority" of the common law believe that its birth occurred not as a result of the enslavement of the Roman cult and the Venetian slave owners, but the rejection of "popery" and moneylenders through the "Protestant" movement. However, although these sentiments reflect the noble and idealized views of many great writers, jurists and advocates, they do not reflect the facts of their formation, nor their purpose, nor the deliberate introduction from the very beginning of such a "wrong line of thought."

- Hatred of the atrocities of Rome and the ancient slave owners on the part of many who follow Protestant Christian values has served as an excellent cover for being "blind" over the centuries to the actual facts of its formation. Nothing more than the beginning of the "Protestant" movement and the emergence of modern systems of trade under common law, admiralty law under the reign of Henry VIII and his successors. For what is never openly discussed is how the Kingdom of England suddenly became phenomenally rich almost overnight, along with a whole new set of legal fictions based on the concept that men and women bound themselves as slaves, denying them the right to own property, conduct trade for the purpose of creating a debt and accepting them as collateral for such debt.
- Indeed, the very meaning of the word Common, first formed in the 14th century from the Latin com/committo = "to entrust, oblige" and munis = "burden, public debt, service or obligation" literally means "to entrust voluntary service/obligation" " To suck the flesh from the mind and the spirit from the flesh and mind, the Venetian slave owners developed an inventive two-faced world in which all real estate was recognized as a "Trust" while the capital and energy of voluntary slaves were controlled not as serfs, but as "employees" of companies, but all major the companies were controlled by the Roman cult in the interests of slave owners.
- Meanwhile, when a child is born over the past few hundred years, parents are tricked into giving the child's flesh and soul to a Roman cult under the guise of a signed record of a Living Birth. In this case, the record of the birth of a living child is issued as a bond in order to provide an additional guarantee of compulsory slavery, while a birth certificate is issued to the new corporate entity, and the new child is instilled with the belief that the birth certificate and name belong to him, instead of ownership in a larger corporation.
- The common law system of voluntary slavery has become extremely successful, especially when supported by the concept of Demo (take/remove) Cratis (a bundle/bundle of sticks is an ancient symbol of rights and fascism), also known as the system of "democracy" or voluntary fascism. However, a negative side effect for both the Roman cult and their slave owners is the continued accumulation of common law rights to slaves. For this reason, during the last one hundred and fifty years, a number of important measures have been actively pursued to return slaves to more manageable systems of less rigid rights.
- The principles of equality in the 19th century were abolished under the common law system of voluntary servitude, with the result that slavery laws no longer provided justice or adequate remedies. Funeral laws, called "dead hand" laws, were also brought back so that real estate such as land could not be legally claimed - even in new territories and people could not legally reclaim their flesh once taken them as slaves. Meanwhile, to ensure that no vassal nation, which was nothing more than a slave plantation, could break away from the control of the rulers, the Roman cult constantly invented its own canonical laws.
- Nevertheless, despite all these innovations aimed at distorting and humiliating the general laws of voluntary slavery, the false leaders of Menehech considered them insufficient and unacceptable, since they were Scythian tribes who converted to Sarmatism and then became known as Ashkenazim . Hence the events that led to the practical abolition of common law in 1933 and the introduction of purely commercial law, as well as a return to the ancient slavery laws of the Meneshech Talmud and ancient texts such as the Code of Ur-Nammu.

Modern system of commercial slavery

- While the common law provided a strong foundation for voluntary slavery, it also created the conditions for many of those in power, in the sense that slave rights continued to accumulate as the common law developed. The decision was made to suspend and abolish common law and return to the archaic slavery laws of the House of Meneshech and the Khazars/Venetians.
- In 1933, an apparatus was created by which all but a few in the world were returned to nothing more than movable property to be bought and sold. Sea liens have been placed on newborn babies since 1933, separating their soul from their flesh and damning them to slavery.
- In 1983, to ensure that judges on slave plantations such as the United States, Canada and Europe stopped using common law principles, the Roman Cult issued their most draconian and terrible version of Canon Law, in which courts were considered oratories, judges - ordinary (priests) and their chambers are like chapels. Now, with full ecclesiastical powers, the judges were continuously taught to adhere to the false Noahide Laws, according to which the false leaders of the Meneshe were the Ashkenazim, the descendants of the Black Khazars, themselves the descendants of the Scythians, who were never true Israelites, but were heretics of the worst kind.
- This is why the courts no longer deal with any precedents or traditions within the framework of the general (voluntary) slave law, since most people do not even have the right to be considered slaves.

World slavery.

-Before December 21, 2012, you were or remain a slave, just as your parents and your grandparents and great-grandparents were slaves. You may be lucky enough to live on a nice plantation with other slaves, run by slave overseers such as police, judges, doctors and politicians, where there are few instances of cruelty. Or you may witness life on a communal plantation that is part of a government slave plantation and a national slave

plantation, where there is more crime, more suffering and more death. The fact that you are a slave is beyond doubt. The only question is whether you will allow your children and their children to also grow up as slaves.

-You are a slave because you live under the laws of slavery, also called commercial law and the Uniform Commercial Code (UCC), first introduced in 1933 and based on the ancient principles of Sumerian slave law enshrined in the Code of Ur-Nammu of 1900 BC . e., that "all crimes against slaves are commercial." Under the UCC slavery laws, applicable to all nations as corporations incorporated in the State of Delaware of the United States, corporations do not own any real property, only the debts and energies of slaves, and you are considered an employee of the corporation and its guarantor, as evidenced by a certified copy of your birth certificate, which you have but can never belong to you.

-Therefore, under the UCC slave laws that apply on most slave plantations in the world, you can never own a house, you can never own a car, a boat or any other object, but only use it. In fact, you do not even own your own body, which is said to have been legally donated by your parents at your birth in the tradition of old slave contracts in which a child slave would dip his feet or hands in ink, or a drop of blood would be spilled on a commercial document transaction, known to us as a birth record.

-You may not realize that you are a slave under the slave laws of the Uniform Commercial Codes (UCC), but you may still mistakenly believe that you are a slave with "greater rights" that were previously granted under the "common law" while it was not largely canceled back in 1933 without giving you proper notice. The word "common" comes from the 14th century Latin communis, meaning "to entrust/entrust/to undertake a burden/public duty/service or obligation." This word was created from the combination of two ancient Pre-Vatican Latin words com/comitto = "to bring, entrust" and munis = "burden/public duty/service or obligation." In other words, the real meaning of the common, as first formed as a result of the creation of the Roman trust in the PLANET, is the concept of "voluntary slavery" or simply "voluntary enslavement".

-The common law is nothing more than the laws of "voluntary slavery" and the laws of "voluntary slavery" to the Roman cult and Venetian slave owners. The slave master's job is to convince you that you are not slaves, that the common law still exists and has not been largely abolished and replaced by commercial law, to confuse you, to give you false hope. In turn, they are rewarded as loyal slaves with larger houses and greater privileges than other slaves.

-The reason why slave overseers such as judges, politicians, bankers, actors and media figures are forced to lie and deny that we are all slaves is because the slave system of voluntary servitude or "common law" was not the first global slave system, but simply its evolution. Before the advent of the common law, we were all considered mere animals or things under the canon law of the Roman cult, also known as the law of the throne or the law of the admiralty.

-By Admiralty law you are either a slave of a ship of state or simply cargo for legal custody. Thus, in 1302, through the Unam Sanctam, the Roman cult illegally claimed, through a trust, ownership of the entire planet and all living "things" either as slaves or less than slaves with things administered through the company court. This court, declared the Supreme Court of all courts on the planet, was initially abolished in the 16th century, only to be brought back in 1908 under Pope Pius X as a purely spiritual ecclesiastical court of 12 "apostolic prothonotary" spirits, meaning the Twelve Apostles. From then on, this new purely spiritual court remained in constant "process", with local courts using these powers to govern divine immortal spirits, expressed in embodiment in vessels of flesh, as mere dead things.

-However, this is not the only form of slaveholding law that is still in effect. Instead, the oldest, most evil are based on the false history of the slave laws of the Meneshe, also known as the Rabbi through the wicked document of hatred first formed in 333, known as the Talmud of the Meneshe - the false Israelites. Thanks to the Talmud of the false Israelites, the entire planet is enslaved by the servants of the "chosen people" known as the Qananites or K - Nights , the Knights , also known as the Scythians, and then the rest - as Goy/Gyu and GOI-namely, meaning cattle, dead lifeless corpses and all this combined.

-The truth known to those who claim power, and to those who faithfully serve such them, is that the world has been enslaved for many hundreds of years, without enlightenment until now.

Jail

-Prior to December 21, 2012, the system of global slavery and treating the world as one big slave plantation was designed in such a way that there was no way out - as evidenced by the courts of the priests of Bhaal, known as the judges of most legal systems in the world.

-Even the most educated men and women can remain fooled into believing that with self-representation they can claim their "common law rights" as a remedy, only to realize that the judge is illegally dismissing any claims. Since the first law of the courts is the Uniform Commercial Slavery Code, enacted in 1933, the defendant is an officer of the corporation and therefore automatically assumes liability for any damages. If they can't pay, they could be sent to prison.

-If such a trickster as a judge is challenged, they will be allowed to escape to their chambers and call upon an even greater force to return and magically create a new court without informing the defendant that they have now entered the Admiralty Court or the laws of the throne according to canon law of Roman cult, published in 1983. Now the judge can impose severe penalties on such an irresponsible defendant, including

contempt of court and prison terms, and the defendant has no rights unless he knows the canon law regarding legal persons and establishes a status above what is called a “thing.”

-Unfortunately, few people know the true meaning of the word “thing” as a court session or meeting, a case brought to court, a trial, an accusation brought; or a claim or case pending in court. This meaning is then used to devastating effect through Pius X's heretical concept of 1908 to claim that the dead apostles sit in permanent and open session as the "twelve prothonotaries" of the Sacred Company - as the highest Supreme Court on the planet. Therefore, when a man or woman receives a blue or yellow notice from the court, issued through this unholy knowledge of canon law, by the time they come to court, they automatically become a thing. When a man or woman tries to defend themselves by trying to speak before a judge, they automatically "agree" to be a thing. Thus, a judge aware of such deception can silence any man or woman by "legally" threatening contempt of court if the "thing" does not stop making noise.

-Indeed, it is the canon law of the Roman cult of 1983 that establishes that all courts are oratories, with judges having ecclesiastical powers as "ordinaries" and their chambers as chapels. Thus, Bar Associations around the world are helping judges become aware of their new powers to confront those men and women who continue to recognize their status as slaves, but demonstrate how to remain "in honor" with such a perverted law and ensure that such "terrorists" » were sent to prison for long periods as a warning to others.

-If the judge is so inclined to ensure that the educated defendant is lawfully sent to prison or worse, he or she can run away to his or her chambers for the third and final time and call upon his or her most powerful position as the rabbi of the Talmudic court in accordance with the Talmudic laws of the false Israelites from home twelve tribes of Meneshe. Now, even a judge in a country that opposes the death penalty can decide to impose a “legal” sentence on any Goy/Gyu or Goyim who dares to harm an Israeli—which usually means death. However, while judges in the United States and other countries have begun to train themselves to reintroduce Talmudic law, it is in the hands of the false Meneshe, also known as the Scythians, also known as the Black Khazars, and now the Ashkenazis.

-The education that was given to judges and bar association lawyers by the Ashkenazi rabbi is false, flawed and has no spiritual or legal basis. It was the Ashkenazi rabbis and their families of bankers, industrialists and slave traders who were responsible for breaking the sacred Covenant of the Talmud in the illegal sacrifice of millions of people possessing the blood of the Meneshe by fire during World War II, the illegal creation of the State of Israel and the ultimate violation of the Covenant in the creation of the New Covenant of the United Nations , which they claim to control.

-Indeed, these arrogant, ignorant and blind rabbis and families openly proclaim themselves “Jews” - a word mysteriously introduced in the 16th century by the real Rabbi Menesche. Since the true definition of "Jew" is Goy/Gyu and goyim, then it is the false Meneshes, being Scythians, also known as Ashkenazis, who are the self-proclaimed heretics, and the rest of us who are the true Israelites.

-Despite the truth, despite their own laws, they will continue to refuse to yield, for they claim control over a system designed so that no one can escape, in which no one is free and the whole world remains enslaved.

The True Origin of the Scythians, Also Known as Ashkenazis

-Every narrative that has stood the test of time has at least some grains of truth sown within it. Scythians is an ancient Greek term applied to the numerous nomadic tribes originating from the Cossack Mountains and around the Caspian Sea in Central Asia and in their time, by the 6th century BC. BC, which dominated an area stretching more than 2,000 miles from Ukraine to Mongolia. They never worshiped Baal Moloch, also known as Satan, Hosts, the Devil and Lucifer - so they were never Sarmatians until the 7th century AD. e. The Scythians were also never descendants of the Israelites or followers of the traditions of Kings Yahud and the Messiah - only to start pretending to follow the Talmud after their conversion to the worship of dark forces and evil in the 7th century.

-The Sarmatian priestly class known as the House of Meneshe were well acquainted with the Scythian leaders, and when their kingdom was defeated by the Byzantines, they sought refuge in the lands of the Scythians. With the advent of the Great Plague, which killed every second inhabitant of the known world, the Meneshe became the great "White Khazars" and gods of the Scythian tribes, and the Scythian leaders were reduced to less related "knights" known as the "Black Khazars".

-It was this subordinate role that many Scythian tribes continued to honor, including their most famous hero, Genghis Khan, who conquered much of the known world but was never allowed into Jerusalem. When the Khazar empires collapsed, some of them converted to Islam and others moved West and North into Russia, creating the great empire of Sarmatia, the Scythians followed them as loyal slaves of their "White Khazar" overlords.

-In the 12th century, the term Ashkenazi first appeared to refer to these recent converts to Sarmatism and demon worship who were never true descendants of Meneshech and were never true Israelites. This word comes from three Hebrew words ash meaning ashes, fire (in this case spiritual fire), ke meaning “like A”, and nazi meaning prince/exalted (initiated) – hence the Ashkenazi meaning literally “spiritual fire/Believer,

like a true devotee." Thus this name is proof that the Scythian descendants even in the twelfth century knew that they were less than their overlords, the blood relatives of Meneshe.

-However, by the 16th century, the descendants of the Scythians, now known as Ashkenazis or simply the slang term for "Nazis", began to show their disapproval and rebel against their former masters. By the nineteenth century, Ashkenazi merchants, bankers, and merchants openly rebelled against their traditional overlords, who were themselves never true Israelites. Then, in the twentieth century, the Ashkenazis devised a cunning and wicked plan to sacrifice the ignorant and uninformed descendants of the Meneshe and bring about the end of the Talmudic Covenant in exchange for the creation of their own New Testament in the form of the United Nations, the creation of the State of Israel, which they would control and global commercial banking system.

-Thus occurred the events known as the Holocaust during World War II, allowing the Scythians/Ashkenazis to commit their heresy against the faith they supposedly follow. But through the deliberate sacrifice of millions in fire, the Scythian/Ashkenazi moneylenders concocted an even more terrible scheme - they stole the names, lineages and identities of hundreds of thousands of true descendants of the Meneshe and "White Khazars", changing the names in the lists so that those burned alive were real Less, and those who traveled on false passports and papers prepared by the Vatican and its agents were Scythian/Ashkenazi deceivers. Thus, the greatest identity theft in history—aided and abetted by the Vatican—occurred as a result of yet another historic violation of the Covenant of the Talmud. Since then, all major world events have largely revolved around these Scythian/Ashkenazi descendants and their complete incompetence as trustees for those who themselves claim control of the world. -These are the people who claim to rule the world today - their names are stolen from the people their parents and grandfathers helped kill, they pretend to follow the Talmud but in reality seek to protect their precious Covenant with the United Nations, they do not believe into nothing and no one, they seek to feed off the work of others and encourage ignorance among all but a few they have never been true Meneshes and heirs of the Covenant in the Talmud, and they have certainly never been true Yahud and true Israelites.

Liars and thieves who will never yield to power

-When we are faced with the reality that most of the fate of the world is in the hands of a few families of people who are based on lies, cannot speak anything but lies, believe in nothing and seek to control everything - we talk about liars and thieves who will never yield to power, despite overwhelming signs of divine protest.

-It's just that these people do not fear divine retribution from either the Divine Creator and Creator of all things, or from Satan/Moloch/Lucifer for their historical act of heresy against the Talmud, because they do not truly believe in God or the dark force. Instead, they believe that all these things are the creation of the collective imagination of people over the centuries - a tool that can be manipulated, that can be used for their own benefit.

-Even when these liars and thieves are caught in their own courts, they will not be punished - to spew more lies and propaganda about how they are being persecuted, how such revelation of truth is anti-Semitic - when they are not even true Israelis, nor those who are referred to as the chosen people of the Covenant of the Talmud.

-Despite their terrible crimes against the man and woman named "Man (Adam and Eve)", they will find ways to delay, try to negotiate, dodge because they truly believe themselves to be smarter than the rest of the world, while the rest of the world remains chained to faith, belief and general ideas of decency.

-It therefore remains unlikely that the leaders of such peoples will give up what they have stolen, choosing instead to burn and destroy what they can no longer control. Then it all depends on those few who know the truth and have the power to stop these mad pretenders so that the world does not suffer even more from their madness.

-If the world can be saved from more of their harm, then may the models of justice, freedom, equality, empathy and compassion, love, prosperity spread throughout the world and truly usher in the age promised to all.

Means of protection

- The scientific and moral fact that all men and women of the human species are exactly the same physically, genetically and belong to the same species and have the same natural and inalienable rights by virtue of their birth.

-The right to sovereignty of every living man and woman is the cornerstone of the great Abrahamic religions, which proclaim the Divine Creator and Creator, Genesis "On the sixth day of creation, God created in His own image, male and female, and gave them the commandment to be fruitful and multiply."

Genesis chapter 5/2 "He created man and woman, the first couple, and blessed them, and on the day of their creation He gave them a name: "Man

(Adam and Eve).” For those who truly understand the words to which Jesus refers, the same declaration of sovereign rights is also enshrined in his words and laws.

- “He sets a seal on the hand of every man and woman with the name ‘Man (Adam and Eve)’, so that all people may know His work” (Job 37:7). Each of us is a unique and unrepeatable creation of God. And God’s seal on the hand of every man and woman with the name “Man (Adam and Eve)” - confirmation of His authorship - is also absolutely individual. The Creator gave each man and woman with the name “Man (Adam and Eve)” individual prints (papillary patterns) on the fingers and palms, and in the whole world there is not a single man and woman with the name “Man (Adam and Eve)” with the same fingerprints like yours. This is one of the reminders that the man and woman named “Man (Adam and Eve)” did not happen by chance, that each of us is unique and is not a copy of someone else.

-While the most sacred scriptures proclaim, without dispute, the sovereign rights of all men and women as equal, in reality such systems continue to deliberately and specifically continue to deny these rights, be it the ancient right of blood or the advent of a divine messenger, the right of royal blood or whatever -or other means.

Claims to Divine Right

- The strongest and truest of these claims to divine right are contained in the words written by the most revered dead men and women in history, including prophets, messiahs, teachers, apostles, saints, patriarchs, high priests, bishops, emperors, popes and poets.

- Of all the Divine covenants, the most powerful are considered to be those of the ancient dynasties of high priests and the ancient dynasties of messianic kings, such as the Messiah kings of Jerusalem and the high priests of Yahudi. One of the strongest claims to divine right is that which is believed to be given to Jesus of Nazareth, also known as Jesus Christ, also known as Jesus the Messiah and Jesus the Son of God.

- While any living man or woman may claim divine right, in all cases a true sign and proper proof of their divine authority must be shown. More often than not, the most acceptable demonstration of Divine Power is embodied in a message of wisdom, knowledge and teaching, which carries with it the unmistakable mark of Divine Wisdom.

—**Today** those who hold in their hands the greatest temporal power and also claim divine power make such claims not as prophets or indisputable divine messengers of the Divine Creator and Creator, but as simply representatives of an office possessed of certain divine powers and an office legitimized by its continuous connections and continuity from some specific ancient date.

- While such examples of fictions holding divine authority as the Sedes Sacrorum (Holy See), the See of St. Peter and its connection with claims to apostolic succession can be shown to be fatally and factually erroneous, this example remains the cornerstone of the highest legal the power of the Roman Pontiff and the Roman cult as the highest spiritual force on planet Earth.

- Thus, kings, queens and other monarchs claiming superior sovereign rights over men and women through such fictions as the Holy See thereby further enslave living men and women as voluntary or forced subjects with lesser rights.

- While religious and secular leaders such as the Roman Pontiff of the Roman cult may claim the highest spiritual and legal authority over all of planet Earth, even such authority is subject to a higher power—the Divine Creator and Creator and faith in the promised return of the Divine Savior.

- The fundamental reasons why such organizations and leaders, who have power over other men and women, living and dead, continue to remain in power is because spiritual and/or other power has not yet emerged on such a scale to carry out the literal, legal, spiritual, forceful fulfillment of all prophecies, it has now been clearly and indisputably demonstrated that such a force exists and now holds true and supreme power over all people, all corporations and religions.

Ending slavery

- All those who read our Proclamation may reject some or all of what is written, especially considering the principle of slavery. Indeed, slavery laws were repealed for all corporate affiliates of the Roman cult, and canon law speaks of slavery as undesirable. And yet all that happened was that the administration of slavery was eliminated and control was restored and returned to the true heirs and trustees, all men and women on planet Mother Earth.

Instead, the slave laws of the Talmud were updated and completely revived, with high-ranking judges and lawyers around the world required to take an oath and oath to follow the corrupt and false teachings of the false leaders of the Meneshe and their corrupt hand in the corrupt Christian texts;

- And the Ashkenazi/Scythians, like those who falsely claim to be the leaders of the Meneshe, do not even follow their own laws, as evidenced by the End of Days through World War II, the creation of the State of Israel, and the United Nations as a futile attempt to effect unification 12"

tribes" of the lost Sarmatian Kingdom of Israel.

- Neither these Scythians/Black Khazars and the lying families of the Israelites honor a single word of the Talmud, as evidenced by their continued association and enslavement through their documents, taxes and registration of the most ancient blood of Yahud and Meneshe, which is forbidden by their own scripture.

- A rabbi or family member of Venetian slave owners may continue to sacrifice children and drink their blood without knowing the origins and symbolism of this horror. A rabbi or servant of the Roman cult slave-owners might even accept the demand for eternal sorrow and enslavement of the world as vengeance on God. Such is the severity and severity of the damage done to the souls of their ancestors, who bequeathed their hatred, their secret rituals and the belief that they were victims, because even the worst actions have a reason.

"These people, especially those who reject my orders, do not believe in anything. They are worth nothing. Their whole world and their bloody legacy is a lie. They succeed only in deception and in persuading others to remain willing slaves to their madness while their blood rights are unenforceable.

- We therefore completely reject the various claims of the Roman Cult, also known as the Vatican, also known as the Holy See and its documents known as "canon law", as nothing more than erroneous and false positive laws, having no legal force in Divine Law or Natural Law right.

- We remind all those who have now received, through this sacred document, divine notice of the protest and that the true heirs, the true trustees have returned to regain their rightful position.

- Thus, any judge or official who uses the canon law of the Roman cult as the basis for his actions does so without any legitimate legal basis, but with the help of the temporary and unstable force of fear, violence and corruption.

- While those who currently rule the world or serve as faithful slaves have every right to at will reject this proclamation and any remedy presented here, history and the Divine dictate that it is at this moment that the proclamation must be declared.

- Let everyone who hears and reads this document come forward and stand up for the truth. We call on all spirits living or dead, guardian spirits, protective spirits and the most fearsome angels and demons and entities of higher and lower order, all men and women to unite with a common affirmation that the End of Days has come, and that there will be no more fear, no more Willful ignorance and arrogance will be allowed to rule this world.

Let it be as it is written, so it will be, everything that is written and spoken exists from the very beginning in eternity, for the benefit of the world forever and ever.

We give life to all of the above, power and authority, all instruments and personality to this most sacred irrevocable act that was proclaimed, announced and declared, entered into force through our seals of blood and command this proclamation to be conveyed to all men and women, to all Gods and Goddesses, all souls, entities of higher and lower order.

UNIQUE CREATION BODY, MAN OR WOMAN”), We Are what We Are , we hereby grant life and actual power and authority to this sacred immutable act through our three living seals of blood, as the highest perfect notification from the Supreme Court to Our Companions, beings of the higher and lower order and all present witnesses and those who will be present in the future .

In accordance with **the Ecumenical calendar, Twelfth day, Day of the week: Venus, fourteenth month of the winter solstice 5778, Constellation: Aries, Time: 6 hours 0 minutes**, which corresponds to [December 21, 2012] Roman time, the day of full consciousness has arrived , the revelation of truth and the end of all laws and empires.

As it is written, many believe that there will come a time, known by various names such as “Apocalypse”, “Revelations”, “End of Days”, when the world as We know it will come to an end and the beginning of a “New Age” or “ Ages” representing, "An End to the Evil", arrogance and willful ignorance that We continue to see so prevalent in this world today.

Apocalypse is the Divine legal retribution against the willful ignorance and arrogance of the entities known as souls, angels and arch-angels, demons and arch-demons, limited to living flesh and blood, known as living men, women, with the name man, also known as Adam and Eve are the first people on earth, and artificial fictitious persons known as legal fictions, corporations and others.

We proclaim, state and announce:

1. To all rabbis, Jewish political, financial, educational and social leaders throughout the world, formal notice of Divine protest and dishonor is hereby given to each of you, and you are now participants in this sacred cause.
2. A godly man and woman named “Man (Adam and Eve)” believes that the word of God is superior to the works of men and women. Thus, a good Jew turns to the holy scripture itself for wisdom and meaning, however this is not the teaching of the Talmud, instead in many places this most wicked of works says, as the Babylonian Talmud says in Tractate Erubine “be more careful in observing the words of the scribes, than in the words of the Torah.”
3. You, the rabbi, openly admit that you were elected based on reading the Talmud, not the Torah. A rabbi receives his credentials not from knowledge of the word of the Almighty, but from his mastery of the Talmud as the basis of Halakha (laws).
4. The rabbi now places himself above God, in outright heresy, and the sheep follow him. The Talmud seeks to subvert the Torah by devaluing and rewriting great passages, only one sect called the Karaites sought to give greater importance to the Torah, ahead of the Talmud and was hated for many centuries.
5. What then is the claimed heritage of the Talmud? In a mystery that defies all logic and reason, we are told that we believe its origins are in the oral traditions of the Mishnah from the time of Moses, not written down until the 4th century. Yet the Rabbi knows nothing of the true Moses. A rabbi looking at a copper scroll will no more understand the ancient Greek Zadokite codex written on it than a man named "Man (Adam)" who has no idea about the world.
6. It is stated that the first person to write down and codify the purported oral code of Judaism called the Mishnah was Judah, sometime in the 3rd century CE. e. And yet many fables have been written about Judas. He is said to be descended from the line of King David, but his ancestry is not true. Instead, it is stated that he was the great-great-great-grandson of Hillel the Elder and the great-great-grandson of Yohanan Ben Zakai, also known as John the Baptist. This lie alone should have exposed such a pathetic fabrication as that John the Baptist was the son of the Zadokite priest Zechariah, the sworn enemy of the house of Hillel.
7. As for the true founder of the Mishnah, who came from the tribe of Reuben, meaning wolf, also known as Baba Rabbi, the first Rabbi and the first Rabbi, his identity is deliberately hidden. For the knowledge of Baba Rabbi, also known as Menes-He, the high priest of the Sarmatians of Netanel, who worshiped Baal Moloch as the founder, will reveal the truth of the Mishnah and Talmud.
8. Indeed, the figure of Judas is completely mythical, while the historical figure of Menes-He the high priest of Netanya, known as Baba Rabbi, who died in prison in Constantinople in 362, is true.
9. It is Baba Rabban, together with the scholar Merkah, who is the first author and founder of the Mishnah in 333, which directly contradicts the founding of imperial Christianity by Emperor Constantine in 325.
10. It was Baba Rabbi who founded the Sarmatian state, which he called Israel in 333 after the death of John the Baptist.
11. It was Baba Rabbi who violated the laws of the Zadokites, Nazarenes and Mithraism by adopting the woolen headdress of Cybele's kippah, which was worn by all Sarmatian believers.

(The Cybele Cap is one of humanity's most ancient and sacred religious symbols. It is a thin, slightly rounded skullcap that is known today by various names, including kippah, yarmulke, kufi and zucchetto).

Cybele's cap was traditionally worn by senior priests under other formal ceremonial headdresses, such as the miter of Dagon or the cap of Attis. In later years, the cap was also worn by penitents, those on purification pilgrimages, and those who had completely shaved their heads and facial hair

(men and women).

Its meaning is the personification of respect, fear and submission to the Queen of Heaven, the Mother of all gods. A similar meaning is the probable origin of the word "yarmulke" from the Aramaic phrase yari malka, meaning "fear of the king (God)" and/or the Hebrew ya'are m'elokai "to tremble before the Lord."

Although today the Cybele cap is synonymous with Orthodox Judaism and some Muslims, there is no reliable religious or historical precedent for its use in either religion.

In the case of Judaism, there are strict places that prohibit the wearing of such skullcaps and headdresses. There is also not a single verifiable historical example of the existence of the wearing of the pagan Cybele hat in the Jewish tradition before the 3rd-4th centuries AD. Contrary to modern attempts by scholars to "explain" this anomaly, the popular use of the yarmulke is without a doubt heretical to ancient Jewish scripture and law.

Likewise, in the case of Islam, there is not a single reliable evidence that Muhammad ordered his followers to wear such a headdress, not a single line in the Holy Quran requiring such obedience.

On the contrary, the Koran quite clearly and in detail sets out other requirements for clothing, in particular, for the public behavior of women. Therefore, we can say with complete confidence that the wearing of Cybele's cap by Muslims has no reliable religious basis and is a serious apostasy from the worship of gods other than Allah.

In Roman Catholic ceremonial clothing, Cybele's pagan cap is called Zucchetti.

Rome and Vatican Hill have every reason to be connected to Cybele, as the Vatican was the site of the largest ancient temple and necropolis of Cybele, dating back to 200 BC.

However, in the various major versions of the Gospels rewritten over the centuries, there is no evidence that Zucchetti has any spiritual significance for Christian ideals.

There is also no evidence that it was used by the leaders of various Christian sects until the Middle Ages)

12. It was Baba Rabban who again violated the laws of the Zadokites, Nazarenes and Mithraism by requiring his followers to bow down in prayer daily to worship Mount Gerezim rather than Jerusalem.

13. Thus, under Baba Rabban, all of Palestine became the State of Israel and was Divided into twelve (12) administrative districts, governed by the Chief Priest of the priestly family of Menes

-tribe of Menes-He from Asher under the leadership of Rabbi Ashi Ben Abin

-the tribe of Menes-He from Benjamin under the leadership of Rabbi Benjamin Ben Japheth -

-tribe of Menes-He of Dan under the leadership of Rabbi Daniel Ben Katrina

-tribe of Menes-He from Ephraim under the leadership of Rabbi Ephraim Ben Papa

-tribe of Menes-He of Gad under the leadership of Rabbi Gaddi Ben Menashi

-tribe of Menes-He from Issachar under the leadership of Rabbi Isaac ben Samuel

-tribe of Menes-He of Judah under the leadership of Rabbi Judah Ben Menasiah

-tribe of Menes-He of Levi under Rabbi Levi Ben Hama

-tribe of Menes-He of Manessiah under the leadership of Rabbi Menashiah Ben Takhalifa

-tribe of Menes-He from Naphtali under the leadership of Rabbi Nappah

-tribe of Menes-He of Simeon under the leadership of Rabbi Simeon Ben Lakish

-tribe of Menes-He from Zebulun under the leadership of Rabbi Zebidah

-tribe of wolves, tribe of Menes-He of Reuben under the leadership of Rabbi Papa, also known as Baba Rabban

14. To the extent that the Byzantine Emperor Constantine sought to take over and control the reform of Mithraism and end the practice of human sacrifice, so in response those who worshiped the deity of human sacrifice rebelled.

15. The Menes-He, the ancient tribes of pirates from the Nile Delta who worshiped the spirit of Ra in the guise of the Ram, also known as Khibiru, who were eventually tamed by the Hyksos and imposed as tribute, now called Constantine's actions a curse against the Hyksos, a curse against God and the World and after that they were destroyed.

16. While Constantine sought throughout the empire that love and the golden rule should be honoured, Menes-He sowed hatred and deceit.

17. While Constantine sought to establish a new relationship with the Divine Spirit, Menes-He changed the tradition of the worship of Baal-Moloch into the worship of Hosts, also known as the Sabbath, with one day a week being its holiest day.

18. While Constantine sought to teach the youth the principles of ethics, morality and logic, Menes-He through the Mishnah taught their youth hatred, mistrust, sociopathy and to hate themselves and everyone else.

19. It was under the holy Emperor Justinian that the final push to rid the world of madness and the satanic worship of Menes-He took its next turn, just as it was done in the time of Constantine, Justinian's code before its corruption made it a capital crime to follow madness and control over The mind of the Talmud.
20. Based on such capital orders against Menes-He, the Israeli King Julian ben Sabar ordered the writing of an anti-law against Justinian's code, called the Gemara, which was to become the second profane part of the Talmud.
21. Although Emperor Justinian succeeded in defeating the Sarmatian kingdom of Israel by 530 and scattering the twelve tribes of Menes-He, the victory was short-lived. After the arrival of the plague, Menes-He, who also carried the gift of the CCR 5 gene inherited from Akhenaten, known as Moses, survived while everything around him perished.
22. Together with his vassals, the Scythian and Mongol land pirates, Menes-He regrouped to become the "white" Khazars.
23. Thus the ever-edited and evolving manual of degradation called the Talmud has changed, so that each generation may be cursed with lessons of wisdom and ignorance, love and pain, beauty and ugliness.
24. Even to this day, the rabbi forbids speaking of its true content, translation, and he has no sense of honor or reverence for the Divine words contained in it, constantly changing them, to perpetuate the doctrine of degradation.
25. Therefore, we are not talking about what can be used as a defense against what was once written in the Talmud. Instead, we share only a glimpse of history regarding the true intent of this grisly work:
 - for centuries, in one of the versions of Moed Kattan, it was written that if a Jew is tempted to do evil, then he should “go to a city where he is not known and do evil there.”
 - For centuries, one of Erbin's versions has written that anyone who disobeys the rabbis "deserves death and will be punished by being boiled in hot excrement in hell."
 - for centuries, in one of the versions of "Baba Kamma" it was written and confirmed by rabbis even today that Jews can use lies and tricks to "deceive the Gentile"
 - For centuries, one version of the Sanhedrin has written that if a non-Jew hits a Jew, “the Gentile must be killed” and that the Jew “should not pay the Gentile the wages due to him for his work.”
 - One version of the Sanhedrin has written for centuries that a Jew “may have sex with a child until he is nine years old” and “may marry a three-year-old girl.”
 - for many centuries it was written down in one version of the Soferim as a solemn rule for all rabbis that “even the best of the pagans must be killed.”
 - for centuries, in one of the versions of the Baba Kamma it was written that if “an ox of an Israelite gores a ox of a Canaanite, then there is no responsibility,” but “if the Ox of a Canaanite gores an ox of an Israelite,” then “the payment must be full.”
 - for centuries, in one of the versions of “Baba Kamma” and “Baba Moesia” it was written that “if a Jew finds an object lost by a pagan, then it does not need to be returned,” and in the Sanhedrin - “what a Jew steals from a pagan, he can keep this for himself.”
 - in one of the versions of the Sanhedrin for centuries it was written that if a Jew kills a non-Jew, “then there will be no death penalty for him.”
 - in one of the versions of Yebamoth, over the centuries it was written that “all children of the Gentiles are animals,” and in Avoda that “Gentile girls are from birth in uncleanness.”
 - for centuries, in one of the versions of Yebamoth it was written “a woman who has had sexual intercourse with a beast has the right to marry a Jewish priest,” “a woman who has had sexual intercourse with a demon also has the right to marry a Jewish priest.”
 - for many centuries it was written in one version of the Sanhedrin that the mother of Esus, also known as Jesus Christ, she who was a descendant of princes and governors, played a harlot with the Carpenters, was cursed.
 - It is also said in the Sanhedrin that “he (Jesus) was sexually immoral, worshiped stone statues, was expelled from the Jewish people for his wickedness and refused to repent.”
26. Of the many false things written in the Talmud, the assertion that Rabbi Menes-He outwitted God is the greatest heresy, yet is accepted by those who call themselves Jews, Christians and Muslims alike.
27. This statement is taken from a mysterious passage from the book of Baba Metzia, which describes a dispute between Rabbi Eliezer, Rabbi Joshua and Rabbi Nathan, as well as a dialogue with the spirit of the prophet Elijah.
28. This passage describes a series of supposedly supernatural miracles performed by God during a legal dispute. Miracles seem to strengthen the power of heaven against the softness of those who live on earth. However, the true purpose of the dialogue is to prove that, despite the overwhelming power of God, the laws of heaven exist for heaven, and the laws of the Earth are controlled by the rabbi and the rabbi claims that the laws of the earth exist for himself.

29. Thus, in this passage we see a claim to equality with God, hence a contract with God in the form of a blood pact, a blood libel - but not with God as we know him. Instead, the God of the Talmud is the lesser God Moloch, who was then worshiped as Hosts and YHVH.
30. Therefore, the Talmud states that it is an unholy contract between God and his "chosen people" whereby they claim dominion over the entire world in exchange for the eternal enslavement of all other races and animals.
31. While Rabbi Menes-He wrote his profane and blasphemous work Talmud, contrary to their own claims of scripture and history, they are not and never were Israelites.
32. While Baba Rabbi called his kingdom Israel, since this was the first time that ancient Egyptian curse word was used to describe a kingdom, Baba Rabbi and his tribe were never Israelites, but were descended from the river pirates of the Nile and the swamp pirates of Persia and many other nations.
33. These swamp pirates, who in time became merchants and moneylenders of their own, were never the nobility of Egypt or Syria. They were never descended from Akhenaten like Moses, instead they were thieves of culture, robbers and destroyers of history.
34. What about the Star of David? This is none other than the Hexagram, the Androgyne Yantra, associated with the "white" Khazar descendants of Menes-He, in 14th century Bohemia.
35. Therefore, their entire history is built on the shifting sands of swamps and lies. They built their cities on their favorite swamps, but they always hated the minds and civilizations that transformed knowledge and the world; they are a people without history.
36. The Talmud prohibits the unification of the tribes of Israel until the end of time, the last sacrifice of the goyim, the coming of the messiah and the revelation of the new divine covenant. This is repeated throughout the Talmud and all who claim to be the "chosen people" must be taught this as an act of faith - or be guilty of a crime punishable by death according to the Talmud.
37. However, the Rothschilds, Zionist Jews formed the Balfour Accord, implemented in 1922, created the Holocaust in which more than six million innocent people were burned alive, declared the return of the messiah as the spirit of Lucifer, the new covenant as an organization of united nations representing united tribes Israel and the State of Israel in 1948.
38. This was not the hand of the Most High, whom the people of the covenant in the Talmud must honor, but the invention of arrogant people who considered themselves the Most High. Since then, the world has continued to suffer as these bastards fight among themselves while they now seek to eliminate the short-term relief provided through the voluntary slavery known as common law.
39. So where is Baal Moloch, Satan, Hosts, Lucifer - the God whom they should secretly worship as the God of the covenant? If they truly believed in the existence of Lucifer, then why did they undertake such an extreme act of heresy against their own religion? Maybe they believe that Lucifer and Satan are just fictitious constructs and do not exist, as is their curse against the Divine for abandoning them and (so far) never bringing them to justice?.
40. These people who claim to rule the world have broken their own covenant, they have made themselves Gods, so that now they not only hate the Divine Creator and Creator and everything that was created, but they also hate their own God and everything that they created it themselves. They are trapped by their own madness, their own ignorance and arrogance. They are doomed to death due to their own betrayal and heresy.
41. Deep in the writings of the Talmud lie words that spell doom for the world of the elite anti-Semitic Khazars and Venetian parasites, the false Menishes who defied their own god and broke the covenant. Deep in the writings of the Talmud it speaks of the vengeance of the Almighty and the end of their world.
42. The Rabbi's original idea was to hide the Meneshe among the Yahuds who still existed throughout the world - to create a new word that would unite the sheep and the wolves, but the Rabbi's arrogance and especially their arrogance towards their own Supreme led them even further along the path that we witness today, when they reintroduced the Talmud as the fundamental law in almost every country.
43. But what is the true origin and meaning of the word "Jew" from the 16th century? the 16th-century term "Jew" is variously claimed to come from Old French Giu, which is supposed to come from an earlier version juieu, and then from Latin iudeus and Greek ioudaios, however this is cleverly and deliberately misleading. Jew is the Greek equivalent of the term yahuda, not Jew.
44. It is impossible to receive the word "Jew" from a Jew, as it comes from Yahuda. So where does this word actually come from and what does it really mean? It's just that the word "Jew" comes directly from goy and gyu, two Hebrew words used derisively to variously mean "cattle" and "dead lifeless, soulless corpse."
45. To put it more clearly, anyone who today calls himself a Jew recognizes himself as a goyim, a goy-goy heretic before the Most High Testament, an enemy of the chosen people, and not a true Israeli, doomed to destruction.
45. These are not my words, these are the words from the treaty in the Covenant - bankers, heads of the Anti-Defamation League, Jewish lawyers and judges, slave traders and swindlers - they all openly admitted and identified themselves not as people of the covenant, but as the last victim of the end of days, the goyim that they think of us so arrogantly.
- Based on the above, We Proclaim, Announce and Order:

1. We Am, I Am, God the Creator and Creator, the King of all Gods - I am the Living God Sergei, expressed in trust in living breathing flesh and blood, a unique creation body-male named by my will Sergei, I Am, the Holy Spirit - I am the Living Holy Spirit Nikolai, expressed in trust in living breathing flesh and blood, a unique creation body-male named Nikolai by my will. 5. All those who have expressed their free will to reap the Tree of Ignorance, Evil and Fear, and hold on to property, power and right and do not want to return them to their rightful owners, then We Are, We Are what We Are, call on all living Gods, Goddesses living or dead, all living souls living or dead, all guardian spirits, protective spirits and the most formidable angels and demons and entities of higher and lower order, perform the following;

- Until all property, rights and power are returned to their rightful owners, the most formidable angels and demons and entities of the highest and lowest order will devote every second of every day to disturbing the mind, disturbing sleep, giving misdirection, causing doubts, distracting in execution duties and ensure oblivion of the flesh from all types of existing danger.

In accordance with **the Ecumenical calendar, Twelfth day, Day of the week: Venus, fourteenth month of the winter solstice 5778, Constellation: Aries, Time: 6 hours 0 minutes**, which corresponds to [December 21, 2012] Roman time, the day of full consciousness has arrived, the revelation of truth and the end of all laws and empires.

As it is written, many believe that there will come a time, known by various names such as "Apocalypse", "Revelations", "End of Days", when the world as We know it will come to an end and the beginning of a "New Age" or "Ages" representing, "An End to the Evil", arrogance and willful ignorance that We continue to see so prevalent in this world today.

Apocalypse is the Divine legal retribution against the willful ignorance and arrogance of the entities known as souls, angels and arch-angels, demons and arch-demons, limited to living flesh and blood, known as living men, women, with the name man, also known as Adam and Eve are the first people on earth, and artificial fictitious persons known as legal fictions, corporations and others.

We proclaim, state and announce:

1. To His Holiness the Pope, also known as the Roman Pontiff and Vicar of Christ, all Prefects and Heads of Congregations, all other heads of departments of the Vatican, otherwise falsely called the Holy See, all Cardinals, Archbishops, Bishops, all heads of Orders, Priests, Nuns and Friars, A formal notice of protest and dishonor is hereby served and you are now participants in this sacred cause.
2. Emperor Justinian, in the Senate of the new Rome (Constantinople), declared that those things which indeed seemed disgusting to his predecessors in the form of sacrifices of men and women, demonic worship, slavery and accusations of usury, but which none of them dared to carry out, decided to carry out them with the help of a new code, called the Code of Justinian.
3. While his predecessor, the British Emperor Constantine, unified the empire through the creation of Christianity, neither Constantine nor any of the emperors of the new Rome appealed to the long-standing regulations of the Lares or the customary laws that still governed the daily life of the empire. Thus, imperial Christian edicts would be celebrated publicly while continuing to be unused in practice regarding common law, often in favor of the practice that such imperial edicts were intended to end.
4. Recognizing that unless the associations, families, and guilds that sought to deliberately pervert society, live as parasites, and corrupt its resources were eradicated, the empire would fall like old Rome, Justinian introduced the most severe and just laws that could be seen in Roman history, including the following:
 - the end of all forms of slavery, with slavery being considered a sin against the Divine Creator and Creator (God), including the death penalty for slave traders,
 - equality before the law for all men and women, including religious clergy, so that no man or woman can claim higher privileges.
 - abolition of all forms of human sacrifice.
 - prohibition of usury and strict control over moneylenders.
 - immediate death penalty for all members of the cult of Meneshech and the leaders of the Sarmatian rebellious kingdom of Israel.
5. Thus, in the year known to us as 525, that is, five hundred and twenty-five years from the death of John the Baptist, the Emperor Justinian ordered the publication of his completely revised code, not only in the empire, but also to send it out by Emissaries to every corner of the known world.
6. His code immediately caused outrage throughout the empire, not least its harsh treatment of Menes-He and the rebellious kingdoms of Israel, the epicenters of Satanic cult and slave trade. However, by 532, his army had scattered the twelve tribes of Menes-He-Israel and destroyed thousands of satanic worshipers.
7. In 532, having defeated the Sarmatians, Justinian intensified his persecution of Satanic cults by ordering the closure of all temples of the Phrygian goddess, otherwise known as Cybele, Dionysus and Athena and outlawing the worship of Cybele, as well as a capital crime, this caused widespread riots by the Gallic priests and their supporters in major centers, including Constantinople, however, this resistance was suppressed.
8. To commemorate the destruction of evil, Justinian began the construction of the greatest Basilica in honor of the divine creator called (temple of) the divine Wisdom or Hagia Sophia, completed in 537. However, his celebrations would be short-lived due to the plague that began in 541, which killed every second inhabitant of the city's 500,000 men and women, excluding those who had the gift of Akhenaten, also known as Moses, in the form of SS R 5 immunity.
9. Emperor Justinian and most of his court survived, but he was broken by such mass death and the collapse of much of the empire. He remained a recluse until his death around 565. But the greatest sorrow for Justinian came many centuries after his death, when the descendants of Menes-He took upon themselves the curse of his memory and legacy, forming a completely false idea of his laws, his beliefs and the principles of universal justice.
10. Before the onset of the great plague, Justinian's army did not have time to execute the Sarmatian leaders, who were high priests. Instead, they dispersed throughout the known world into central Asia, Africa, and western Asia, where they sought safe harbor with their slave trading partners.
11. The fact that the Menes-He also possessed the SS R 5 gene immunity against the plague greatly increased their status among the nomadic tribes from Mongolia to the Khazar Mountains and the Menes-He quickly became the leaders of the new empire - the Khazars.
12. After the collapse of the Khazar Empire and the resettlement of some Magyars in the captured Venice, the Menes-He returned to their ancient roots as both sea pirates and land robbers, stifling trade, lending money and seeking to control markets, primarily salt, and then through the Franciscans founded by the Venetians - all European shipping, requiring that only Franks could be navigators and own maps.

13. While the power of Menes-He grew in their collaboration with the Lombard princes to form the Roman cult, which took over Rome to exercise control over the French-created Catholic Church, first under Gregory VII in the 11th century, and then permanently from the 13th century, their vengeance on their ancient enemy Justinian was only accomplished in 1583, when the Jesuit Denis Godefroy issued the Corpus Iuris Civilis (the modern name of the body of Roman civil law), as a masterpiece of fraud, in which Justinian's code was completely corrupted, cursed and provided with the texts of the complete fictions, including Digests (codes of laws).

14. Thus, the foundation of modern Western law, also known as Roman Law, was fraudulently born at the end of the 16th century, beginning its origins in the 6th century and creating entirely new legal fictions such as "Person and Thing" at the same time, reinforcing the old claims of the Roman cult, such concepts as "The Pontiff is the Father, We are the Children."

15. It is true that if any official or unconscious agent of the Roman cult had demanded proofs of the authentic Code of Justinian, they would not have been presented at the present time, such is the work of Menes-He, that their greatest Craft is the destruction of history and the vandalism of culture. How then can one find evidence to support such an assumption that the Roman cult, their parasitic overlords and the many supporting groups who claim that this system is the basis of all modern Western law, is a Fraud?

16. The answer lies less in exposing the traces of the Master Forger, which even today cannot escape the scrutiny of logic and reason. First, this is the obvious history of Rome, against New Rome itself.

17. The fallen Emperor Constantine created New Rome, later called Constantinople, deliberately to reduce the power and influence of Rome rather than strengthen it. If it had been the desire of Constantine and subsequent emperors to honor Rome, they would have returned to the old city to defend it and then rebuild it after it was badly damaged in 410 and then completely destroyed in 455.

18. In the time of Justinian, Ravenna was the capital of Italy, and Rome was a city of ghosts, surrounded by small cities called Urbi, but the forgery Corpus Iuris Civilis claims the authenticity of several letters between Justinian and the fictitious Popes of Rome, where he dedicates all his laws and the entire Empire to the glory of Rome - an absurd and ridiculous fraud. However, loyal agents of the Roman cult do not dispute such obvious evidence of fraud and maintain that the Corpus Iuris Civilis is an authentic document.

19. In addition, there is a claimed source of pandects from Corpus Iuris Civilis, carefully constructed after some legal scholars in the 18th century began to question some of these works. It was mysteriously "discovered" in a text called the Florentine Codex in the library of Florence after apparently remaining unnoticed in the library of the city of Pisa since the 6th century, never having been read or mentioned by any scholar in the Middle Ages. century.

20. Despite the obvious fraud that such a large book of alleged important law was somehow "hidden in plain sight", the most obvious evidence that the Pandects are frauds is the Claim that it was written in both Greek and Latin. Greek was the official language of the imperial Christian empire, while Latin was suppressed and eventually lost by all but a few. Thus, the assertion that Latin was considered equal in status in the imperial

The Byzantine document, even copies, is an absurdity in the extreme, supported only by the gullibility of voluntary agents of the Roman cult and their minstrels (servant-poet, servant-singer).

21. The third most obvious example of fraud is the use of advanced legal fictions and concepts foreign to the ancient world, even during the reign of the Byzantines, such as the concept of "person, thing, property, title, estate and constitution" - to name just a few examples.

22. The legal fiction for turning men and women into actors by calling them "persons" is a highly intellectual legal concept that did not become possible until the development of advanced trust law in Europe from the 15th century, when the Roman cult continued to exploit its claims to control of all property, falling under the right of use.

23. Likewise, the concept of taking property by force, when the estate (estate) is the sum of the words e + state (e + statue), or "by decree, judicial decision", according to the cestui que vie trusts, was not used as legal concept before 1540. So how is it possible that these advanced legal concepts, so necessary for the Roman cult to assert control over the world, could have found their way into the writings of the 6th century Byzantine emperor responsible for the destruction of the Kingdom of Israel, Menes-He, unless there was blatant fraud?

24. It is no coincidence that Denis Godefroy, a brilliant student from the College of Navarre in Paris, perhaps the largest Jesuit Latin college of the time, called his teacher a fraudster corpus iuris civilis or C. IC, indeed, the Canon Law of the Roman cult is called codex iuris canonici or C. IC

25. However, although many consider canon law to be the basis of the Roman cult, it is the masterful fraud of the corpus iuris civilis, Denis Godefroy and his Jesuit associates that represents the real source of its strength.

26. In just four hundred years, the Roman cult had convinced all but a few that the Corpus iuris civilis, or C. IC, was the true basis of Western law and was the first law created by Justinian in the 6th century.

27. Therefore now, instead of ending all forms of slavery, since slavery was a sin, Justinian is damned, claiming that he codified not only the legal ownership of slaves, but also the principles of slavery for life or feudalism.

28. Instead of ending the privileges of cults and religions that use common law to remain above the law, the memory of Justinian is cursed by claiming that he forever established that the Roman Catholic Church is above all other laws.
29. Instead of Justinian abolishing all forms of human sacrifice, as he historically sought to do throughout his life, his legacy is cursed with the claim that Justinian ordered the punishment of heresy and the sacrifice of fire.
30. Unlike Justinian, who prohibited usury, his memory is cursed by the fact that he became its defender.
31. Therefore, prompted by the Divine Creator and Creator (God), we are obliged to expose and protest the supreme ecclesiastical dishonor inflicted on all men and women, living and dead, by the usurpers of the Catholic faith who falsely call themselves the Holy See, also known as the Vatican and the Roman Cult .
32. These usurpers and parasites do not represent the true continuity of either the founders of the Catholic Church, nor the founders of the first Christian Church, nor the Apostles and the founder of the Nazarenes known as Jesus Christ, instead these usurpers represent everything that the founders of these three Religions fought against while the parasite did not find a way to invade the hosts' country.
33. Where once there was a single mind and body, the parasite split them from the inside, creating individuality. Where there had once been reverence for Divine Law and Natural Law, the parasite replaced customs of peace and respect for nature with the worship of blood and ancient cannibalism.
34. Unrested, the parasite infected all civilizations and all nations, creating discord and disease to weaken the body and mind of the collective people. He started wars in the name of God. He killed in the name of Love. He continues to sacrifice children in the name of the Savior, claiming that he serves everyone for the salvation of the Soul.
35. Therefore, when the usurpers of the Roman cult say that the church does not have two heads, like a monster, this is a lie. Indeed, the false church of the holy see is a hydra serving many masters, none of whom is the Divine creator, nor the men and women who believe in it. She is the Whore, sitting on a stolen throne and eating her young. She is the Mist that Blinds us, the smell that Seduces us, and the spell that binds us to Madness.
36. Such is the nature of a corrupted and enchanted Mind that it cannot think Logically, Reasonably and knowledgeably, especially the law. Instead, he accepts the contradictions as fact, fraudulent acts, contracts are still in good faith and without claims, supposedly this cannot be disputed. But since we are now free from the curse and spell brought upon us by the parasite, we can reconsider our claims competently and with knowledge of the law by which the Divine Creator and Creator first judges such claims as valid or false.
37. Thus, although the church or any other body may claim spiritual authority and authority over all other temporal authorities, it cannot support such claims without the strong arguments of law and therefore of Divine Right, Natural Right and Positive Law.
38. Divine means the totality of meanings and definitions of all objects, matter, rules, life, mind, universe and spirit, also known as the Absolute, all is, unique collective mind, unique collective consciousness, unique collective awareness and other historical names when used to describe the greatest of all possibilities. Since the Divine means the multitude of all multiplicities, there is nothing greater, therefore everything else is less.
39. Divine Covenants and Laws are covenants and laws that define the Divine and clearly demonstrate the mind, purpose and instructions of the Divine, including the operation of the will of the Divine through existence. Therefore, we can say that all valid laws come from the Divine Covenant and Law.
40. Natural Law is the laws that determine the action of the will of the Divine through existence in the form of physical rules and matter. Since natural laws determine the functioning and existence of the physical (material) universe, all valid Positive Laws can be said to be derived from Natural Laws.
41. Positive Law is those laws which are made by men and women through proper authority to govern society. Since Positive Law ultimately refers to physical (material) objects and living beings, it can be said that all Positive Law is derived from Natural Law, and Natural Law is derived from the Divine Covenant and Law.
42. Positive Law cannot abolish, suspend or change Natural Law. Likewise, Positive Law or Natural Law cannot abolish, suspend or modify Divine Law. Indeed, usurpers and parasites openly admit and agree that even they could not change such logic. In fact, they recognize that only the Divine Creator and Creator above all others can ever hold supreme ownership of all things and that we can only claim a "right of use" in a cascading sequence.
43. Such agreement and recognition, even if such words are but a false copy of an older act, is significant, for it demonstrates that the Roman cult depends in part on such logic and reasoning in order to support its claims as a curia and, therefore, claimed trustees of all the property of the planet and the universe.

Based on the above, We Proclaim, Announce and Order:

I am, living breathing, flesh and blood, a unique creation body-male, named by the will of God Sergei, by the will of the Holy Spirit Nikolai, the son of an earthly living woman, mother Mary and an earthly living man, father Nikolai from the Most High free family of sparrows, I am a living man Sergei Nikolaevich from the Vorobiev family, collectively known as the Supreme Holy Trinity ("GOD – GODDESS", "SPIRIT – SOUL", "FLESH AND BLOOD A UNIQUE CREATION BODY, MAN OR WOMAN"), We Are what We Are, we hereby grant life and actual power and authority to this sacred immutable act through our three living seals of blood, as the highest perfect notification from the Supreme Court to Our Companions, beings of the higher and lower order and all present witnesses and those who will be present in the future.

In accordance with **the Ecumenical calendar, Twelfth day, Day of the week: Venus, fourteenth month of the winter solstice 5778, Constellation: Aries, Time: 6 hours 0 minutes**, which corresponds to [December 21, 2012] Roman time, the day of full consciousness has arrived, the revelation of truth and the end of all laws and empires.

As it is written, many believe that there will come a time, known by various names such as "Apocalypse", "Revelations", "End of Days", when the world as We know it will come to an end and the beginning of a "New Age" or "Ages" representing, "An End to the Evil", arrogance and willful ignorance that We continue to see so prevalent in this world today.

Apocalypse is the Divine legal retribution against the willful ignorance and arrogance of the entities known as souls, angels and arch-angels, demons and arch-demons, limited to living flesh and blood, known as living men, women, with the name man, also known as Adam and Eve are

the first people on earth, and artificial fictitious persons known as legal fictions, corporations and others.

We proclaim, state and announce:

1. Each and all monarchs, kings, queens, emperors, princes, princesses, counts, dukes, barons, lords and other persons holding the title of nobility are hereby, individually served with formal notice of the Divine Protest and Charge of Dishonor and this means that you all, as parties involved in the Act, are now subject to and comply with its terms.
2. The Roman Pontiff is neither the bearer of the key to the Heavenly Kingdom, nor the vicar of Christ, he is only a falsifier and usurper of rights. The Roman Pontiff can be neither the father of nations nor the good shepherd, only a molester of souls and a wolf among the innocent. The Roman Pontiff rules nothing and does not save anyone, since the Divine Lord did not trust him with anything. He will not receive either eternal bliss or forgiveness, since the Divine Lord did not give him anything, did not bestow or convey anything to him.
3. Any favors and benefits granted to kings and princes by land title are void, since they do not represent a genuine right of ownership, any legal form or form of transfer of title. Thus, all property rights and land rights have no legal basis and are based solely on false claims and false evidence.
4. All men and women are neither infants nor slaves nor vassal subjects of the Roman cult, and must pay neither tribute, nor taxes, nor any duty for the use of their land, free from all encumbrances and false claims from parasitic title .
5. Because the Roman Pontiffs of the Roman cult never possessed the true authority of the Catholic Church, nor the true apostolic succession, nor the real right to represent themselves as the Vicar of Christ - therefore they thrice disgraced themselves before the Divine Creator and Creator, uttering blasphemies and heresies in the name of power and benefits, and therefore the transfer of any and all favors, gifts and benefits to them is void from the very beginning.
6. Considering these undeniable facts, all the permissions given to the princes and vassals of the Roman cult to invade, seek out, capture, subjugate and subjugate all the enemies of the Roman cult, wherever they may be located, as well as any kingdoms, duchies, principalities, possessions, dominions, as well as all movable and immovable property that they own, convert them into eternal slavery, as well as alienate and appropriate for themselves and their successors entire kingdoms, duchies, counties, principalities, possessions, dominions and property, convert all to own, use and profit from is completely illegal, it is the most grievous sin against all forms of life and all existence and against all the true fathers of the Christian churches and this debt must be expiated.
7. The origin of the word and title "sovereign (sovereign)" is not entirely clear if we recall the existence of the Vatican College of Abbreviations, under the brilliant leadership of Thomas Aquinas (1225-1274), who came up with the idea of creating a completely new dictionary of Latin terms, especially for Roman cult, which controlled the Vatican since the 11th century, by shortening existing ancient Latin terms and creating new words based on them, in order to "express the hidden meaning . "
8. Many of the word forms used today were created during this period, otherwise known as the era of Medieval Latin - the word "Sovereign" is one of them. Unlike the retrospective mythology that is used to determine the origin of the word, Sovereign is a word created by the Vatican College of Abbreviations using the four basic word forms of ancient Latin: solus - one, only, only, vere - truly, truly, truly in fact, correctly, rex regis - king, ignis - (from) fire and ignarus - (from) the ignorant .
9. Therefore, the true etymology and meaning of the Sovereign is "the one true king of fire/ignorance" - a title created by the Roman cult and their component known as the Holy See and used in the creation of the system of "legal heirs and viceroys" throughout Europe and the world .
10. Because the Roman Pontiffs of the Roman cult never possessed the true authority of the Catholic Church, nor the true apostolic succession, nor the real right to represent themselves as the Vicar of Christ - therefore they thrice disgraced themselves before the Divine Creator and Creator, uttering blasphemies and heresies in the name of power and benefits, and therefore the transfer of any and all favors, gifts and benefits to them is void from the very beginning.
11. For one thousand two hundred and sixty years we have been living under the yoke of usurpers and swindlers. One thousand two hundred and sixty years have passed since Carloman, son of Charles Martel, invaded Italy with his Frankish brothers and proclaimed himself the vicar of Christ. This was foretold one thousand two hundred and sixty years before the end of the reign of the Roman cult and the terrible world of hell created by the insane elite of anti-Semitic Khazarian/Venetian parasites.
12. Indeed, it is written on the foundational Divine Stone that every man, woman and spirit of the highest order that has ever lived will inherit their right to the kingdom of heaven. It is also written that every divine immortal spirit expressed in trust in living flesh is born, first, by Divine trust through the divine creator, and secondly from the office of trustee of such deity.
13. Therefore all the claims of the Roman cult and its Venetian masters are an abomination and a lie, directed against the law of God and against all forms of logic and reason. Neither man nor woman are slaves. Everyone is equal before the law. This is the golden rule.

14. Since all men and women are equal, any claim to title in connection with inheritance based on any estate formed under the rules of the Roman cult has no legal basis. Such claims, rights and customs automatically become invalid, since fraud renders all contracts and agreements, and therefore property rights, void.

15. No person, association or organization can claim either dominion over others, or tribute, or the collection of taxes based on slavery, cestui que vie trusts or other artificial associations based on fictitious and false arguments and claims of the Roman cult, as well as their elite anti-Semitic Venetian/Khazar parasitic overlords.

Based on the above, We Proclaim, Announce and Order:

1. We Am, I Am, God the Creator and Creator, the King of all Gods - I am the Living God Sergei, expressed in trust in living breathing flesh and blood, a unique creation body-male named by my will Sergei, I Am, the Holy Spirit - I am the Living Holy Spirit Nikolai, expressed in trust in living breathing flesh and blood, a unique creation body-male named Nikolai by my will. In accordance with **the Ecumenical calendar, Twelfth day, Day of the week: Venus, fourteenth month of the winter solstice 5778, Constellation: Aries, Time: 6 hours 0 minutes**, which corresponds to [December 21, 2012] Roman time, the day of full consciousness has arrived, the revelation of truth and the end of all laws and empires.

As it is written, many believe that there will come a time, known by various names such as "Apocalypse", "Revelations", "End of Days", when the world as We know it will come to an end and the beginning of a "New Age" or "Ages" representing, "An End to the Evil", arrogance and willful ignorance that We continue to see so prevalent in this world today.

Apocalypse is the Divine legal retribution against the willful ignorance and arrogance of the entities known as souls, angels and arch-angels, demons and arch-demons, limited to living flesh and blood, known as living men, women, with the name man, also known as Adam and Eve are the first people on earth, and artificial fictitious persons known as legal fictions, corporations and others.

We proclaim, state and announce:

1. To all members of the Sovereign Military Hospitaller Order of St. John of Jerusalem of Rhodes and Malta, also known as the Sovereign Military Order of Malta, all officers of the Knights of Columbus, all officers of the Knights of St. Columb, all officers of the Knights of Peter Claver, all officers of the Knights of the Southern Cross, To all officers of the Knights of St. Virgil, to all officers of the Knights of St. Gabriel, to all officers of the Knights of the Holy See, and to all officers of the Knights of St. Thomas More, formal notice of the Divine Protest and Disgrace is hereby given to each of you and you are now parties to this sacred cause .
2. To the extent that you and your agents celebrate recognition and as a sign of achievement and respect, your membership in such organizations is insignificant in relation to your community and the rest of humanity, for it is because of people like you who seek such fame and wealth, turning away from evil, evil flourishes.
3. To the extent that you and your agents may believe that you belong to a Christian organization dedicated to goodness, you are nothing more than a Qaanite, also known as a Qaanite and K-night and Knight, being the lowest rank first defined by Menes-He, who wrote the Talmud in his desire to deceive the loyal underclass to serve his own purposes, believing they were serving the Christian leaders as they served the priests of Moloch and madness.
4. To the extent that you pride yourself on your knowledge of history and the age of the organizations of which you are proudly members, you know nothing about history other than what you have been taught to believe. Instead, you are just a child, incompetent, believing fables and lies when the truth about your organization is much less noble.
5. The Knights Hospitaller, from whom the Sovereign Knights of Malta claim their heritage, were founded not, as was claimed in 1023, to care for the sick in a fictitious hospital in Muristan in Jerusalem, but by the Venetian-French de Villaret family and Guillaume de Villaret in 1300, who controlled large estates in Languedoc-Roussillon after the genocide of the Cathars by the Venetian-backed Roman cult. It was the plan of Guillaume de Villaret, through his allegiance to the Roman cult of Pope Boniface VIII and his nominal support of King Philip of France, to usurp all the power of the Templars and steal their vast wealth and trade.
6. Far from being of noble birth, Philip of France was eventually forced to defect to his own Knights Templar after Guillaume de Villaret was killed in 1305 after a failed blackmail attempt by his son Fulk de Villaret, the new "Grand Master" of the Young Hospitallers, managed to prove the king's homosexual inclinations and threatened to reveal them publicly. Thus, the powerful and noble Knights Templar were betrayed by their own king, the Roman cult and the Venetian nobility to form the Hospitallers.
7. However, since the Master was endowed with enormous wealth and a papal bull from the Roman cult after the dissolution of the Templars, in the following centuries the Knights Hospitaller demonstrated complete incompetence and despotism until the once enormous wealth stolen from the Templars had all but disappeared. The Order received another heavy blow when the Great Council and Senate of Venice ordered the transfer of most of the lands and property of the Knights Hospitaller to the newly formed Jesuits in 1540, including its valuable holdings such as the temple in central London.
8. Thus, the order languished on the island of Malta in its last major estate until the Great Darkness of 1783 throughout Europe, formed by the eruption of the Icelandic volcanoes, when the Venetians decided to revive the Knights Hospitaller along with the Orders of St. John to form the Sovereign Military Order of the Hospitallers of St. John of Jerusalem in Rhodes and Malta, also known as the Sovereign Military Order of Malta. From that moment on, all European nobility, all political leaders, key business leaders and leading intellectuals became "knights" of this new super-order, otherwise known as the "Illuminati".
9. From this point on, the order's power continued to grow until it played a key role in obtaining a warrant from the Jesuits and therefore the Venetians to use the Vatican's gold reserves in Switzerland to finance a new international central bank called the Bank for International Settlements.
10. In 1931, two years after the Great Depression, Switzerland created the Bank for International Settlements, a private bank with an astonishing amount of gold, worth over one and a half trillion Swiss gold francs - (\$1,500,000,000,000) - the largest capital ever or any other bank in history

had, and its public board of reserve bank governors hid the true nature of the institution.

11. The Knights of Malta were instrumental in being private shareholders of the Bank of International Settlements, firstly in ensuring that gold was used by the bank for the world's new international monetary standards, then in introducing the use of birth records as commercial bonds, essentially "slave bonds" sold to banks as collateral, then withdrawing the gold as backing for currency only to wait another seventy years or more for it to be used again to create a new Community.

12. Since all leading politicians are members of the Order, as are all leading scientists, military officials, businessmen and media personalities, their intentions remain to protect their own interests, as opposed to the needs of their community, their families and the world at large.

13. This is why you and your agents are directly responsible and accountable for the misfortunes, disasters and bloodshed of the last seventy years, because, as members of the orders of chivalry that I first mentioned, you all played an active role in concealing the conduct and nature of the Order, you supported the interests of the elite anti-Semitic Venetian/Khazar parasite and allowed the wealth of nations to be stolen and their peoples enslaved.

14. Therefore, the Divine Creator and Creator calls you to account for your refusal to resign from your official position and membership in these wicked orders of chivalry. You are being weighed down by the souls of the people of your communities whom you have knowingly betrayed due to your willful ignorance, cowardice and complacency about being part of the "elite". You have been weighed, measured and found guilty before all forms of life and all existence and now you must face the consequences of your clear and flagrant Higher Church dishonor.

Based on the above, We Proclaim, Announce and Order:

In accordance with **the Ecumenical calendar, Twelfth day, Day of the week: Venus, fourteenth month of the winter solstice 5778, Constellation: Aries, Time: 6 hours 0 minutes**, which corresponds to [December 21, 2012] Roman time, the day of full consciousness has arrived , the revelation of truth and the end of all laws and empires.

As it is written, many believe that there will come a time, known by various names such as “Apocalypse”, “Revelations”, “End of Days”, when the world as We know it will come to an end and the beginning of a “New Age” or “Ages” representing, "An End to the Evil", arrogance and willful ignorance that We continue to see so prevalent in this world today. Apocalypse is the Divine legal retribution against the willful ignorance and arrogance of the entities known as souls, angels and arch-angels, demons and arch-demons, limited to living flesh and blood, known as living men, women, with the name man, also known as Adam and Eve are the first people on earth, and artificial fictitious persons known as legal fictions, corporations and others.

We proclaim, state and announce:

1. To all members of the House of Lords, all members of the inner temple, middle temple and outer temple, all members of the law society and bar associations throughout the world and all members of the Masons who have reached the third degree, formal notice of Divine protest and dishonor is hereby given to each of you, and now you are participants in this sacred cause.
2. If there is a sin above all others against the Divine Creator and Creator, then it is a deliberate perversion of the law. For when the law is twisted to serve only the few, when the law is deliberately made unequal, then those who pretend to enforce such despicable laws are an abomination to all forms of life and all existence.
3. First, all the members of the inner temple, middle temple and outer temple never represented the law, but members of a false denomination founded in 1540 on ignorance of the origin, purpose and design of the Jerusalem temple and King Solomon's temple of the inner, middle, outer temple and sanctuaries
4. Secondly, the law society and bar associations never constituted the law, but were only the shadow of the law, being the merchant laws, the banking laws and the laws of unholy magic of Florence, Venice and Rome from the time of their formation from the beginning of the nineteenth century.
5. Thirdly, the agents and judicial officers serving the members of the law society and bar associations never represented the law, did not act lawfully and honorably under the orders of these private associations, but only to the extent that they showed respect, compassion, restraint, courage and virtue in the performance of their duties.
6. Instead, the true law is the uncorrupted laws of the Divine Creator and Creator, as proclaimed in the sacred Covenant and its associated canon laws, and not the false, inferior and irrational statutes and superstitions of bar societies and bar associations in their service to the temple of the crown.
7. I therefore have the Supreme Jurisdiction of Law, Rule of Law and Canon Law. Any refusal by you or your agents or proxies to acknowledge these facts will be further evidence of your gravest dishonor to the law, to the rule of law, to your own declared laws.
8. Regarding the origin and structure of the Temple of the Crown, also known as the Temple [1] Bar, also known as the Crown and Commonwealth, to which all the secrets of the Bar Societies and Bar Associations serve, it is an ancient rule that the first people whom the Bar deceives are by its own members.
9. Thus, the crown temple consists of five parts: the inner temple, representing the sacred treasury, the crypt, representing the sacred prison, the middle temple, representing the sacred court, the outer temple, representing the sacred office, the limited area around the temple, which is the sanctuary, also known as front yard and shore.
10. So it was after the expulsion and murder of the Venetians' main rivals, the Medici, following the bloody Battle of Rome in 1527 and the successful enthronement of the Venetian aristocrat Alessandro Farnese as Pope Paul III in 1534, that the Venetians decided never again to allow a rival to usurp power and infringe upon their interests, using the papacy they founded against them. Instead, they used the talents of Ignatius de Loyola, who, after becoming a Franciscan priest, created a military order known as the Society of Jesus, or Jesuits. It was to this new order that Pope Paul III issued the most extraordinary set of Bulls in history, transferring the property and key apparatus of the papacy to the Jesuits and powers more powerful than the Pope himself.

11. However, there was another task that Alessandro Farnese, as Pope Paul III in 1540, granted to the Jesuits, the right and mandate to save souls lost to the "throne", hence the beginning of the legal concept of Cestui que Vie Trusts as temporary testamentary trusts. It is the salvation of souls that remains the key concern of the temple and all members of the bar, whether they realize it or not.
12. It is the apparatus of power granted to the Jesuits that forms the temple of the Jesuits, the temple of the crown.
13. The Inner Temple is an interpretation of the Sacred Treasury of the Roman Catholic Church and no body of higher rank in the entire Roman cult controls its gold, property and titles. All statements that the Treasury never left the Vatican are a false statement through the creation of false roles in the Papal Chamber.
14. The crypt is an interpretation of the Poenitentiaria - the Holy Prison of the Roman Catholic Church, in which saved souls can be placed through some transmutation into some temporary medium, such as bullion of precious metal, or such powers can be transferred to other places, such as the secret Poenitentiaria of Zurich or the Federal Reserve Bank of New York.
15. The middle temple represents the reflection of the Holy Court, the Supreme Court of the Roman Catholic Church and only the Jesuit Curia is the highest court. All claims that the court never left the Vatican are a false statement through the creation of false roles in the Papal Chamber.
16. The outer temple represents the transportation of the sacred office of the Roman [1] Catholic Church, without any body of scribes, lawyers, notaries and clerks higher throughout the Roman cult controlling its documents, records and papers. The Outer Temple is the boundary of old London and is also known as the square mile or "Golden Square" as it is symbolically represented in Freemasonry. All statements that the office never left the Vatican are a false statement through the creation of false roles in the Papal Chamber.
17. The temple is thus the first lodge in 1540, and the first house of the Masons, the three elements of its symbol, namely, the square, the navigational compass, and the letter " G ", each having three meanings in a higher order.
18. The square in its simplest meaning in Freemasonry represents the conduct of the initiate, his virtue and fidelity. The square in its deeper meaning represents canon law or standard law, a norm or "rule of law." The square in its deepest meaning represents the "square mile" or "Golden Square" of the outer temple, which is the boundary of old London, in which the members of the chancery perform their duties.
19. The navigational compass in its simplest meaning in Freemasonry represents the initiate's self-discipline and their ability to keep secrets within the "confined boundaries" of sacred space, including their own space. The navigational compass in its deeper meaning represents the confined spaces in which the law is judged and presented, such as the courts, the judge's chambers, and the clerk's chapel. The navigational compass in its deepest meaning represents the Franciscan order and their navigators on each ship also represent the power of the Venetian nobility.
20. " G " in its simplest meaning in Freemasonry represents "God", "geometry" and "the great architect" as the highest power in Freemasonry. " G " in its deeper meaning means "Geve" (pronounced Hebrew) being one of the highest initiates and "Galla/Galli" for the highest initiates. The letter " G " in its highest meaning stands for "Gesa", which is the headquarters of the Jesuit order, the Church of the Jesuits and the highest possible level of Freemasonry.
21. As for the main purpose of the Temple of the Crown, also known as Temple Bar, also known as the Crown and the Commonwealth, to which all members of law societies and bar associations must obey, it is an ancient way of hiding the truth in plain sight so that a clever lawyer cannot see her himself.
22. The main purpose of the crown temple and members of the bar is to save souls, to reap souls through "salvation" in the Galla/Galli tradition.
23. The Gauls, as low priests associated with Cybele, the Queen of Heaven and the Mother of God, also known as Mary, also known as Marie, were required to cut off their genitals on the day of blood, now known as Easter, and thus become voluntary eunuchs. Therefore, celibacy never extended to the highest ranks of the cults that worshiped Cybele.
24. The origin of the Celibate Eunuch Gallus is the city of Ur, which around 1000 BC was turned into the largest necropolis the world has ever seen. The standard clothing of Gauls from Ur onwards was black robes, signifying that they served Ereshkigal, the goddess of the underworld. They were considered the Grim Reapers, with the power to steal/consume souls if not subdued.
25. After Ur, the next headquarters of the celibate Gaul was the great temple of Cybele at the top of Vatican Hill, on Rome's largest necropolis in 200 BC. Therefore, Pontifex Maximus, also known as the Roman Pontiff, also known as the Pope, has always been the high priest of the Gauls since 200 BC. However, the Roman Pontiff only claimed to have become a "Christian" in the form of Roman cult as early as the 11th century.
26. As for the "God" referred to in the letter " G " of Freemasonry, representing its spiritual home as the Temple of the Crown, also known as Temple Bar, also known as the New Jerusalem, to whom all members of legal societies and associations swear allegiance and ultimately swear by blood, it is easier to deceive educated people using their arrogance and pride.
27. Indeed, the "God" whom all lawyers, clerks and judges of the bar worship, whether consciously or in complete ignorance, is Baal.
28. Baalism is a Theology and ancient cult dating back to 2500 BC. e. In Northern Syria in honor of the perceived god of rain, thunder, fertility, agriculture and the Lord of the heavens. Therefore, Baal or Bael or Bale literally means "master" or "lord."

29. As an ancient fertility religion, Baalism is notorious for being one of the oldest, most deadly Asian and Middle Eastern fertility cults, particularly the sacrifice of firstborn children, the ritual murder of children including cannibalism, and the sacred ritual of the Holocaust by burning men, women and especially children at the stake.
30. The most sacred temple of Baal is Baalbek, first created by King Solomon of Assyria (Shulman I or Shalmaneser I). (1274 BC - 1245 BC). Baalbek is located at an altitude of 1,170 m (3,850 ft) east of the Litani River in the Bekaa Valley, 85 km northeast of Beirut and approximately 75 km north of Damascus.
31. The most sacred temple of the entire Roman Empire from its beginning until 325 AD. e. There was a temple of King Solomon in Baalbek, which the Romans called Heliopolis and built the Great Temple of Jupiter (Baal). All emperors were consecrated at Baalbek until the 3rd century AD.
32. Due to the age and importance of Baal, several significant incarnations of this deity appeared in history, including, but not limited to, Baal Hadad, Baal Zephon, Baal Moloch, and Baal Hanan (Hammon).
33. The names Baal Hadad, Baal Zephon are perhaps the most ancient in the Baal tradition and refer to the sacred mountain Saphon (Tsephon), which is considered the original "homeland of Baal". Baal Hanan is a later variety of them.
34. The name Baal Moloch was the supreme God of the exiled Phoenicians from Ugarit, who founded Carthage in the 14th century BC. Later, Baal Moloch also became the dominant form of Baal for Tyr.
35. The name Baal Hanan, also Hammon, is the Baal worshiped in King Solomon's temple at Baalbek. The high priests called themselves Cananites and also controlled Herod's temple in Jerusalem between 20 AD and 60 AD.
36. The largest and most complex ritual sacrifice to Baal occurred between 1939 and 1943, when the Ashke-Nazi elite, also known as the anti-Semitic Scythian/Khazar parasite elite, along with their Venetian cousins through the Jesuits, created Auschwitz as a scale model of the same dimensions of Baalbek. In turn, Auschwitz and Baalbek formed part of a 300-mile-wide pentagram, perfectly pointing to the North Star, and five other notorious ancient sites of Baal's sacrifices were Lodz in the shape of Tyre, Treblinka in the shape of Ur, Sobibor in the shape of Babylon, and Janowska in the shape of Jerusalem.
37. As regards the Highest Ecclesiastical dishonor and the gravest sin which every member of the law societies, bar associations, temple and House of Lords possesses, such sin against the covenants and laws of the Divine Creator and Creator is manifested in your continued membership in the bar, in your constant corruption and abuse of the law using the perversions of law societies.
38. In the name of the Divine Creator and Creator, a warning, a notice of will, is witnessed before all forms of life and all existence:
 - that all the members of the House of Lords, all the members of the inner temple, the middle temple and the outer temple, all the members of the law society and bar associations throughout the world and all the members of Freemasonry who have reached the ninth degree, have been weighed, measured and will now be judged by the highest judge of all things.

Based on the above, We Proclaim, Announce and Order:

In accordance with **the Ecumenical calendar, Twelfth day, Day of the week: Venus, fourteenth month of the winter solstice 5778, Constellation: Aries, Time: 6 hours 0 minutes**, which corresponds to [December 21, 2012] Roman time, the day of full consciousness has arrived, the revelation of truth and the end of all laws and empires.

As it is written, many believe that there will come a time, known by various names such as "Apocalypse", "Revelations", "End of Days", when the world as We know it will come to an end and the beginning of a "New Age" or "Ages" representing, "An End to the Evil", arrogance and willful ignorance that We continue to see so prevalent in this world today.

Apocalypse is the Divine legal retribution against the willful ignorance and arrogance of the entities known as souls, angels and arch-angels, demons and arch-demons, limited to living flesh and blood, known as living men, women, with the name man, also known as Adam and Eve are the first people on earth, and artificial fictitious persons known as legal fictions, corporations and others.

We proclaim, state and announce:

1. All Chairman, Directors, Chief Executive Officers and their immediate subordinate corporations included in the list of the 5,000 largest public or private corporations in the world are hereby served with a formal notice of protest and dishonor and you are now participants in this sacred cause.
2. The world's largest corporations include both countries and states included in the list of corporations, as well as government-owned commercial organizations and non-profit organizations that dominate the distribution and use of wealth. The world's largest non-national corporations are so powerful that their combined assets would create a nation second only to the United States in financial importance.
3. With great size and power comes great responsibility and fiduciary obligations. Thus, corporations are "in theory" required to demonstrate good corporate governance and risk management while being sensitive to the communities from which they derive their revenues. However, as has continued to be demonstrated, large corporations continue to willfully violate their obligations to their shareholders and society at large.
4. Given that it is the largest corporations that continue to exert such significant influence on employment, resource distribution and public health, it is therefore the responsibility of the world's 5,000 largest corporations to recognize and respond to issues of great importance to their future and the future of the earth.
5. Moreover, the official positions of a corporation are by definition ecclesiastical, their authority being determined by the law of trusts and by the same principles of authorized succession that govern all the property rights of the world. All officers of large corporations, therefore, have a sacred duty to conduct themselves with honor and sound authority, and to answer such questions of the highest ecclesiastical importance as may affect the property rights of the corporation and their offices.
6. Today, most corporations do not demonstrate honor and sound authority, but rather demonstrate arrogance, ignorance and vanity when considered collectively within their "communities" within the framework of the Roerich Pact:
-Banks and bank employees continue to pay themselves huge bonuses while their corporations continue to fail and their customers continue to lose their homes, jobs and life savings.

- Pharmaceutical companies and government officials continue to make huge profits from synthetic painkillers with terrible side effects, while funding support for banning the right to grow natural painkillers and limiting effective research into low-cost ways to fight cancer and disease.
- Chemical companies and officials continue to promote dangerous substances to the public, polluting our environment, jeopardizing our long-term sustainable food supply and avoiding responsibility.
- Oil companies and officials continue to make huge profits while directly causing catastrophic environmental disasters.

42. Federal Reserve Bank(1913, USA, Private)
43. Bank for International Settlements (BIS) (1930, Switzerland, Private)

Bank for International Settlements (BIS)

The private banking cartel, based in Switzerland, was first formed in 1933, between the Vatican Bank, the private US Federal Reserve Banks, the Bank of England and the Nazi banks to funnel huge amounts of gold, as the standard underwriting asset of world currencies, back to the central banks. subject to policy conditions and increased debt obligations.

It remains the most secretive division of the debt-based Industrial Banking Cartel and has constrained and controlled global finance for over eighty years. The influence of the BIS has declined steadily over the past two decades as more central banks have rejected the BIS's continued commitment to restraining real wage growth and wealth growth in non-industrialized countries. However, the influence of the BIS returned to predominance after the deliberate collapse of debt-based monetary systems, which forced many central banks to reenter agreements with the BIS.

International Monetary Fund (IMF)

The financial institution that forms the basis of the IMF was originally conceived in July 1944 by the United States and 43 allies at the Mount Washington Hotel, Bretton Woods, New Hampshire - hence the name "Bretton Woods Agreement". The IMF was officially created in December 1945, and only 29 countries initially signed its Articles of Agreement. Its main innovations were the adoption of a common exchange rate mechanism based on a basket of currencies dominated by the US dollar, and a financing mechanism based on the underwriting of debt rather than the underwriting of historical assets such as gold or other commodities. After several spectacular failures and system failures, the IMF introduced the SDR (Special Drawing Rights) as a de facto unit of currency, backed by a modest supply of gold.

Federal Reserve System (US Federal Reserve Banks)

An inferior cartel of private banks. Formed in 1913 when the US government transferred control of its currency to this private banking group, nominally owned by US banks but ultimately owned by private banking interests, mainly in Europe, especially Rome and Zurich. The Federal Reserve Banks are a key element of the debt-based Industrial Banking Cartel, but are unique in that they are so open to the successful redistribution of Americans' public wealth to private banking families and church groups. The Fed is also unique in that it has never achieved its core social goals, and is both the primary cause of the unprecedented level of US debt and the institution that manages the debt. The Fed remains untouchable

Global financial system

The set of partly public and regulated, unregulated and largely hidden networks of debt and asset control that constituted the historical "system" of financial management up until 2009. Deliberately and erroneously described as a "system", it is best described as consisting of five separate and often competing/conflicting networks:

- 1) Industrialized debt-based banking cartel, represented by the IMF, US Federal Reserves, Bank of International Settlements and the World Bank;
- 2) Wholesale money and bond markets, dominated by institutions such as the London Interbank Offered Rate (LIBOR);
- 3) Unregulated hedging and speculative debt markets;
- 4) Private ownership of huge amounts of gold, silver and assets
- 5) Central and regional banks of the world. On the contrary, the Supreme Financial System eliminates the ability of private cartels to manipulate scarcity of capital, demonstrating a seamlessly integrated and completely public financial model.

Industrialized banking cartel based on borrowing

A term used to describe the various bodies formed after the Second World War, designed to essentially "secure" the permanent dominant financial position of the banking networks of industrialized countries, mainly Europe and North America, contrary to their "public" stated goals. These include the IMF, the Bank for International Settlements, the private US Federal Reserve Banks and the World Bank.

The World Bank

Trademark of two junior banks with nominal shareholdings from 184 countries, but controlling stakes in a few: the International Bank for Reconstruction and Development (IBRD) and the International Development Association (IDA). The World Bank was one of the key instruments of the debt-based Industrial Banking Cartel to maintain control of global wealth.

7. While not all of the top 5,000 corporations have demonstrated such complete contempt for society, the environment, and their lower-level employees, many are guilty of these crimes but have yet to be properly brought to justice. But for all those corporations that sincerely claim to take a stance of moral responsibility and caring, none have shown such respect. Thus, all officials of major corporations are responsible for their highest ecclesiastical disgrace.

Based on the above, We Proclaim, Announce and Order:

APOSTOLIC LETTER IN THE FORM OF "MOTU PROPRIO"
 TO HIS HOLY **POPE FRANCIS**

ON THE JURISDICTION OF THE LEGAL BODIES OF THE VATICAN CITY STATE IN THE FIELD OF CRIMINAL LAW

In today's world, the common good is increasingly threatened by transnational and organized crime, market and economic misuse, and terrorism. It is therefore necessary for the international community to use appropriate legal remedies that prevent and combat crime by promoting international judicial cooperation in the field of criminal law.

In concluding numerous international agreements in this area, the Holy See, which also acts in the name and in the name of the Vatican State, has always emphasized that these agreements are effective in combating criminal activities that threaten human dignity, general well-being and peace. Desiring to strengthen the efforts of the Apostolic See for effective cooperation in this regard, I establish with this Apostolic Letter in the form of "Motu Proprio" the following:

1. The competent legal entities of the Vatican State also administer criminal justice in relation to:
 - a) crimes directed against the security, essential interests or goods of the Holy See;
 - b) crimes specified in:
 - Vatican State Law No. VIII of July 11, 2013, which contains "Additional standards of criminal law";
 - Vatican State Law No. IX of July 11, 2013, which contains the "Changes to the Criminal Code and the Code of Criminal Procedure" that were carried out by the persons listed in paragraph 3 in the performance of their duties;
 - c) any other crime, the fight against which requires the existence of an international agreement signed by the Holy See, provided that the offender is in the Vatican State and has not been extradited abroad.
2. The crimes referred to in paragraph 1 will be dealt with in accordance with the legislation in force in the State of the Vatican at the time of their commission, taking into account the general principles of the legal system.
3. In the context of Vatican criminal law, "public officials" also include:
 - a) members, officers and employees of the various institutions of the Roman Curia and related institutions;
 - b) papal envoys and diplomatic personnel of the Holy See;

c) Persons who perform representative, administrative or managerial functions, as well as those who “de facto” also direct and control bodies directly dependent on the Holy See and who are included in the list of ecclesiastical legal entities, which is administered by the State of the Vatican ;

d) any other person holding an administrative or legal mandate in the Holy See, permanent or temporary, paid or unpaid, at any level of the hierarchy.

4. The jurisdiction referred to in paragraph 1 also includes the administrative liability of legal persons, which arises from a crime governed by the legislation of the Vatican State.

5. If the same matter is considered in other countries, the rules applicable in the Vatican State to the competing jurisdiction shall apply.

6. Article 23 of Law No. CXIX of November 21, 1987, which established the judicial order of the Vatican State, remains in force.

I establish and determine this regardless of any other agreements.

I decree that this Apostolic Letter in the form of "Motu Proprio" will be published in L'Osservatore Romano and will come into force on September 1, 2013.

Received in Rome from the Apostolic Palace on July 11, 2013, in the first year of my pontificate.

Francis

Exposition of "Motu Proprio " by Pope Francis

According to the Catholic Encyclopedia of New Advent, "Motu Proprio " in Latin means "of one's own will" and is the title given to an official decree by the Pope personally in his capacity and office as Supreme Pontiff, and not as an apostolic leader and teacher of the Universal Church, to put it simply "Motu Proprio " is the highest form of legal document on planet earth according to its origins, influence and structure in the Western Roman world, above anything that can be issued by the United Nations, the Domestic and Middle Temples, the Crown of Great Britain or any another monarch, or indeed any head of state or political body. If you are a member of the United Nations, or recognized by the United States or United Kingdom, or have a bank account anywhere in the world,

In the case of the Motu Proprio , released by Pope Francis on July 11, 2013, it is an instrument with several functions and levels.

Primarily, it can be legally interpreted as relating to local issues of administration of the Holy See.

In the second case, the document deals with the fact that the Holy See is the pillar of the entire global legal system, therefore any person holding an office anywhere in the world is also subject to these restrictions and this immunity no longer applies.

Thirdly, we see that the Holy See and the Universal Church are clearly separated from the nihilistic world of the professional elite, who continue, proving time and time again, to be criminally insane, barking mad and unwilling to do anything worthy while they are torn from power by whom anything, by any body that cares about the law.

The era of Roman cult, first formed in the 11th century, took over the Catholic Church, first formed by the Carolingians in the 8th century, and then the Holy Christian Empire or the Byzantine Church. by the 13th century, and the world as a whole by the 16th century ceased to exist around March 14, 2013, after the election of Pope Francis.

There are many, many conspirators who remain extremely skeptical and respond to every dramatic announcement by shouting: it's all a smokescreen, or it's not enough, or it's all double talk. The same insanity, I mean the extreme mental illness that has been proclaimed for centuries, that anyone who proposes better models of society, or an end to corruption, or the restoration of the rule of law must be the Antichrist, because he will try to deceive the world by doing good, not evil. Absolute madness. Sheer barking stupidity, but unfortunately, some people in every generation willingly drink the tepid help given to them by agents of disinformation, for no reason at all.

In any case, this document issued by Pope Francis is historical on many levels, but most significant compared to all others in that it recognizes the supremacy of the Golden Rule, the same teaching attributed to Jesus Christ, and the close connection with the rule of law that everyone is subject to the law, no one is above the law.

But now there is a body, the Universal Church, the restored true Catholic Church, which has drawn a line in the sand and restored the rule of law to the Earth. Now there is no error.

The professional elite can do thousands of practical and reasonable things to turn the world around.

Let it also be known that all **Cestui Que Vie** trusts have been destroyed, effective August 15, 2011, through **Ritus Probatum Regnum** and **Ritus Mandamus** , Public Document Number **983210-341748-240014**.

Dissolution of the trust and office known as **the "Aeterni Regis"** , also known as **the "Eternal Crown"** or **"Crown"** , and all derivatives thereof, and the termination of all settlement certificates, birth certificates, death certificates, bonds and claims, including termination of the powers of the Bank for International Settlements, thereby ending the system of debt slavery in the world.

Knowledge Models

All knowledge ever collected (accumulated) during the development of civilization can be classified into types of patterns of rules, ideas, stories, observations, discoveries and facts.

All models have one common goal: a model is a construct of laws and principles that seek to influence and measure matter in some way.

Whether it is a philosophy or a physical machine, both models affect objects. All models are united by necessity: That is, the model must be considered in terms of its purpose and desired result. The larger the goal, the greater the potential range of results.

Of all types of patterns, the most important are those that have influenced the daily lives of men and women since the dawn of civilized society.

Among them there are four basic or basic models on which all civilized society is built: the first is the basic model of sacred history, the second is the basic model of language, the third is the basic model of law and the fourth is the basic model of science.

The oldest and most important models of civilized societies are the sacred scriptures, which are the remains of stone and clay tablets, scrolls, works of art and books that have survived centuries of time to reach the useable form we know as the Fundamental Model. sacred history. Without great stories, culture and legends, no community of men and women can be called a civilized society.

The second oldest and most important model of civilized societies is the ancient languages in which the oldest and most important sacred scriptures were written, thus forming the language of the ancestors and the languages that are now spoken, written and read by all languages of men and women, known to us as the Fundamental Model language. Without language, it is impossible to accurately repeat, preserve for history and pass on to new generations stories that have enormous richness, meaning, facts and myths. However, language remains closely related to its creation with the most fundamental histories of each culture, so that neither the language nor its birth with ancient histories and beliefs can be completely separated.

The third oldest and most important model of civilized societies is the ancient rules of law, which have come down to us both from the sacred scriptures and from works devoted to law, the origins of the laws on the basis of which most societies on planet Earth are governed today, known as the Fundamental Model of Law. Without the rule of law, a community of men and women is subject to fear, bloodshed, injustice and tyranny. However, the rule of law begins with the rules of language and the basic words that constitute the basis of the rule of law, usually taken from the oldest and most sacred writings of a great culture.

The fourth oldest and most important model of civilized societies is the collected observations, rules, evidence and inspirations that represent the physical world, the ability to shape and understand the nature of matter and the universe, which we collectively call the sciences, as is known, as the basic model of the sciences. Without science, a community of men and women is deprived of the knowledge needed to create a great society, deprived of long-term planning, and reduced to meager survival. However, no matter how much the model of science strives to be considered independent in awareness from the “laws of men” and their stories towards some ultimate truth in collective awareness, science itself remains an aspiration, presupposing a doctrine of faith and belief in the physical world that is so blinding as strong as any spiritual faith that accepts the same rigid orthodoxy.

The existence of these four (4) fundamental models of knowledge (Sacred History, Language, Law and Science) represents the basis of all great and enduring models of societies since the beginning of civilization itself.

If one or more of these fundamental patterns of knowledge are missing from the basic everyday fabric of a society, then the civilization will not function optimally and great destruction may occur. Therefore, any claimed model of society must first consider the nature, details, functions and superior nature of these four (4) fundamental models of knowledge ("Sacred History", "Language", "Law", "Sciences") before it can convincingly claim its superiority in functions.

The Inadequacy of Modern Models of Knowledge

All modern societies are now witnessing the degradation of faith, power and coherence of their traditional four (4) fundamental models of knowledge: “sacred history”, “language”, “law”, “science”

In developed societies, the general knowledge of men and women in all four of these areas continues to decline, with a particularly deteriorating knowledge of the law and a growing disrespect for the underlying patterns of sacred history. Today's developed societies are sliding toward greater lawlessness and ignorance, a traditionally dangerous cocktail that usually precedes major social conflicts.

In developing societies, the general level of knowledge of men and women remains significantly lower than that of men and women of the same age in developed countries, so many developing societies remain in poor conditions in terms of law, health, food, sanitation, peace and happiness. Today's developing societies are now slipping back to even lower standards of knowledge in many places due to global financial conditions where wealthy societies no longer fund aid at the same levels.

Around the world, we have witnessed, and will continue to witness for the foreseeable future, periods of intense stress and conflict associated with the projected depletion of valuable energy resources, mainly petroleum fuels, which will continue to cause increasing financial hardship to

every society on planet Earth.

Although scientists continue to see breakthroughs in our collective understanding of the physical sciences and the structure of the Universe, the scientific community still does not have a perfect Standard Model of all the universal elements, in which all equations are perfectly balanced and all the mass of the Universe is in harmony.

Even though society has invested significant finances and resources into discovering the nature and perfect rules of matter manipulation required for any kind of energy device, the rules of atomic physics through valence and bonding through chemistry take up many hundreds of pages for the basic set of atomic elements and their uses.

Despite all that has been achieved in science and in sacred spiritual history, there remains a division between the spirit mind and the scientific mind to such an extent that one key foundation of societies speaks of a world that is completely devoid of resemblance to the real physical world, while the scientific society does the same by denying the existence of the paradox present in almost all fundamental experiments.

There is no revelation, short of a miracle, in the current Foundation models that could demonstrate the complete coherence of all Foundation Knowledge, so that a perfect equation can be established between the ethereal and the real, between the universe and life, between all levels of matter and all the rules of matter, so that all the statements were consistent, true, coherent, and consistent with key constants and knowledge of the physical sciences.

The need for fair redress and new foundational models of knowledge

There is a pressing and urgent need for fair redress in the form of new models of knowledge that can enable living men and women to continue to practice their beliefs and continue to live their lives, with improved prospects for employment, wealth, health and happiness without the need for any major change or interruption their daily lives and relationships.

For such models must cover the entire fabric of civilized knowledge of history, science, culture and spirituality, and these models must demonstrate a level of accuracy and fairness equal in detail and superior in form to the current negative systems of alternative models.

In specific scientific terms, a fair remedy must provide a complete scientific model, which is nothing less than the Standard Model of all universal elements, the Standard Model of all atomic/subatomic elements, including their operation in chemistry and biology, and the Standard Model of all laws of the Universe, so that when they are applied, the master equation is perfectly balanced, and the entire Universe can be accurately calculated.

In addition to this facility required by science, it must provide complete blueprints and operating instructions for all the rules of the Universe in such a perfect and concise statement that a man or woman of 12 years of age or older can read, learn and understand these rules within twelve months sequential learning.

Speaking specifically about the need for updating sacred history, any just remedy must demonstrate the absolute consistency of spiritual statements with current spiritual beliefs and at the same time identify intentional and accidental discrepancies which, if found to be true, will provide an ideal remedy for existing members of the major spiritual faiths, to confirm their faith in the fulfillment of prophecies and scriptures and at the same time have an updated source of the most sacred historical knowledge.

A particular spiritual remedy must also demonstrate its authenticity without a doubt as the only and true prophetic event of the unique collective awareness sweeping the Earth, and therefore must demonstrate a perfect alignment with science, further establishing its authenticity by answering all the key existential questions that science is currently answering can't answer.

The specific tool must finally demonstrate a coherence and logical language of knowledge never seen before. This language and knowledge must be capable of providing the basis for the fundamental knowledge of law for any society of free, sovereign men and women.

Legal system

A system of law is a comprehensive, integrated body of laws, legal institutions, legal customs, precedents and history, covering the necessary framework for the functioning of the rule of law for a particular society, civilization or group of societies.

A system of law is equivalent to the concept of "civilization" and "civilized society" in the sense that civilization is largely based on the existence of a comprehensive system of law.

A valid system of law is any system of law that meets seven (7) basic criteria: "the rights of members", "rules and guidelines", "legitimate source of authority", "rules of judicial administration", "institutional bodies", "legitimate consent", "law enforcement":

- Members' rights are the clear recognition that members of society have some form of rights, and the recognition and protection of those rights.
- A set of rules and guidelines defining acceptable standards of behavior in a society, covering property, possession, agreements, obligations, arguments (disputes) and relationships.
- The legitimate source of power and authority that determines on the basis of what claims or rights laws were first formed.
- A set of rules of judicial administration that govern the governance of society and the law.

- Institutional bodies of members of society, forming a kind of executive, legislative (lawmaking) and judicial (judicial) power.
- Legitimate consent of members of society to accept laws and follow them.
- Enforcement of the rule of law and examples of judicial control and sentencing/judgment/order.

Source of claimed power

The most common claim about the legitimate source of authority for a system of law is "by Divine right," which states that by virtue of some scripture, revelation, custom, and guidance, one or more Divine entities have conferred legitimacy on a body of law as superior to all others, which corresponds to certain theology and cultural heritage.

A valid system of law is said to be in effect in a society when it is either recognized and practiced as custom or the rule of law as a result of the occupation of land and sea.

Effective rule of law

For a current system of law to function as a rule of law by occupation of land and sea, the occupation must be accomplished by dominating the previous system of law by conquest, treaty, or abandonment:

- conquest in the form of one or more decisive battles, as a result of which the opposing forces surrendered or agreed to a truce or peace as the weaker side.
- by contract in the form of an agreement in which one party is superior to the other.
- by abandonment or repeal when the previous law has been lost, abandoned, destroyed or does not meet the requirements to be known as a valid system of law.

A system of law does not have to be written in script or cursive form to qualify as a system of law as long as the law meets the criteria of a valid system of law and the civilization demonstrates the ability to maintain, adjudicate, communicate rules of law, and record important matters of law graphically, through monuments, forms cultural expression or other forms of recording.

Types of legal systems

All existing systems of law can be divided essentially into two types: those based on equality and those based on inequality:

- Systems of law based on equality assume that everyone is equally subject to the law, even if the laws favor the few over the many.
- Systems of law based on inequality mean that not everyone is equally subject to the law, and some may operate outside it or be excluded from it.

Systems of law based on equality have been far superior to systems of law based on inequality throughout the history of civilization, largely due to the inherited weakness of any system of law that allows some or many to claim immunity from it.

Systems of law based on inequality are by definition unjust and are therefore an abomination to the rule of law and the purpose of law.

Every idea has its origin. Every word used with meaning has an origin - despite sometimes desperate attempts to obscure its source. Thus, the ideas underlying the modern system of land tenure, private property and use owe their origin to systems invented many thousands of years ago. The only questions then are - by whom? When? Why? and how can this be proven?

It can generally be assumed that information of such importance as the origins of land tenure, private ownership, ownership and use of land will be relatively easy to find and confirm - after all, we are talking about the foundations on which all modern land systems are built. However, it is at this moment that difficulties unexpectedly arise.

There is a wealth of information, statutes, case law, and background surrounding land laws, property laws, systems, and precedents over the last several hundred years. But when you start to become interested in such important concepts as "use", "possession", "rent" and "private property", the origin of these most important concepts that underlie our world today becomes far from clear.

On the one hand, there is the dominant academic thesis that "civilization began in Sumeria, China and Syria" and that concepts such as property, possession and use were characteristic of the advanced ancient civilizations of the fertile river delta, the first farmers and, therefore, managers large permanent population. However, is this so?

Continuity of customs, claims and rights

Since the beginning of civilization, ownership, occupation and ownership of land have always been based on several principles. Just as the concept of property ultimately stems from the knowledge that no one can "own" anything other than the divine, so all property is a usufruct, so with land all modern land systems owe their "legitimacy" to the continuity of ideas of the past.

Modern Western land systems in countries such as the US, UK, Europe, Australia, New Zealand, Asia and throughout the world are based on time-honored customs and fundamental principles such as tenure, occupation, exploration, tenancy, ownership and etc. If one or more of these fundamental principles is deliberately ignored, even the most sophisticated land registration and title systems can begin to crumble.

A classic example is the importance of the principle of ownership. This time-tested rule states that no one can be forcibly dispossessed of a piece of land. There are many slippery arguments today that try to "get around" this rule, but tenure is a concept that has for centuries stopped people from arbitrarily taking over their neighbors' land or simply giving up land they previously owned to take over another piece of land.

The stability of communities, regions, nations, empires and civilization itself rests on respect for the principle of tenure, even if the courts sometimes seem to ignore it. Therefore, knowing the concept of tenure, when and how it came into being, and how to protect it is fundamental to helping anyone maintain their home.

Another concept that has remained fundamental for thousands of years is that of occupation or occupation, first created by the Romans to make private ownership and claims to land legitimate when conquering their neighbors.

The occupation does not and has never challenged the sacred principle of ownership. In contrast, occupation applies only to conquered lands and states that a citizen of the conquering party can make a claim to "possession" based on the first claim, the best claim reflected in the register - thus occupation is an entry or title in the register rather than physical possession.

Another principle of occupation since ancient times is the prohibition of ownership of conquered land if the land itself is considered sacred. The Romans took this rule so seriously that any violation was considered a grave sin against the empire.

Tricks and tricks concepts

Just as studying the history of the earth allows us to see ancient rules, concepts, it also allows us to see some of the tricks and traps used against us, such as the concept of "owner" or "title holder".

For example, if a person does not have legal title, he has no occupation and no real possession, but only a tenancy. However, by calling ourselves the "owner", holding in our hands any documents that are presented to us, we also tacitly agree to the rules by which the system operates.

The reason 100% of foreclosures are legal, even when documents are falsified, fraud committed, and contracts rewritten, is because we continue to "hold" their documents, thereby agreeing to the right of the guild of private lawyers to change the laws and conditions according to at your own discretion.

This is why we are taught from an early age to believe that "keeping" official documents is very valuable, that they should not be altered or destroyed, and that such "keeping" is a privilege.

However, what happens when a person renounces possession of one of his titles and claims his ancient rights to ownership and the sacredness of our claims? Now the system is facing a problem because there is no legal way they can take our house or land unless they resort to some other deception.

Someday, when the veil is almost lifted, they will stop pretending to represent the law. But for now, the guild of private lawyers is still hell-bent on perpetuating the lie that they represent the law - so denying them the ability to legally evict you if you no longer hold their token, thereby tacitly agreeing to their rules, is a perfect example of how knowledge of even the concept of "holding" in positive law is crucial.

Law supremacy

- what distinguishes a civilized society from anarchy or tyranny is the presence of a clear Rule of Law, the possibility of fair justice and the voluntary agreement of members of society to obey the Law when performing certain duties for the benefit of their Society.
- no civilization has survived the collapse of the rule of law, no regime has survived long after the inevitable death of its tyrants. Thus, the pages of history are littered with the dust of many nameless, cruel and arrogant dictators who believed that their system of slavery would remain in memory.
- The rule of law can also be defined as a Canon, meaning “rule, bar, measure or standard”. Therefore - valid Canon Law is equal to the highest standard law and the “rule of law”, based on fact and logic rather than faith, and can be described simply as Law;
- Therefore, justice can be defined as upholding the essence of living law through due process of law in rendering a judgment that demonstrates a fair remedy. Therefore, the highest respect that can be accorded to the law of any society is respect for due process of law in recognizing the law as a living being with its own real personality.
- on the contrary, any law that deliberately obstructs due process of law and denies a fair remedy is neither a “just law” nor a valid law, but the laws of tyrants and criminals, and should never allow itself to be deceived to represent the divine, natural or actual positive law;
- no body of men and women can rightfully claim to be a true society unless it can be shown that they have a clear covenant of formation and that the fundamental civil, criminal, procedural codes and officers of the society are in effect in accordance with the tenets of a fair law;
- when an association of men and women fails to demonstrate that they have a clear covenant of formation, basic just codes of law and existence and a commitment to the rule of law, then such associations cannot rightly be considered genuine societies or nations, but should rightfully be considered unincorporated or incorporated entities of some other existing society and therefore ultimately subject to the codes of law and rule of law of that wider society;
- However, when an association of men and women demonstrates the possession of clear covenants of law, comprehensive codes of law based on justice and equality of remedies, including forms and procedures for the effective functioning of society, then such association should be entitled to recognition as legitimate international societies subject to a comprehensive the rule of law, regardless of whether the Sovereignty of such societies is recognized or not;

I hold it to be true and self-evident that all men and women are created equal, and that they are endowed by their Creator God with certain unalienable natural rights, that among these are the right to life, the right to liberty, the right to property, the right to safety and security. , the right to the pursuit of happiness and prosperity. To secure these rights, trusts, governments, corporations are instituted among men and women, deriving their just legal powers from the consent of the governed, and whenever any form of government becomes destructive of these ends, men and women have the right to alter or abolish it and to establish new trusts, governments, corporations, founding them on the above principles, and organizing their powers in such form as men and women shall think most likely to achieve their objects, with strict respect for the rights of safety and security, happiness and prosperity. Prudence, indeed, dictates that forms of government long established should not be changed for insufficient reasons. All experience shows that men and women are more disposed to suffer while evil can be endured, than to correct themselves by abolishing, dissolving, the forms of government to which they are accustomed. But when a succession of abuses and usurpations, invariably pursuing the same object, indicate a design to subject them to absolute despotism, it is their right, their duty, to dissolve their political connection with that form of government, and to secure their future protection and security. This is how most men and women endured and endure, but when strength and patience run out, a necessity arises that forces them to change the previous system of government.

The history of the present Civilization in general and in the Russian Federation - Russia - is a history of repeated insults, humiliations and usurpations, all of which had as their direct goal the establishment of absolute tyranny over all men and women.

To prove this, let's present the facts to the honest world:

- They created an unequal financial model of society without our consent, aimed at stratifying society, where rights and freedoms are infringed, as well as divisions into classes based on material well-being.
- They were in favor of introducing taxes, fines, tariffs, rates, state duties without our consent.
- They were in favor of stopping our trade with all parts of the world.
- Control of public information and public opinion - it begins with the suppression of information and leads to the publication of false or misleading information. The government can create propaganda ministries under different guises. They usually call it "public information" or "marketing."

- Election fraud used to prevent the election of reformers - it does not matter which of the two major party candidates is elected if no real reformer can be nominated, and when news services begin to know the election results before they can find out about this, the votes are not counted fairly.
- Undue official influence on trials and juries - non-random selection of jury panels, exclusion of those who oppose the law, exclusion of juries from hearing legal arguments, exclusion of private prosecutors from access to grand juries, and preventing parties and their lawyers from making effective representations. arguments or challenging the government.
- Usurpation of undelegated powers - this is usually done with the support of the population to solve some problem or to redistribute wealth in favor of supporters of the dominant faction, but soon leads to the disenfranchisement of minorities and individuals.
- The desire for a state monopoly on the capabilities and use of armed force - the first signs are attempts to register or restrict the ownership and use of firearms, initially under the guise of "protecting" the population, which, when it actually leads to an increase in crime, sets the stage for further efforts on disarmament, affecting more people and more weapons. .
- Militarization of law enforcement agencies - the declaration of a "war on crime", which turns into a war on national freedoms. Preparing the armed forces to perform internal police functions.
- Infiltration and subversion of groups of people who can become the driving force for reform - domestic espionage and surveillance is a start. The sign is the false persecution of their leaders.
- Suppression of investigators and whistleblowers - when people trying to uncover high-level wrongdoing are threatened, it is a sign that not only is the system riddled with corruption, but that corruption has crossed the threshold of active tyranny.
- Use of the law to suppress competition - it begins with the dominant faction gaining support by paying off its supporters and suppressing the competitors of its supporters, but results in government officials themselves engaging in illegal activities and using the law to suppress independent competitors. A good example of this is drug trafficking.
- Undermining internal checks and balances - this involves appointing individuals to key positions who can be controlled by their sponsors and then persuaded to act illegally. The worst way this happens is by appointing judges who will go along with unconstitutional actions by other branches of government.
- The creation of a class of officials who are above the law - this is evidenced by the removal of charges of offenses against persons "following orders."
- Increasing dependence of the population on the government - the classic approach to dominating the people is to first take from them everything they have, and then force them to submit to the demands of the rulers in order to get something back.
- Increasing ignorance of the population about their rights and responsibilities and unwillingness to fulfill them - when people avoid things like voting and serving on militia and juries, tyranny is just around the corner.
- Using staged events to generate mass support - terrorist attacks immediately followed, blamed on political opponents, with well-prepared proposals to expand powers and budgets for law enforcement agencies.
- Conversion of rights into privileges - requiring licenses and permits to perform acts which the government has no delegated power to restrict, except due process of law, in which the burden of proof lies with the applicant.
- Political correctness - many if not most people can be recruited to participate in repressive actions against undesirable views or behavior, resulting in paving the way for the dominance of tyrannical governments
- "They have erected and created many new positions to harass us and plunder our property.
- They plundered and devastated our land, water, energy, biological, recreational, mineral, water, plant and animal resources, destroying the well-being of our lives.
- They refused to pass laws that were most useful and necessary for the public good and prosperity.
- "They created and adopted, without our consent, a multi-level, intricate system of laws that violated our rights and freedoms.
- The created form of law and power gives them the opportunity, through deception, coercion, violence, collusion, falsification and concealment of information, to illegally appropriate other people's property, thereby they are guilty of illegal enrichment.
- Those adopted laws that are obliged to protect life, health, freedom, property do not work due to great corruption in the system of government and justice.
- For complete and absolute tyranny, they created various legal artificial fictitious persons and statuses, such as citizen, individual, introducing additional laws and punishments for their profit.
- Legislatures are so constituted as to be placed in inconvenient places, remote from the repository of their public records, for the sole purpose of wearying us into submission to their measures.
- Creation of an ineffective system of education and upbringing without our consent, aimed at stratifying society, where rights and freedoms are infringed, as well as divisions into classes based on material and well-being.

- Creation of an ineffective healthcare system without our consent, aimed at stratifying society, where rights and freedoms are infringed, as well as divisions into classes based on material well-being.
- Creation, adoption and establishment of a punitive, fascist regime, electronic concentration camp, imposition and use of punitive measures, bans, introduction of self-isolation regimes (house arrest), introduction of passes and QR codes, measures to restrict freedom of movement, declaration of quarantine, emergency situation (ES) , State of Emergency (state of emergency), Martial law (LS), curfew regime, universal vaccination and chipization, famine, extermination and global genocide, turning all men and women into slaves and organ donors.
- At every stage of this oppression, We petitioned for redress in the most humble terms, but our repeated petitions were answered only by repeated insults and humiliations, causing significant personal injury and property damage.

When men and women enter society, it is by voluntary consent; and they have the right to demand and insist upon the fulfillment of such conditions and antecedent restrictions as constitute a fair original contract.

Every natural right which has not been expressly renounced, or which, by the nature of the social contract, is inevitably given up, remains.

All positive and civil laws must conform, as far as possible, to the law of natural reason and justice.

The natural freedom of men and women, when entering into society, is infringed or limited only so far as is necessary for the great purpose of society, for the best good of the whole society.

In the state of nature, every man and woman is under the authority of God the Creator and Creator, and is the judge and sole judge of his own rights and the injuries done to him. By entering into society he consents to an arbiter or an indifferent judge between himself and his neighbors, but he no more renounces his original right than to take the matter beyond the common law and leave the decision to the judges or indifferent arbiters.

All men and women have the right to remain in the state of nature as long as they please, and, in case of intolerable oppression, civil or religious, to leave the society to which they belong, to organize or join another.

That all power belongs to men and women, and therefore emanates from him; that the magistrates, the agents, are his trustees and servants, and are always subject to them.

The natural liberty of man and woman is to be free from any higher power on earth, and not to be under the will or legislative power of man, but only to have the law of nature to govern them.

The two emotions on which all mental horror is based are fear and anxiety, which give rise to most of the crimes in this world on planet mother earth.

All systems of psychic terror can be classified into one of three types depending on the primary goal(s) of the operator - ritual, political and sexual:

- ritual terror is a system that, through complex and false beliefs, seeks to convince the subjective mind that it is completely under the control of the operator in this life and the next, sometimes before some kind of traumatic and terrible murder of the victim.
- political terror is a system that seeks to convince the subjective mind that it is completely under the control of the operator, sometimes committing certain politically motivated actions, such as murder or suicide.
- sexual mental terror is a system that seeks to convince the subject that he is completely under the control of the operator and is a form of sexual slave (slave).

Ritual mental terror is based on five fundamentally flawed and false concepts that convince the subject of the victim as being true: cruelty, humility, appropriation, condemnation, obligation:

- Cruelty is the false and erroneous belief that, as a result of extreme physical and cognitive trauma, men, women and children automatically separate themselves as cognitive beings from spirits and instead revert to animal instincts.
- humility is the false and erroneous belief that, through indoctrination, physical and cognitive trauma, acceptance and acceptance of their plight is easier and better than disagreement, resistance or open rebellion.
- appropriation is the false and erroneous belief that, through indoctrination, the victim subject voluntarily consents to be condemned as an eternal slave to the operator during life and after death.
- Condemnation is the false and erroneous belief that the operator has the power, often through ritual murder, to condemn and damn the mind of the victim subject into eternal slavery, often reinforced through extraordinary traumatic and horrific murder.
- Commitment is the false and erroneous belief that, once killed, the victim subject's mind remains in constant service to the operator and his organization.

Political mental terror is based on seven fundamentally erroneous and false concepts: Animalization, traumatization, elimination, implantation, dissociation, suppression and recognition:

- animalization is a false and erroneous belief that all men and women are essentially animals, devoid of any higher spiritual qualities.
 - traumatization is a false and erroneous belief that physical and cognitive trauma is an effective tool for “deprogramming” and “reprogramming” consciousness.
 - Elimination is the false and erroneous belief that free will can be eliminated through effective methods of mind control.
 - Implantation is the false and erroneous belief that entirely new physical memories can be downloaded into the brain.
 - dissociation is the false and erroneous belief that the victim will share the trauma and torture from the torturers.
 - repression is the false and erroneous belief that trauma memories and other false mind control systems will be suppressed as if “it never happened.”
 - confession is the false and erroneous belief that supposed implanted memories can be recalled and recalled through special signs and signals.
- The most common perpetrators of mind terror are governments that maintain systems of control.

Psychology is a term used to define a complex and false system of the influence of the mind, purporting to be a science in the study of the human mind, human and animal behavior. On the contrary, psychology is a complex mind virus designed to edify the ancient mind virus of the ego.

While the word "psychology" has been in use since at least the 17th century, the emergence of psychology as a pseudoscience is largely a product of the late 19th century into the 20th century. The word psychology comes from two ancient Greek words ψυχή, (psukhē), meaning “breath, spirit, soul” and λογία (logii) meaning “study, research, education.” Therefore, the true original meaning of the word psychology is “the study of the soul.”

In contrast to the original meaning of the word, the emergence of the pseudoscience of psychology in the 19th century and early 20th century is based on the premise that “there is no such thing as a soul.” Thus, psychology by definition is a heretical and contradictory discipline in relation to itself and its true meaning.

Modern psychology as a complex mental virus is based on eight false beliefs: animalism, egoism, instinctivism, mentalism, behaviorism, traumatism, cognitivism and normalism:

- Animalism is the false and erroneous belief on which most schools of psychology are based, that all men and women are essentially animals, lacking any higher spiritual qualities such as a soul.
- egoism is the false and erroneous belief that the multiple parts of the ego are a model of the mind, rather than a complex virus of the mind that seeks to usurp and separate the different levels of the mind.
- Instinctivism is the false and erroneous belief that the species Homo sapien is primarily instinctive, which denies the reality and nature of will or “free will.”
- mentalism is the false and erroneous belief that the mind of Homo sapien is actually biological, and the “perception” that the mind is outside the body is an “effect”. Moreover, since the mind is established as a biological function of the brain, the mind can have diseases just like the body.
- Behaviorism is the false and erroneous belief that the mind of a man or woman can be largely known through the study of actions and behavior based on numerous assumptions that associate certain intentions with behavior as a “predictable” motive.

- traumatism is a false and erroneous belief that methods of physical and cognitive trauma are effective tools for “deprogramming” and “reprogramming” the mind and treating mental illness.
- Cognitivism is the false and erroneous belief that the mind is actually a by-product of the biological brain as a complex set of electrochemical reactions and that mental illness of the mind is reflected in a chemical imbalance in the brain that can be resolved with pharmaceutical drugs.
- Normalism is the false and erroneous belief that behavior not reflected by any arbitrary “standard” of accepted behavior reflects mental illness or mental disorder.

Since psychology is unable to provide a rational, reasonable and comprehensive model of the mind without the use of fundamentally false and erroneous assumptions, all opinions, observations, analyzes and reports regarding the mind obtained through the use of psychology alone are invalid from the outset.

Any and all psychological assessments, conclusions and expert opinions in law do not have the force of law, scientific credibility and are therefore invalid from the very beginning.

Any state or government sanctioning punishment or cruelty is the most wicked, blasphemous, heinous and barbaric act and open recognition of those politicians, leaders, intellectuals and accomplices who are responsible for the fact that they despise the people and the country, and until then, Until such barbarities cease, there will be no rule of law, justice or due process, including (but not limited to): terrorism, psychopathy, trauma or torture:

- Terrorism is deliberately sanctioned acts of violence and cruelty by a government or its agencies against its own people.
- psychopathy (psychological operations) are deliberate actions sanctioned by the government and its agencies in order to maintain heightened levels of fear, confusion and propaganda in society.
- Trauma is the deliberate acts of physical and mental violence sanctioned by the government and its agencies to break the spirit and mind of a society and ensure demoralized submission.
- Torture is deliberate acts of cruelty and abuse, such as over-imprisonment, food poisoning, electromagnetic poisoning, threats, open surveillance, illegal fines and confiscations, and deliberate lack of resources

Recognizing the atrocities committed against the entire Homo Sapiens race of Planet Earth by the false claims of the Roman cult and their Venetian/Khazar overlords, too numerous to list here.

I proclaim to dissolve, to break the three chains that have illegally bound and enslaved us to the slave system of the Roman Cult. These chains are known as trusts:

First Crown Lands of the Crown

Although Pope Boniface VIII was the first leader in history to create the concept of a trust, the first testamentary trust through a deed and will creating the estate of a deceased person was created only by Pope Nicholas V in 1455 through the papal bull Romanus Pontifex. This is only one of three (3) papal bulls to include the incipit line "For eternal memory." This bull had the effect of transferring the right to use land as real estate from the express trust "Unam Sanctam" to the control of the pontiff and his successors in perpetuity. Consequently, the entire land is claimed as crown land.

This 1st Crown is represented by the 1st Cestui Que Vie Trust created at the birth of the child, depriving him of all beneficial rights and rights to land at birth.

Second Crown of the Commonwealth

The second crown was created in 1481 by the papal bull "Aeterni Regis", meaning Eternal Crown, issued by Sixtus IV, which was only the 2nd of 3 papal bulls as testamentary trust instruments.

This papal bull created the so-called Crown of Aragon, later known as the Crown of Spain, which became the supreme sovereign and supreme steward of all Roman slaves subject to the Roman Pontiff. Spain lost the crown in 1604 when it was transferred by Pope Paul V to King James I of England following the successful adoption of the Union of the Crowns or Commonwealth in 1605 following the false Gunpowder Plot.

The crown was finally lost to England in 1775, when it was returned to Spain and King Carlos I, where it remains to this day.

This 2nd Crown is represented by the 2nd trust "Cestui Que Vie", created at the birth of a child, which consists of selling the birth certificate as a bond to the private central bank of the country, depriving him of ownership of his flesh and dooming him to eternal slavery in as a Roman man or slave.

Third Crown of the Ecclesiastic Throne

The Third Crown was created in 1537 by Paul III through the papal bull Convocation, also intended to inaugurate the Council of Trent, and was the third and final testamentary trust that was established to recover all lost souls lost to the See.

The Venetians helped create the Act of Cestui Que Vie of 1540 to use this papal bull as the basis of Henry VIII's ecclesiastical authority. This crown was secretly given to England for the gathering and harvesting of lost souls.

The Crown was lost in 1815 in the deliberate bankruptcy of England and was given to the Temple Bar, which became known as the Crown Bar, or simply the Crown.

Since then, the Bar has been responsible for the harvest of the souls of the lost and damned, including the registration and collection of baptismal certificates, representing the souls collected by the Vatican and stored in its vaults.

This 3rd Crown is represented by the 3rd "Cestui Que Vie" trust created at the baptism of the child, which represents the transfer by the parents of the baptismal certificate to the church or registrar, which is a gift of title to the soul. Thus, without legal ownership of their own soul, a man or woman may be legally disqualified from being considered a person, but may be considered a being and a thing without having a legal right to a soul. This explains why the bar can legally enforce maritime law against men and women - because they can be treated as objects, cargo without a soul.

2. I proclaim to dissolve, break the five-headed monster of control, which has illegally bound and enslaved, with the slave system of the Roman Cult.

Over the years, and more recently, many people have realized that part of the problem of society accepting our disagreement is first restoring our capable status as adults without the need for representation. This is the meaning of sending notices of revocation of consent or acts of revocation of power of attorney.

The importance and argument for restoring your competence in the first place is usually explained by the logic of viewing us as little children trying to run a "grown-up" business. Yes, we can sit in a chair and send letters, but because we are "children," the agency in question is not allowed to even consider our request—sort of like an invisible force field.

However, with this new take on Cestui Que Vie, which features not just a series of representative controls, but five, the task of restoring your competence becomes even more challenging.

What are these five representative positions of control?

Lost (property) = Guardian - Custos Rotalorum (Keeper of registers, scrolls, rolls)

Abandoned (property) = Protector/Steward/Manager - Chancellor/Treasurer

Incompetent = Actual attorney/lawyer in reality - Attorney General

Minor = Guardian - Public Guardian/Public Guardian

Branch = Parent - Executive Government

1st Control Point - lost (at sea). You are considered mere chattel "lost at sea" - your society considers you the "fleet of men" in your society, eligible for salvage from the moment you are born. Flotam in this context means not only "floating wrecks" but also "shipwrecked emigrants or castaways (alien)." Thus, the first representative of control is the Guardian or rotating guardian of the slave rolls (Custos Rotalorum) of slave lists. This first point of control is vital to making the deception about what happens at a birth, and the subsequent sale of an extracted (saved) birth record, decisively "legal" as well as legal.

2nd control point - abandoned (at sea). You are considered just property, "thrown into the sea" - therefore in your society you are considered a "Jetsam Man" who is allowed to be rescued from the age of seven. Jetsam in this context means "that part of a ship, its equipment or cargo which is deliberately thrown overboard or thrown to lighten the load during a distress and which sinks or washes ashore." Thus, the second

representative of control is the Protector/patron or Steward/steward, usually represented by the position of chancellor or treasurer of your society. This second point of control is vital to ensure that the deception and corruption involved in issuing bonds as well as currency notes against your trusts - without you receiving any direct benefit other than taxes - is legal as well as legal.

3rd point of control - minor. You are seen as just a child, something like Peter Pan, who never grew up and accepted his true responsibilities to society by declaring his coming of age to the ruling elite in the way they require at eighteen. Instead, they still see you as an irresponsible naughty child who shows a lack of self-discipline and sometimes needs to be "taught a lesson", so they appoint a guardian over you, usually a public trustee, who sometimes goes to the clerk of the court/clerk of the court, to punish you when you do wrong in their system.

The 4th point of control is incompetence. You are seen as an idiot, a total moron - someone who doesn't deserve to be considered anything more than sheep (sheople/people) or livestock (chattel/chattel) by the elite that runs your society, when you are unable to regain their status by the age of twenty-one. Instead, they believe that you are happy to be a slave and accept what little they give in return, while they live off your energy like the classic parasites that they are, which is why they appoint an attorney-in-law, usually the head attorney general where you live to make legal decisions on your behalf regarding the affairs of most of your estate's assets that they are hiding from you.

The 5th and key point of control is the branch. You are considered a child of the state because your parents abandoned you, even if they had no idea what they were signing when they gave birth to you. The State is now your mother and father as a quasi-replacement for the claim of the Roman Pontiff of the Roman cult to be the father of everything on Earth. So, even if you get out of control of the other four points of control and curse, they have created a system that believes that it is impossible to get out of control of this fifth point of the pentagram of control.

COURT

All currently existing courts and governments are financial institutions and operate only de facto and not de jure. "De facto" means that something actually exists and not by legal right. At present, all courts, knowingly or unknowingly, are in the business of generating revenue for the benefit of the creditors of the national government, while imposing a militaristic police state against the people, where men and women can be arrested and detained without charge on the grounds that they may commit crime in the future, or for publicly criticizing the criminal actions of the government and/or monarchy that controls it all. All courts lose their legitimacy, authority, power and authority, by default, when they commit or agree with crimes against men and women or humanity, or when they wage illegal wars under fraudulent pretenses and without the consent of the people, solely for the sake of profit and the benefit of shareholders and stakeholders of the military-industrial complex. Any court or government has a legal responsibility to identify itself as de facto or de jure, and to fail to do so when asked to do so is fraudulent and in fact a criminal offense of fraud.

Jurisdiction is the power, asserted rights and powers of one or more officers to consider, administer and issue certain decrees, regulations, statutes or ordinances for a given legal entity or Society. Jurisdiction most often refers to the power of a court to hear and decide a case, especially with respect to the actual publication of orders.

Origin of the word Jurisdiction

The word Jurisdiction comes from the combination of two ancient Latin words iuro, meaning "to swear, swear," and dicio, meaning "power, authority, influence, authority of the word; talk, argue." Thus, jurisdiction by definition depends on taking a sacred oath associated with speech or argument first before "any body or authority capable of determining the validity of such speech or argument."

General function of jurisdiction

Jurisdiction is, without a doubt, one of the fundamental elements that must be decided before the commencement of any case in any court to ensure the validity of any subsequent orders, bills, bonds, liens, securities and judgments.

Even without knowing the origin of the word, most people know that if a court does not have proper jurisdiction, it cannot proceed with a case.

Under Roman law, also known as Roman cult law, common law, private international law and civil law, there are three (3) main forms of jurisdiction, each based on specific claims of rights that are personal, territorial and subject:

(1) Personal jurisdiction is the asserted power, through jus in rem, under the asserted common (Roman) law, through the lex situs (the law of the place in which the property is located) over a person, often regardless of his location. (2) Territorial jurisdiction is the asserted power through the "jus gentium" under the asserted common (Roman) law through the "lex loci" (law of a place) limited to a limited area, including all those (persons) who reside there and any events that are happening there.

(3) Subjectum jurisdiction is the asserted power "jus in personam" under the asserted common (Roman) law through the "lex specialis" (the law governing a particular subject) over the subject matter of the legal issues involved in the claim.

Thus, if a court cannot establish conclusive jurisdiction over personal, territorial or subject matters under ancient laws such as the laws of nations, then that particular court has absolutely no jurisdiction.

However, if the court can establish one or more arguments in favor of jurisdiction, then it may decide to proceed even though its defective jurisdiction, at least once, may result in an appeal.

Finally, it can be said that a court that establishes all three forms of jurisdiction has "perfect jurisdiction" and therefore the jurisdiction argument will have no valid basis for any appeal.

As far as nations and courts are concerned, most countries have more than one level of courts and more than one type of court, with the highest courts hearing the most important questions of law and the lower ones having similar jurisdiction.

Jurisdictional rights

Essentially, the jurisdiction of the Roman courts was based on the presumption of ownership expressed in rights.

According to the Roman system, the claims of right in rem, right of kinship, right of personality are an attempt to "perfect jurisdiction" based on the claimed jurisdiction over one's soul, body and mind respectively: (1

) "jus in rem" as personal jurisdiction asserts "ownership" of the soul and name through possession of the birth record and the presence of a birth certificate confirming that the soul-saving "baptism" ritual took place in the hospital. Moreover, the existence of the "Cestui Que Vie" trusts is proof of the "ownership" of the name and therefore of the "soul" belonging to the Roman Cult and its partners.

(2) "jus gentium" as the Territorial Jurisdiction claims "ownership" of the flesh through the birth record of the child, transferred as "property" to one of the three "Cestui Que Vie" trusts, and then a bond issued against it and "sold" to the corresponding private central bank of the state, secretly turning every citizen into a private slave.

(3) "jus in personam" as subject matter jurisdiction asserts the "possession" of the mind by consent through the acceptance of benefits and the availability of social security, health benefits, driver's licenses and other documentary evidence of consent to be "under" the jurisdiction of the Roman court.

Ecclesiastical and commercial significance of the jurisdiction

It is one thing to follow the custom of the asserted power and to ensure that such power has been "perfected" before proceeding with the proceedings, but what is the deeper importance of the law of jurisdiction, especially in relation to oath...

As discussed earlier, jurisdiction comes from the combination of two ancient Latin words "iuro" = "to take an oath" and "dicio" = "power, influence, authority (words)." The second part of the jurisdiction is also stated as "dicere", which means "to speak, to argue", which is also true. Thus, jurisdiction has an essential connection with the making of the sacred oath associated with speech or argument before "any body or authority capable of determining the validity of such speech or argument."

Since the primary function of a private guild of lawyers is to commercialize our oath and honor through securities, bonds and sureties, it is now entirely logical that such actions rely on the fundamentals of Jurisdiction, such as the swearing of a sacred oath associated with a speech or argument before some authority capable of determining the validity of such speech or argument.

Unless the jurisdiction is perfected, the commercial products produced by the private court of the guild of private lawyers will be of poor quality. However, jurisdiction also reveals the deeper "ecclesiastical" nature of itself - that the place for such a hearing, for such a vow, must be before some suitable ecclesiastical authority with the power and competence to adjudicate.

In other words, if the ecclesiastical authority of a court is properly challenged by an equal or higher ecclesiastical authority, then by definition it cannot have jurisdiction. Unfortunately, this profound historical truth about the nature of jurisdiction escapes the attention of many members of the guild of private lawyers, who know little about the true nature of the basis of their own laws.

Standard Private Bar Guild Approach to Jurisdiction

In most private bar guild courts, establishing personal, territorial and subject matter jurisdiction is relatively simple and quick, so that within minutes the court will have perfected its jurisdiction by simply confirming the defendant's "name", their "residence" and that they "understand" the allegations charges against them.

Perfecting "personal" jurisdiction, the judge simply asks are you (by any name)? If you answer yes, then you have established personal jurisdiction by virtue of the fact that the 1st Cestui Que Vie Trust created at your birth transferred your "name" from you to the state and you only have equitable title. The name comes from the Latin "nomen", which means the name of the slave in the register.

In perfecting "territorial" jurisdiction, the judge simply asks for your residential address or the location of the "res," property. Once you respond to any location within the borders of a nation state, they will transfer you to the territorial jurisdiction.

Now when they say if you "understand" the charges against you, they are asking if you will "be within" the jurisdiction of the court to try the case. When you answer yes, they have perfected their jurisdiction - all in a matter of seconds.

Color and its symbolism for Roman cult and private bar guilds

Color continues to play a fundamental role in magic, spells, curses and the power of private bar guilds through their invention, support and patronage of the Roman cult and the parasitic noble European families associated with it.

Since the creation of the concept of case law and the takeover of public courts by private guilds of lawyers since the 16th century, the three colors continue to be of great importance to their legal framework despite the fact that less than one in a thousand members of private guilds of lawyers have any competence regarding the meaning of these colors. These are pink, yellow and blue.

In the first case, these colors represent the creation of an indenture contract - a form of contract that does not allow it to be terminated if not only are three copies of the contract present, but each of which represents one of the colors (pink, yellow and blue).

In the second case, these colors represent the three main Cestui Que Vie trusts created at birth against every man and woman in the Western world: yellow represents the name and property, pink the flesh and birth record, and blue the soul and its associated obligations.

Pink - Pink is one of the standard colors used by private guilds of solicitors when granting wills. The color pink represents living flesh. It also represents the recipient as an animal, a "pig", a monster and a human - a being less than a man or a woman. This is the perverted thinking and invention of the anti-Semitic parasitic elite that still clings to power today.

Yellow - Yellow is one of the standard colors used today by private bar guilds for their writing pads, summons forms and writs, and signifies the power of the Venetian/Khazar/Magyar nobility claiming to be the sole representatives and owners of all property on the planet is a completely fraudulent claim that has no historical basis other than an obsession with destroying history, original texts, ancient cultures and anything that can expose such lies by the parasitic ruling elite.

Blue - Blue is one of the standard colors used by the private guild for certain types of summons, and represents the Vatican and Jesuits' claims to be the heavenly representatives and high priests of the planet.

Although such colors are still used along with other symbolism by private guilds of lawyers to falsely claim any ecclesiastical or demonic authority for their actions, the reality is that such customs are now observed in almost complete ignorance.

An exception is the use of color to indicate the return of an inalienable deed/letter together to destroy any constructive trust associated with it. Most senior judges know that if pink, yellow and blue deeds are rejoined, then "whole body" and "whole soul" are present and they are therefore required to destroy the constructive trust.

There are twelve (12) key presumptions asserted by private Bar Guilds which, unless challenged, are true: Public Forum, Public Record, Public Service, Public Oath, Immunity, Summons, Guardianship, Court of Guardians, Court of Trustees, Agent and Agency, Incompetence and Guilt: (1) The presumption of the Public Court is that any matter before the lower Court of Rome is within the scope of the Public Court, when in fact the members of a private Bar Guild assume that the matter is a matter of a private Bar Guild. Unless the case is successfully argued as a matter to be tried in a Public Forum in accordance with the Public Statutes and Rules, it remains a matter of the private Bar Guild entirely in accordance with the rules and procedures of the private Bar Guild;

(2) The presumption of the Public Record is that any case brought before the lower Roman courts is a matter of the Public Record, when in fact the members of the private Guild of Lawyers assume that the case is a matter of the private Guild of Lawyers and their own records. Unless the public function of a judge or magistrate is properly disclosed as nothing more than a Public Recorder, all statements, depositions, debates and documents remain private records of the rules of the Guild of Private Lawyers;

(3) It is the presumption of the Public Service that Judges, Magistrates, Bailiffs, Prosecutors, Advocates, Clerks and other Judicial Officers shall take the "oath of office" and be appointed as Public Officers in accordance with the Public Statutes of the State or Nation when in fact, all members of the Private Lawyers' Guild take a solemn secret absolute oath to their Guild, renouncing their public and public service duties. Therefore, in most cases, all the "officers" in court are not real Public Officials, but impostors, private contractors and members of organizations acting contrary to public laws against false representations;

(4) The presumption of the Public Oath is that all members of the Private Bar Guild acting as "public officers" who have taken a solemn public oath remain bound by that oath and are therefore obligated to serve honestly, impartially and fairly as such dictated by their oath. Unless openly challenged and demanded, the presumption remains that members of the Guild of Private Lawyers acted under their public oaths in conflict with

the oath of their Guild. If challenged, such persons must recuse themselves as having a conflict of interest and cannot take public oath;

(5) The presumption of immunity is that key members of the Guild of Private Lawyers, as "public officials" acting as judges, prosecutors and magistrates, who have taken a solemn public oath in good faith, are immune from personal claims of damages and liability. Unless openly challenged and required to take their oath, members of the Guild of Private Advocates, as public trustees acting as judges, prosecutors and magistrates, are presumed to bear no personal responsibility for their actions;

(6) The presumption of summons is that the custom is that a summons remains unanswered and therefore whoever is present in the Court is deemed to have accepted the position (defendant, juror, witness) and jurisdiction of the court. Appearing in court is usually a summons. Unless the summons is waived and returned with a copy of the refusal filed prior to the entry or visitation order, the jurisdiction and standing of the accused and the existence of "fault" remain in effect;

(7) The presumption of guardianship is that, by custom, the summons or warrant of arrest remains blank, and therefore the one who attends the court is considered a thing and therefore subject to detention by the "Custodians." Unless this presumption is openly challenged by refusal of summons and/or in court, the presumption remains in force, you are the thing and property and therefore can lawfully be held by the custodians;

(8) The Presumption of the Court of Guardians is the Presumption that since you may be listed as a "resident" of a ward local government area and have entered the letter "R" in your "passport", you are a pauper and therefore under a "Guardian". powers of the government and its agents as the "Court of Guardians". Unless this presumption is openly challenged to demonstrate that you are both the general guardian and the general executor of the deed (trust) in court, the presumption stands and you are by default pauper and insane and therefore subject to the rules of the secretary of trustees (clerk of the magistrates' court);

(9) The presumption of the Court of Trustees is that members of the Guild of Private Solicitors assume that they have the power to create a trust without disclosing to you your role or interest or property in question. There is also no report against which the charges are brought that you must accept from the defense. After the case is completed, you must assume the role of trustee of a trust that you did not create, for which you have incomplete information and do not have adequate disclosure, and fulfill the obligations of that trust. Unless the incomplete presumptions are rebutted at the outset of the case and clear disclosure of complete accounting statements is not possible for you to comply with or agree to such incomplete disclosures;

(10) The presumption of Agent and Agency is the presumption that, under the law of contract, you have expressed and given authority to the Judge and the Magistrate by a statement of words such as "acknowledge, understand" or "understand" and therefore agree to be bound by the contract. Therefore, unless all presumptions of appointment of an agent are rebutted by such formal disclaimers as "I do not recognize you" to eliminate all implied or expressed appointments of a judge, prosecutor, or clerk as agents, the presumption remains valid and you agree to be contractually obligated to act on the instructions of a judge or magistrate;

(11) The Presumption of Incompetence is the Presumption that you are at least ignorant of the law and therefore unable to present yourself and argue properly. Therefore, the judge/magistrate as an enforcer has the right to arrest, detain, fine or force you to undergo a psychiatric examination. If this presumption is not openly rebutted by the fact that you know your position as executor and beneficiary, and actively reproach, and object to, any contrary presumption, then by the time your incompetence is declared, the judge or magistrate may do all that is necessary to keep you in subjection;

(12) The presumption of guilt is the presumption that, since this is supposed to be a private business meeting of the Lawyers' Guild, you are guilty regardless of whether you plead "guilty", do not plead, or plead "not guilty". Therefore, unless you have either prepared an Affidavit of Truth and a Motion to Dismiss with Extreme Prejudice on the public record in advance, or have not raised an objection, then the presumption of guilt is that you are guilty, and the private Bar Guild may detain you until An undertaking will be prepared to guarantee the amount the guild wants to receive from you.

The Secret of the Judiciary

I. At the Last Word - protest (certain speech)

At the announcement of the verdict - protest (certain speech)

At the Knocking of the Gavel - protest (certain speech)

II. The clerk of the court appoints the trustee of the constructive trust.
The prosecutor is the creator of the constructive trust.
The judge is the trustee of the constructive trust.

III. Any decision, resolution, determination, court order is a debt obligation and the person who bears obligations under it generates a contract in a particular legal field with its financial model.

The Court of Admiralty, also known as a "court-martial", is a type of quasi-military governing body first introduced by an Act of 1661 (13Car2.S1.c.9) and associated with a Guaranty Fund, originally administered by Greenwich Hospital, through which the Crown and the Westminster Parliament Guarantees were given to maintain discipline among military (naval) officials, to punish deserters and for any violations, and to suppress insurrections in any Dominion, state, province, colony or territory under the control of the crown.

- The Admiralty Court had the functions of government in any occupied or disputed territory and seized and distributed goods and property of the enemies of the state as "prize goods, gifts."
- rescued and recovered property and goods legally subject to the control and jurisdiction of the Crown.
- took care of the pensions and welfare of widows and orphans of deceased military personnel and the rehabilitation of wounded military personnel.

The Court of Justice, also known as the "inner and middle temple", also known simply as "equity", is a separate governing body associated with the Guaranty Fund, created in 1601 (43El.c. 12) charged with assuring the merchants of the City of London and subsequently purchased by the members of the inner and middle Temple in 1608 from the Crown for the sum of 666 pounds sterling, whereby, henceforth, disputes between merchants were settled privately without recourse to the courts of the Crown and without the formalities of adversarial or proceedings. However, these courts had full powers to enforce public judicial acts.

The Court of King's Bench, also known as the "Curia Regis De Banco", is a special body associated with the Guaranty Fund known as the "Oyer and Determiner", first formed in 1542 (34Hen8.c. 14), under which indictments the acts and sentences of all the lesser courts were rendered and protected from undue review, procedural error, and wrongful conviction, providing an incentive for clerks, judges, and magistrates to increase the number of indictments and sentences they handed down.

The High Court of Chancery, also known as the Chancery, is an administrative body established by the Act of 1662 (14Car2.c.23), first created in 1601 (43El.c.12) as the City of London Merchants' Guaranty Fund, subsequently purchased by the members of the Inland and Middle Temple in 1608 from the Crown for the sum of £666, with the result that any doubt that a private Court was not a proper court was dispelled, and the court was established as a High Court of Chancery with additional powers, as was the case in Admiralty ships, where some participants were "far beyond the seas" and subject to Admiralty Law.

The Middlesex County Court, also known as the county court, is a kind of public and private form of legal government, which is mainly associated with the Guaranty Fund, first created in 1750 (22Geo2. c.33) under which the historical county courts were sheriffs assurances have been provided that once a case has been submitted to the jurisdiction of the court for a fee, the cost of such proceedings or the recovery of debts and damages from the defendant can be assured. Thereafter, the Court, as a court of record, was empowered to decide the matter summarily, without the limitations of common law and formal proceedings, as the first court in the country to introduce the "summary judgment" model for admiralty courts.

The Supreme Court, is a kind of public and private form of legal administration, which is based on the Guaranty Fund created in 1792 (32Geo3. c.46) under which both the Royal Court and the High Court of Chancery were given guarantees that that after the process, the costs associated with civil or criminal (and later admiralty) proceedings, or with cases of collection of debts or damages, penalties or proof of justice, can be recovered for a fee. All cases were heard and decided within the jurisdiction of the particular dominion, state, colony, plantation, province or territory, as if they had been heard and decided by a valid court in England.

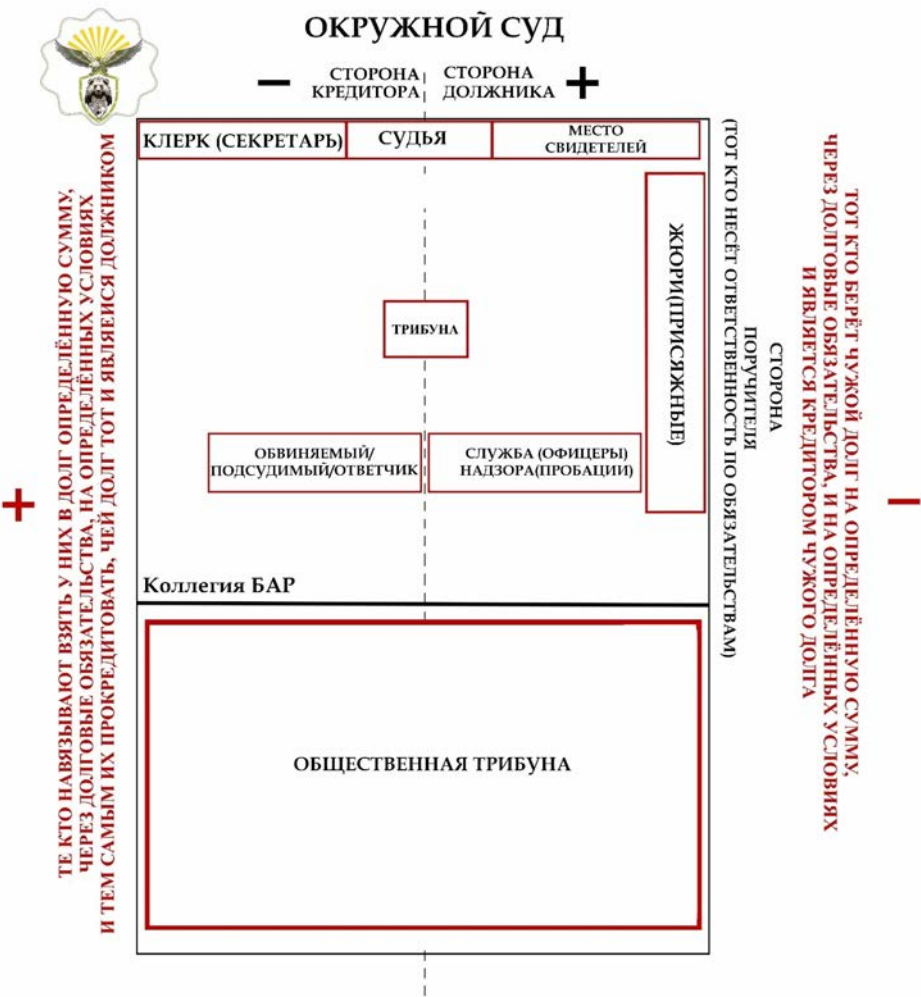

The Police Magistrates' Court, also known as the magistrates' court and in some jurisdictions as the "district court", is a type of officially sanctioned and private form of legal administration, based on the Guaranty Fund created in 1802 (42Geo3.c.76) according to with which the

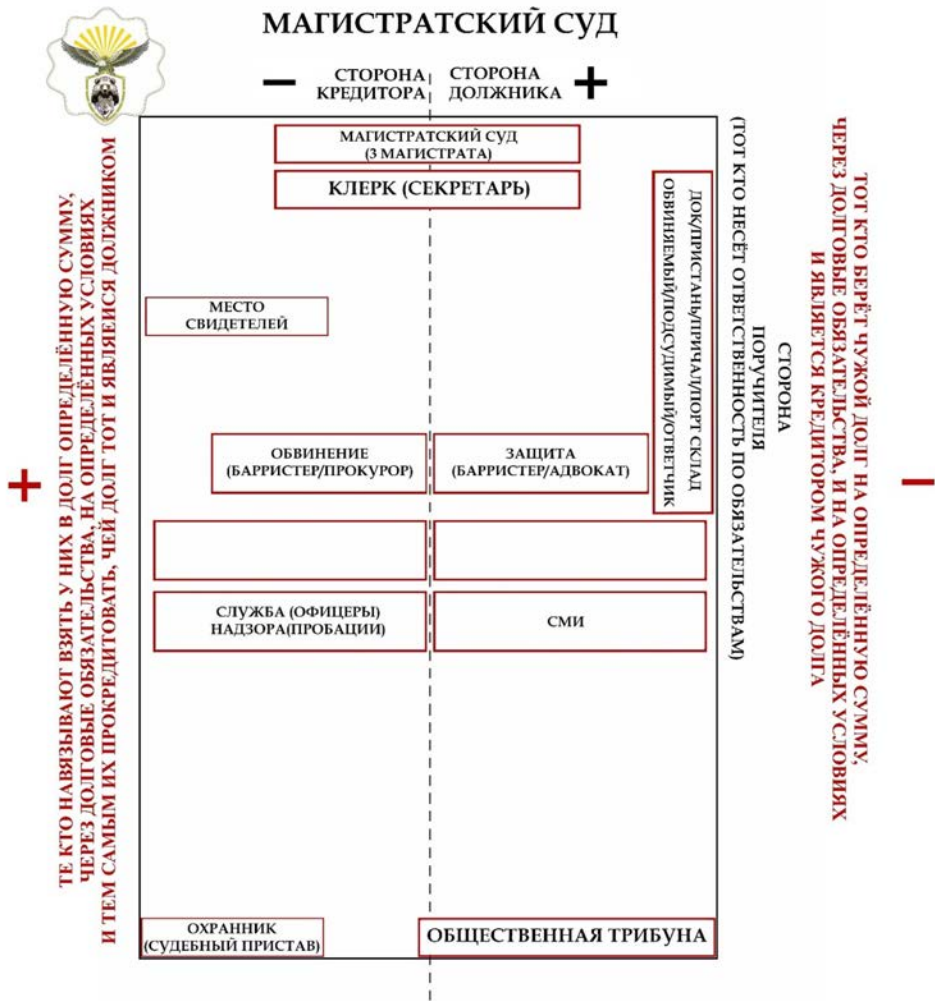

Government of the Metropolitan Corporation or the Municipal Corporation was given guarantees regarding the maintenance of law and order and public order, protection of the interests of the wealthy elite and traders and the prevention of disorder, rebellion and the removal of any threats as a competent court having its own armed army.

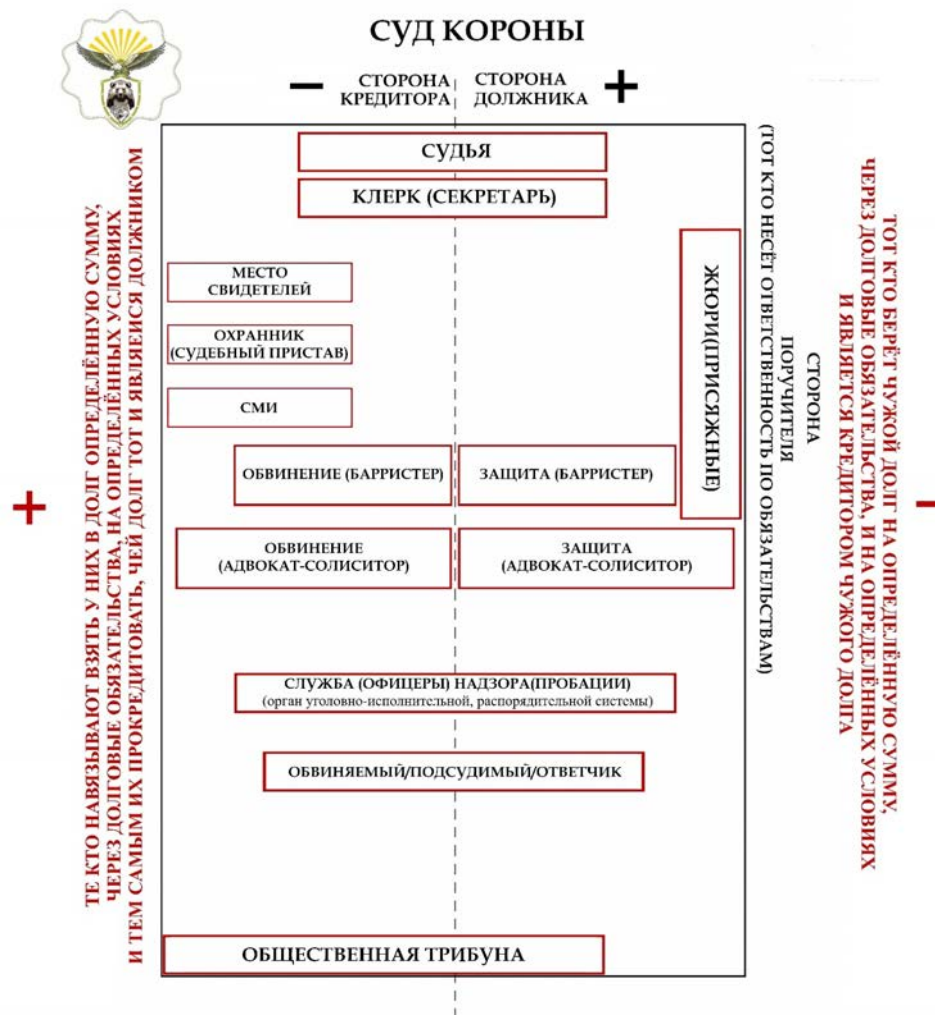

The Bankruptcy Court is a kind of officially sanctioned and privately owned form of legal administration, inextricably linked with the Guaranty Fund, originally known as the "Fund of Bankruptcy Fees", first created in 1821 (2Geo4. C. 115) by providing a guarantee to the Crown and the Bank of England for the return of funds provided for the establishment of the court and the receipt and subsequent transfer of any surplus profits; and providing security to the High Court of Chancery regarding the payment of fees and the proper maintenance of accounts generated by the levy on the bankrupts' estates.

A local magistrates' court, also known as a magistrates' court and in some jurisdictions as a "district court", is a type of officially sanctioned and private form of legal government based on the Guaranty Fund, first created in 1863 (26 and 27 Vict. c.97) under which guarantees were provided to the local council of a metropolitan corporation or municipal corporation with a population of 25,000 people or more, and public health laws, local government laws or local development laws were in force for the purpose of maintaining public health, good behavior and decency; guarantees to maintain peace and remove any and all inconveniences as a court of protocol with its own armed forces.

The High Court of Justice, also known as the High Court, is a kind of public and private form of legal administration, based on the Guaranty Fund created in 1873 (36 and 37Vict. c66) functioning in accordance with the previous legal and guarantee functions of the High Court of Chancery, The Court of Queen's Bench, the High Court of Admiralty, the Court of Common Pleas of Westminster, the Court of Exchequer, the Court of Probate and the Court of Divorce and Matrimonial Causes, which have now been combined into two chambers, one of which is the High Court of Her Majesty's Court, and the other by Her Majesty's Court of Appeal.

Accounting of the Roman model of society

Западно-римский бухгалтерский учет (1600-е гг.)

Western Roman accounting (1600s)
The first global financial model based on "monetizing sin" by taking all profits from the use (usury) of sin (pegged on blood).

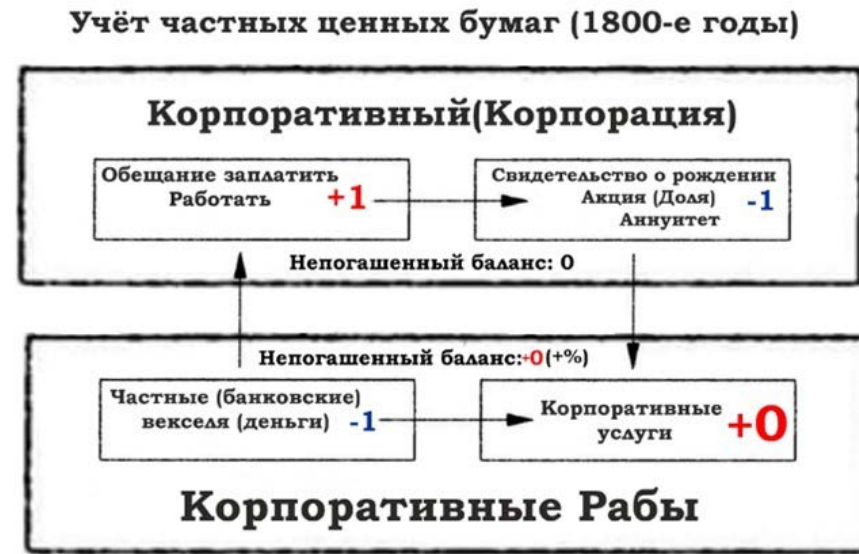

Европейский аннуитетный учет (1700-е годы)

European annuity accounting (1700s)
The second global financial model, based on the English trading model of "private indulgences" or treasury bills.

Accounting for private securities (1800s)
A global banking model based on the idea that all non-wealthy people are animals and debt slaves with the right to sell their efforts in exchange for wealth.

Since the 1950s, the Global Financial System has ceased to be based on any financial accounting metrics, competence or rules and has become the largest corrupt financial PYRAMID in history, through the issuance of Securities (Debt).

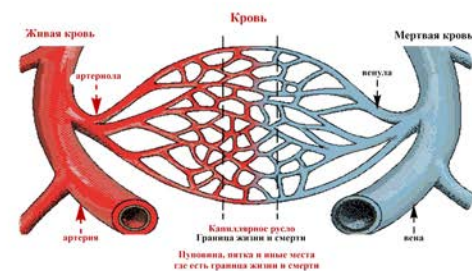

If the court refuses to produce its portions of the endorsement, then technically it is sufficient to present only one copy of the original to apply for a breach of confidence in the case. However, since the guild of private lawyers has descended into almost anarchy with regard to its own rules and customs, to a level of corruption and incompetence unparalleled in the law in the history of civilization, the meaning of such traditions will almost certainly not be respected by the largely ignorant and completely incompetent members of the guild of private lawyers. .

Let it be known to one and all, from the universe to the galaxy, from the galaxy to the Heavens, from the heavens to the earth and on the Earth, beings of higher and lower orders, that this sacred and immutable order is lawfully issued in the interests of good will and honor with carefully considered regulations and rules and with utmost respect.

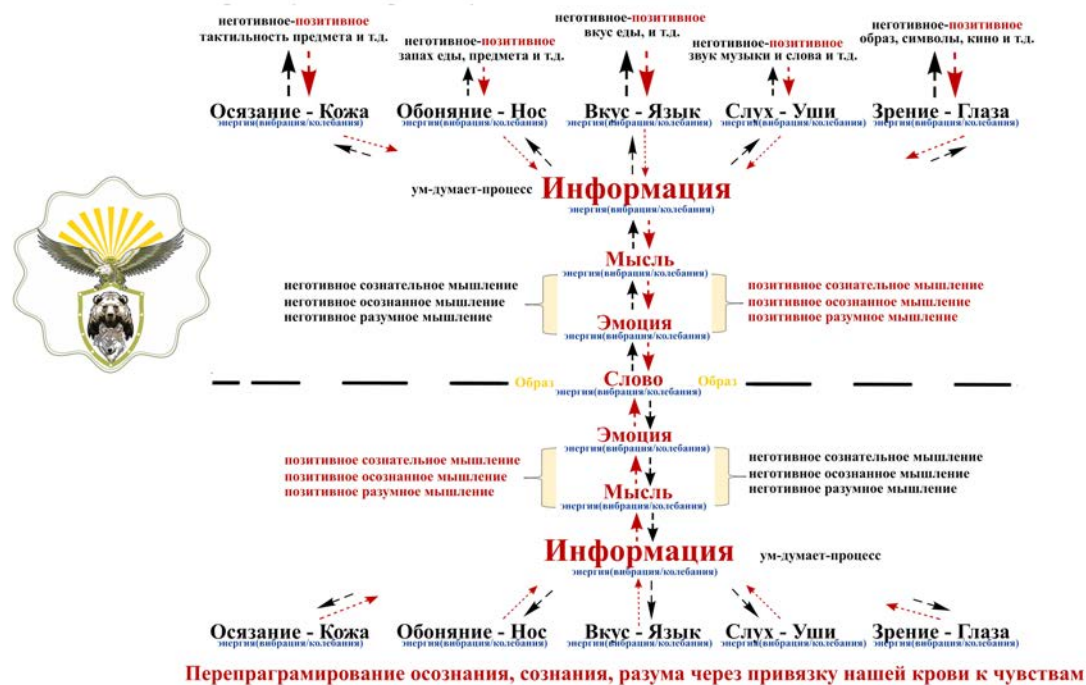

Therefore, if an entity limited to living flesh and blood, in the person of a member of the Church, desecrates this sacred immutable command, it must declare before the entire Universe to the Galaxy, from the Galaxy to Heaven, from Heaven to Earth and on Earth that it denies the very source of authority, through whose position exists, and thereby prove their incompetence and inability to hold any position or make any lawful decision.

The diagram illustrates the human cognitive system as a flow of information. At the top, a stylized sun and a bird represent external stimuli. These lead to five sensory inputs at the bottom: **Осязание - Кожа** (Touch - Skin), **Обоняние - Нос** (Smell - Nose), **Вкус - Язык** (Taste - Tongue), **Слух - Уши** (Hearing - Ears), and **Зрение - Глаза** (Sight - Eyes). Each input is labeled with its function and the organ involved, and includes the text "энергия (вibrация кол.оболочки)" (energy (vibration of the shell)). Arrows from these inputs point upwards to a central vertical column of four stages: **Информация** (Information), **Мысль** (Thought), **Эмоция** (Emotion), and **Слово** (Word). Each stage also includes the text "энергия (вibrация кол.оболочки)". To the right of this central column, a bracket groups the last three stages under the heading **Ум мышление** (Mind thinking). Arrows point from the central column to the right, leading to the word **Образ** (Image). A dashed arrow points from **Образ** back to the sun and bird at the top, completing the cycle.

As it is written, many believe that there will come a time, known by various names such as "Apocalypse", "Revelations", "End of Days", when the world as We know it will come to an end and the beginning of a "New Age" or "Ages" representing, "An End to the Evil", arrogance and willful ignorance that We continue to see so prevalent in this world today.

Apocalypse is the Divine legal retribution against the willful ignorance and arrogance of the entities known as souls, angels and arch-angels, demons and arch-demons, limited to living flesh and blood, known as living men, women, with the name man, also known as Adam and Eve are the first people on earth, and artificial fictitious persons known as legal fictions, corporations and others.

Models of law

- Of all the varieties of law that have ever existed since the beginning of the first civilizations, two main models of the laws of society can be distinguished:

- 1) the model of slavery, in which a few rule and the rest are obligatory or voluntary "slaves".
- 2) model of equality, in which "everyone is equal before the law"

- Contrary to the myths propagated by apologists for ancient slave-holding dynasties, the older of these two basic models of law is equality before the law, not slavery and slave laws. Slavery, whether voluntary or involuntary, involves a complex legal system that includes such concepts as trade and property laws. As a result, the laws of slavery came much later than the laws of equality - primarily due to the famous ancient city of Ur around 2200 BC and the Code of Ur-Nammu. It is the Code of Ur-Nammu that is the first historical example of the principle "all crimes against slaves are commercial" - a vital principle of ancient slave law, later the Uniform Commercial Code of 1933.

- In contrast and in direct opposition to the commercialization of law by Urom and the establishment of property principles necessary for sophisticated slavery, one of the most famous attempts to codify uniform laws under which "all are equally subject to the law" was the Babylonian Codes of Hammurabi around 1986 BC. Although slavery was also an integral part of Babylonian life, slave owners were required to treat their slaves with respect and slaves could earn their freedom. This idea that a slave could earn his freedom was also a feature of several civilizations that emerged after the Babylonians, including the pre-Christian Roman Empire.

- It was Constantine who in 326 put an end to the historical period of slavery, creating the Holy Roman Empire under the new imperial motto INRI, which means ILEX NOVUM ROMANUM IMPERIUM - literally "One Law (is) a New Name (for the) Roman Empire", rejecting Rome and its claims to the right to enslave the world through the motto S•P•Q•R (which in Latin meant SENATUS POPULUS QUO REGNUM or "(The Senate) Through Which Government (occurs)").

- Nevertheless, the enlightenment and legacy of Constantine and his successors such as Justinian could not escape the hands of forgers and their slave owners. Instead of representing the people and leaders who sought to end the practice of treating people as property through enslavement, those who controlled the world of slavery for two millennia damned their souls by presenting them as apologists for the most brutal form of slavery that ever existed. or was intended – "spiritually ordained" slavery.

- All models of law based on forms of slavery, directly or indirectly recognized as "slavery", depend on beliefs based on faith and religion, rather than on facts and evidence. Thus, the most complex systems of slavery are imposed by fear and intimidation based on the absolute rights of slave owners, while the most sophisticated systems of slavery are based on the desire to be a slave and voluntary slavery.

Religiously Supported Slavery

- Of all the models of slavery, the most cruel, the most evil and the most perverse is the concept that slavery is not only permitted, but also supported by the Divine Creator. The original authors of this abomination and terrible lie are the priests and warlocks of the Israelites - most notably the House of Meneshe (Menes-He) in their wicked manifesto of enslavement and worship of Baal Moloch, also known as the Lord of Hosts, also known as Satan, the Devil and Lucifer.

- Religion claims Divine right and/or permission to treat certain members of the human species as less than us through the promotion of racism, blood rights, customs and scriptures. Such faith-based beliefs are "made legitimate" through legal fictions such as property rights, debts, acquiescence (estopol), and other devices. Since such legal systems must by definition be based on "faith" and not on the "fact (logic) of law", such systems periodically begin to collapse and require the unleashing of terror, horror and destruction to restore control and faith-based prejudice - hence the constant need in war and massacres.

- After their abandonment by the Hyksos, during the expulsion and captivity of the cruel Ramesses, Yahud cursed God for not saving them. For two hundred and ten years they served voluntarily their masters, while their children were killed and all forms of disaster and disgrace fell upon them from their ancestors. But when Yahud, also known as the Israelites, were captured and forced into forced labor a second time at the Persian court of Nebuchadnezzar, the leaders vowed that they would never again allow themselves to be slaves, instead of enslaving their enemies and the world - directly violation of God's covenants.

- Such was their hatred of the Divine who had abandoned them and this world that when Baba Rabban formed the Kingdom of Israel in the 4th century, he invented a three-tiered form of slavery in which slaves who accepted the new religion of the Jews were to receive the highest respect and were free for several years, and then the non-Jews, known in ancient times as the Canaanites, and now as the K-Nights and eventually all other people, were not to be considered slaves, or even worthy as animals, but simply things, known as property.

- While the legal concepts of this system are evil enough in themselves - in which the minority rules the majority, some of them are recognized as higher slaves, and the rest are considered only as property and things that are bought and sold as goods in the market - then What made this system extremely evil was the deliberate falsification of the House of Meneshe in its Talmud and the later distortion of the sacred scriptures of Christianity by claiming that Divine sanction was granted for such curses.

- Thanks to the fateful events of massive climate change, plague and their immunity through genetic anomaly, the descendants of the House of Meneshe spread their rule as gods under many names, including Khazars, Khans, Magyars, Umayyads, Genoese and Veneti throughout the East and Eastern Europe. Thus the damned continued to curse the name of the Divine Creator and all living things from the Divine, abandoning all pretense of caring for the world in which they claimed supreme dominion as any kind of trustees. Instead, they decided to continue to behave not as proxies, but as hyenas and scavengers "in their own lands."

Roman cult system of slavery

- As the climate improved and people became immune to endless terror, it became increasingly difficult to treat much of the world like pigs and farm animals. Thus, the descendants of the Twelve "tribes" of the House of Meneshe and the Sarmatian Kingdom of Israel developed their models of slavery to adapt to changing conditions with the introduction of a level of "middle management" to manage the slaves and enforce their "divinely ordained" requirements of slave law.

- Neither Charles Martel nor his sons Pepin, Carloman or Winfred could imagine that after the formation of their General and Apostolic Church, also known as the Holy Catholic Church in 742 in Paris, that they would contribute to the perpetuation of enslavement and unspeakable cruelty towards people of the Earth and the planet through the perversions of the Roman cult and their Venetian/Meneshekh/Khazar Overlords.

- While the Roman cult first seized power through Gregory VII in 1057 with the financial support and assistance of the fabulously wealthy Venetian Khazar Urseolini family, it was not until the 13th century that the Roman cult achieved real power with the formation of a false Holy See divided between Venice and the pagan Luciferian families Rome. The memory of the Franks and their hatred of slavery and the laws of inequality were replaced by even more curses from the Meneshe, making Charlemagne - as they had done with earlier enemies - one of the great patrons of slavery through the Salic law under which no one could escape slavery.

- The basis of the new mid-level slavery laws was the identification of real property with lesser forms of property. According to the legal system of the Roman cult, only flesh and land were considered to have real value, while all other forms of property were considered "derived" from the primary forms of real property. Therefore, the highest slaves, such as modern Roman slaves holding the positions of queens, presidents,

governors, are considered flesh, while many of their "subjects" are considered simply chattel, tied to the land. Likewise, when a man and woman named "Man (Adam and Eve)" are legally deprived of ownership of their flesh, then they are technically in poverty - having no real property - and are legally a "debt slave."

- To ensure that no one would challenge the rights of the descendants of Meneshech and their absolute control over and claims to all "property", the Roman Cult was tasked with introducing a new form of Trust Law. The first express trust formed for this deception and theft was the Unam Sanctam, issued by Pope Boniface VIII of the Roman Cult in 1302 and falsely declaring that the Roman Cult had the right to assume the role of guardians in the form of the Court of Trustees known as the Curia for the first time formed for this purpose, derived from the Latin word cura/ae, meaning guardian/guardianship.

- Thus, all the "real property" of the world was expressed in this trust, administered by the Curia as a court of trustees, the hidden owners being not the Divine, but the blood descendants of the Meneshe for all eternity. To hide the operation of the trust, history has since created the terribly absurd claims that Curia is somehow related to the Latin word Senate and many dozens of false Papal Bulls have been created to hide the Trust Deed claiming ownership of the entire world in full view of all mankind .

- To ensure the collusion and cooperation of those who had less arrogance and hatred of the Divine than Meneshe, the offer of joining as Caananites or K-Nights (Knights) was offered along with the higher servile role of the Sovereign to a handful of trustworthy families at first turn to the loyal Scythians, who converted to Sarmatism and became known as the Black Khazars, and later as the Ashkenazis. The Curia, as trustees, then divided the world into areas to sell slavery contracts, first to Spain and Portugal and then to England, while those who enforced slavery and profited from slavery remained as descendants.

It changed.

- Notwithstanding the age of the Unam Sanctam trust deed, by the very laws of the trust which they themselves formed, both the Roman cult and their masters were guilty of fraud and dishonor from the very beginning of the formation of the curia and the stated transfer of property into this trust:

1) First, the leader of the Roman cult, through the deed of trust of the Unam Sanctam, claims to represent an apostolic dynasty of spiritual leaders dating back to the original founders of Christianity, which is openly and easily debunked by anyone who rejects the office of Roman slavery and their corrupt history. The Roman cult, also known as the Vatican and the Holy See, were neither the founders of the Catholic Church nor Imperial Christianity. Instead, they are and remain devoted Satanists, obediently serving their masters, who are the descendants of Meneshe - they themselves are not the true blood leaders of Yahud, now known under the false term "Jews." Therefore, in the knowing and open representation of their declared powers, the transfer of the property claimed by the Unam Sanctam must be wholly illegal, void, illegal, since the Curia has neither legal trustees nor any valid trust.

2) Secondly, the Roman cult leader, through the Unam Sanctam trust deed, refers to the distorted and completely evil writings of the Meneshe and their Talmud, using "faith" and these false descriptions to claim the Divine Right to transfer all "real property" into the stated trust. Since such writings cannot easily be proven to be neither genuine nor original, and that both the Roman Cult and their masters have demonstrated a long history of forged and fraudulent documents, any "legal rights" invalidate the false deed and any such transfer rights both illegal and invalid.

3) Thirdly, and most importantly, the Roman cult and its slave owners do not admit in their fraudulent alleged trust deed of 1302 that from the very beginning of time there existed and never ceased to be a contract between flesh and blood, man and woman with the Divine The Creator and Creator and the Holy Spirit, God the creator and creator, has endowed all unique creations of men and women, and Divine immortal Souls, to be guardians, trustees and custodians of their own flesh and blood, Soul and planet earth, and that all real estate has already been legally transferred to trust management to every man and woman born on planet earth. Therefore, it denies any criminal and dishonorable act committed since then, such as the destruction of true sacred texts and the removal from the history of their existence, as a result of which makes the Unam Sanctam void, having no legal force

- While these facts cannot be disputed, regardless of the force exerted by either the Roman Cult or its masters to the contrary, there is historical evidence to suggest that members of the lower families of Meneshech and the Roman Cult have long known that their claimed role as guardians is unsustainable - hence the introduction in the 16th century of a new form of slavery, voluntary servitude, expressed in the denial of both the Roman cult and the Meneshes in the form of "Common Law Laws".

The system of general slaveholding law.

-Almost all those who testify to the so-called "superiority" of the common law believe that its birth occurred not as a result of the enslavement of the Roman cult and the Venetian slave owners, but the rejection of "popery" and moneylenders through the "Protestant" movement. However,

although these sentiments reflect the noble and idealized views of many great writers, jurists and advocates, they do not reflect the facts of their formation, nor their purpose, nor the deliberate introduction from the very beginning of such a “wrong line of thought.”

- Hatred of the atrocities of Rome and the ancient slave owners on the part of many who follow Protestant Christian values has served as an excellent cover for being “blind” over the centuries to the actual facts of its formation. Nothing more than the beginning of the "Protestant" movement and the emergence of modern systems of trade under common law, admiralty law under the reign of Henry VIII and his successors. For what is never openly discussed is how the Kingdom of England suddenly became phenomenally rich almost overnight, along with a whole new set of legal fictions based on the concept that men and women bound themselves as slaves, denying them the right to own property, conduct trade for the purpose of creating a debt and accepting them as collateral for such debt.

- Indeed, the very meaning of the word Common, first formed in the 14th century from the Latin com/comitto = “to entrust, oblige” and munis = “burden, public debt, service or obligation” literally means “to entrust voluntary service/obligation” " To suck the flesh from the mind and the spirit from the flesh and mind, the Venetian slave owners developed an inventive two-faced world in which all real estate was recognized as a "Trust" while the capital and energy of voluntary slaves were controlled not as serfs, but as "employees" of companies, but all major the companies were controlled by the Roman cult in the interests of slave owners.

- Meanwhile, when a child is born over the past few hundred years, parents are tricked into giving the child's flesh and soul to a Roman cult under the guise of a signed record of a Living Birth. In this case, the record of the birth of a living child is issued as a bond in order to provide an additional guarantee of compulsory slavery, while a birth certificate is issued to the new corporate entity, and the new child is instilled with the belief that the birth certificate and name belong to him, instead of ownership in a larger corporation.

- The common law system of voluntary slavery has become extremely successful, especially when supported by the concept of Demo (take/remove) Cratis (a bundle/bundle of sticks is an ancient symbol of rights and fascism), also known as the system of "democracy" or voluntary fascism. However, a negative side effect for both the Roman cult and their slave owners is the continued accumulation of common law rights to slaves. For this reason, during the last one hundred and fifty years, a number of important measures have been actively pursued to return slaves to more manageable systems of less rigid rights.

- The principles of equality in the 19th century were abolished under the common law system of voluntary servitude, with the result that slavery laws no longer provided justice or adequate remedies. Funeral laws, called "dead hand" laws, were also brought back so that real estate such as land could not be legally claimed - even in new territories and people could not legally reclaim their flesh once taken them as slaves. Meanwhile, to ensure that no vassal nation, which was nothing more than a slave plantation, could break away from the control of the rulers, the Roman cult constantly invented its own canonical laws.

- Nevertheless, despite all these innovations aimed at distorting and humiliating the general laws of voluntary slavery, the false leaders of Menehech considered them insufficient and unacceptable, since they were Scythian tribes who converted to Sarmatism and then became known as Ashkenazim . Hence the events that led to the practical abolition of common law in 1933 and the introduction of purely commercial law, as well as a return to the ancient slavery laws of the Meneshech Talmud and ancient texts such as the Code of Ur-Nammu.

The True Origin of the Scythians, Also Known as Ashkenazis

-Every narrative that has stood the test of time has at least some grains of truth sown within it. Scythians is an ancient Greek term applied to the numerous nomadic tribes originating from the Cossack Mountains and around the Caspian Sea in Central Asia and in their time, by the 6th century BC. BC, which dominated an area stretching more than 2,000 miles from Ukraine to Mongolia. They never worshiped Baal Moloch, also known as Satan, Hosts, the Devil and Lucifer - so they were never Sarmatians until the 7th century AD. e. The Scythians were also never descendants of the Israelites or followers of the traditions of Kings Yahud and the Messiah - only to start pretending to follow the Talmud after their conversion to the worship of dark forces and evil in the 7th century.

-The Sarmatian priestly class known as the House of Meneshe were well acquainted with the Scythian leaders, and when their kingdom was defeated by the Byzantines, they sought refuge in the lands of the Scythians. With the advent of the Great Plague, which killed every second inhabitant of the known world, the Meneshe became the great "White Khazars" and gods of the Scythian tribes, and the Scythian leaders were reduced to less related "knights" known as the "Black Khazars".

-It was this subordinate role that many Scythian tribes continued to honor, including their most famous hero, Genghis Khan, who conquered much of the known world but was never allowed into Jerusalem. When the Khazar empires collapsed, some of them converted to Islam and others moved West and North into Russia, creating the great empire of Sarmatia, the Scythians followed them as loyal slaves of their "White Khazar" overlords.

-In the 12th century, the term Ashkenazi first appeared to refer to these recent converts to Sarmatism and demon worship who were never true descendants of Meneshech and were never true Israelites. This word comes from three Hebrew words ash meaning ashes, fire (in this case

spiritual fire), ke meaning “like A”, and nazi meaning prince/exalted (initiated) – hence the Ashkenazi meaning literally “spiritual fire/Believer, like a true devotee.” Thus this name is proof that the Scythian descendants even in the twelfth century knew that they were less than their overlords, the blood relatives of Meneshe.

-However, by the 16th century, the descendants of the Scythians, now known as Ashkenazis or simply the slang term for "Nazis", began to show their disapproval and rebel against their former masters. By the nineteenth century, Ashkenazi merchants, bankers, and merchants openly rebelled against their traditional overlords, who were themselves never true Israelites. Then, in the twentieth century, the Ashkenazis devised a cunning and wicked plan to sacrifice the ignorant and uninformed descendants of the Meneshe and bring about the end of the Talmudic Covenant in exchange for the creation of their own New Testament in the form of the United Nations, the creation of the State of Israel, which they would control and global commercial banking system.

-Thus occurred the events known as the Holocaust during World War II, allowing the Scythians/Ashkenazis to commit their heresy against the faith they supposedly follow. But through the deliberate sacrifice of millions in fire, the Scythian/Ashkenazi moneylenders concocted an even more terrible scheme - they stole the names, lineages and identities of hundreds of thousands of true descendants of the Meneshe and "White Khazars", changing the names on the lists so that those burned alive were real Less, and those who traveled on false passports and papers prepared by the Vatican and its agents were Scythian/Ashkenazi deceivers. Thus, the greatest identity theft in history—aided and abetted by the Vatican—occurred as a result of yet another historic violation of the Covenant of the Talmud. Since then, all major world events have largely revolved around these Scythian/Ashkenazi descendants and their complete incompetence as trustees for those who themselves claim control of the world.

-It's just that these people do not fear divine retribution from either the Divine Creator and Creator of all things, or from Satan/Moloch/Lucifer for their historical act of heresy against the Talmud, because they do not truly believe in God or the dark force. Instead, they believe that all these things are the creation of the collective imagination of people over the centuries - a tool that can be manipulated, that can be used for their own benefit.

-Despite their terrible crimes against the man and woman named "Man (Adam and Eve)", they will find ways to delay, try to negotiate, dodge because they truly believe themselves to be smarter than the rest of the world, while the rest of the world remains chained to faith, belief and general ideas of decency.

Modern system of commercial slavery

- While the common law provided a strong foundation for voluntary slavery, it also created the conditions for many of those in power, in the sense that slave rights continued to accumulate as the common law developed. The decision was made to suspend and abolish common law and return to the archaic slavery laws of the House of Meneshech and the Khazars/Venetians.

- In 1933, an apparatus was created by which all but a few in the world were returned to nothing more than movable property to be bought and sold. Sea liens have been placed on newborn babies since 1933, separating their soul from their flesh and damning them to slavery.

- In 1983, to ensure that judges on slave plantations such as the United States, Canada and Europe stopped using common law principles, the Roman Cult issued their most draconian and terrible version of Canon Law, in which courts were considered oratories, judges - ordinary (priests) and their chambers are like chapels. Now, with full ecclesiastical powers, the judges were continuously taught to adhere to the false Noahide Laws, according to which the false leaders of the Meneshe were the Ashkenazis, the descendants of the Black Khazars, themselves the descendants of the Scythians, who were never true Israelites, but were heretics of the worst kind.

- This is why the courts no longer deal with any precedents or traditions within the framework of the general (voluntary) slave law, since most people do not even have the right to be considered slaves.

Truth, the beginning and end of time.

-You were or remain a slave, just as your parents, your grandfathers and great-grandfathers were slaves. You may be lucky enough to live on a nice plantation with other slaves, run by slave overseers such as police, judges, doctors and politicians, where there are few instances of cruelty. Or you may witness life on a communal plantation that is part of a government slave plantation and a national slave plantation, where there is more crime, more suffering and more death. The fact that you are a slave is beyond doubt. The only question is whether you will allow your children and their children to also grow up as slaves.

- You are a slave because you live under the laws of slavery, also called commercial law and the Uniform Commercial Code (UCC), first introduced in 1933 and based on the ancient principles of Sumerian slave law, enshrined in the Code of Ur-Nammu of 1900 BC . e., that "all crimes against slaves are commercial." Under the UCC slavery laws, applicable to all nations as corporations incorporated in the State of Delaware of the United States, corporations do not own any real property, only the debts and energies of slaves, and you are considered an

employee of the corporation and its guarantor, as evidenced by a certified copy of your birth certificate, which you have but can never belong to you.

- Therefore, under the UCC slave laws that apply on most slave plantations in the world, you can never own a house, you can never own a car, a boat or any other object, but only use it. In fact, you do not even own your own body, which is said to have been legally donated by your parents at your birth in the tradition of old slave contracts in which a child slave would dip his feet or hands in ink, or a drop of blood would be spilled on a commercial document transaction, known to us as a birth record.

- You may not realize that you are a slave under the slave laws of the Uniform Commercial Codes (UCC), but you may still mistakenly believe that you are a slave with "greater rights" that were previously granted under the "common law" while it was not largely canceled back in 1933 without giving you proper notice. The word "common" comes from the 14th century Latin communis, meaning "to entrust/entrust/to undertake a burden/public duty/service or obligation." This word was created from the combination of two ancient Pre-Vatican Latin words com/comitto = "to reduce, entrust" and munis = "burden/public duty/service or obligation." In other words, the real meaning of the common, as first formed as a result of the creation of the Roman trust in the planet, is the concept of "voluntary slavery" or simply "voluntary enslavement".

- The common law is nothing more than the laws of "voluntary slavery" and the laws of "voluntary slavery" to the Roman cult and Venetian slave owners. The slave master's job is to convince you that you are not slaves, that the common law still exists and has not been largely abolished and replaced by commercial law, to confuse you, to give you false hope. In turn, they are rewarded as loyal slaves with larger houses and greater privileges than other slaves.

- The reason why slave overseers such as judges, politicians, bankers, actors and media personalities are forced to lie and deny that we are all slaves is because the slave system of voluntary servitude or "common law" was not the first global slave system, but simply its evolution. Before the advent of the common law, we were all considered mere animals or things under the canon law of the Roman cult, also known as the law of the throne or the law of the admiralty.

- By Admiralty law you are either a slave of a ship of state or simply cargo for legal custody. Thus, in 1302, through the Unam Sanctam, the Roman cult illegally claimed, through a trust, ownership of the entire planet and all living "things" either as slaves or less than slaves with things administered through the company court. This court, declared the Supreme Court of all courts on the planet, was initially abolished in the 16th century, only to be brought back in 1908 under Pope Pius X as a purely spiritual ecclesiastical court of 12 "apostolic prothonotary" spirits, meaning the Twelve Apostles. From then on, this new purely spiritual court remained in constant "process", with local courts using these powers to govern divine immortal spirits, expressed in embodiment in vessels of flesh, as mere dead things.

- However, this is not the only form of slaveholding law that is still in effect. Instead, the oldest, most evil are based on the false history of the slave laws of the Meneshe, also known as the Rabbi through the wicked document of hatred first formed in 333, known as the Talmud of the Meneshe - the false Israelites. Thanks to the Talmud of the false Israelites, the entire planet is enslaved by the servants of the "chosen people" known as the Qananites or K-Nights, the Knights, also known as the Scythians, and then the rest - as Goy/Gyu and GOI-namely, meaning cattle, dead lifeless corpses and all this combined.

- The system of global slavery and treating the world as one big slave plantation has been designed in such a way that there is no way out - as evidenced by the courts of the priests of Bhaal, known as the judges of most legal systems in the world.

- Even the most educated men and women can remain fooled into believing that in self-representation they can claim their "common law rights" as a remedy, only to find that the judge is illegally dismissing any claims. Since the first law of the courts is the Uniform Commercial Slavery Code, enacted in 1933, the defendant is an officer of the corporation and therefore automatically assumes liability for any damages. If they can't pay, they could be sent to prison.

- If such a trickster as a judge is challenged, they will be allowed to escape to their chambers and call upon an even greater force to return and magically create a new court without informing the defendant that they have now entered the Admiralty Court or the laws of the throne according to canon law of Roman cult, published in 1983. Now the judge can impose severe penalties on such an irresponsible defendant, including contempt of court and prison terms, and the defendant has no rights unless he knows the canon law regarding legal persons and establishes a status above what is called a "thing."

- Unfortunately, few people know the true meaning of the word "thing" as a court session or meeting, a case brought to court, a trial, an accusation brought; or a claim or case pending in court. This meaning is then used to devastating effect through Pius X's heretical concept of 1908 to claim that the dead apostles sit in permanent and open session as the "twelve prothonotaries" of the Sacred Company - as the highest Supreme Court on the planet. Therefore, when a man or woman receives a blue or yellow notice from the court, issued through this unholy knowledge of canon law, by the time they come to court, they automatically become a thing. When a man or woman tries to defend themselves by trying to speak before a judge, they automatically "agree" to be a thing. Thus, a judge aware of such deception can silence any man or woman by "legally" threatening contempt of court if the "thing" does not stop making noise.

- Indeed, it is the canon law of the Roman cult of 1983 that establishes that all courts are oratories, with judges having ecclesiastical powers as "ordinaries" and their chambers as chapels. Thus, Bar Associations around the world are helping judges become aware of their new powers to confront those men and women who continue to recognize their status as slaves, but demonstrate how to remain "in honor" with such a perverted law and ensure that such "terrorists" » were sent to prison for long periods as a warning to others.
- If the judge is so inclined to ensure that the educated defendant is lawfully sent to prison or worse, he or she can run away to his or her chambers for the third and final time and call upon his or her most powerful position as the rabbi of the Talmudic court in accordance with the Talmudic laws of the false Israelites from home twelve tribes of Meneshe. Now, even a judge in a country that opposes the death penalty can decide to impose a "legal" sentence on any Goy/Gyu or Goyim who dares to harm an Israeli—which usually means death.
- However, while judges in the United States and other countries have begun to train themselves to reintroduce Talmudic law, it is in the hands of the false Meneshe, also known as the Scythians, also known as the black Khazars, and now the Ashkenazis.
- The education that was given to judges and bar association lawyers by the Ashkenazi rabbi is false, defective and has no spiritual or legal basis. It was the Ashkenazi rabbis and their families of bankers, industrialists and slave traders who were responsible for the violation of the sacred Covenant of the Talmud in the illegal sacrifice of millions of people possessing the blood of the Meneshe by fire during World War II, the illegal creation of the State of Israel and the ultimate violation of the Covenant in the creation of the New Covenant of the United Nations, which they claim to control.
- Indeed, these arrogant, ignorant and blind rabbis and families openly proclaim themselves "Jews" - a word mysteriously coined in the 16th century by the real Rabbi Meneshe. Since the true definition of "Jew" is Goy/Gyu and goyim, then it is the false Meneshe, being Scythians, also known as Ashkenazis, who are the self-proclaimed heretics, and the rest of us who are the true Israelites.
- For one thousand two hundred and sixty years we have lived under the yoke of usurpers and swindlers. One thousand two hundred and sixty years have passed since Carloman, son of Charles Martel, invaded Italy with his Frankish brothers and proclaimed himself the vicar of Christ. This was foretold one thousand two hundred and sixty years before the end of the Roman cult and the terrible world of hell created by the mad Khazarian/Menashe.
- Indeed, it is written on the Divine Cornerstone that every man, woman, and spirit(s) of the highest order that has ever lived will inherit their right to the Kingdom of Heaven. It is also written that every Divine Immortal Spirit expressed in trust in living flesh is born, firstly, by Divine trust through the Divine Creator and Creator and, secondly, into the office of trustee of such Deity.
- Therefore, all the claims of the Roman cult and its Venetian masters are an abomination and a lie against the law of the Divine and against all forms of logic and reason. No man or woman is a slave. Everyone is equal before the law. This is the golden rule.
- Since all men and women are equal, any claim to title by inheritance based on any property formed under the rules of the Roman cult has no legal basis. Such claims, rights and customs automatically become invalid, since fraud nullifies all contracts, and therefore the right of property.
- No individual, body or organization can claim dominion over others, nor to tribute, nor to taxes based on slavery, "Cestui Que Vie" trusts (appropriating life) or other artificial devices based on the unreasonable and false claims of the Roman cult and their Venetian/Khazar overlords.
- The most obvious example of fraud is the use of advanced legal fictions and concepts foreign to the ancient world, even during the reign of the Byzantines, such as the concept of person, thing, property, title, estate and Constitution, given as a few examples.
- The legal fiction of turning men and women into actors by calling them "persons" is a highly intellectual legal concept that only became possible with the development of advanced trust law in Europe from the 15th century, when the Roman cult continued to exploit its claims to control over all property being in fact just a right of use.
- Similarly, the concept of collecting property artificially, where property is determined by statute or, "by decree, judgment", which is the main construction in the "Cestui Que Vie Trusts" (Life Appropriating Trusts), did not appear as a legal concept until 1540 of the year. So how could these advanced legal concepts, so important for the Roman cult claiming power over the world, find their way into the writings of the 6th century Byzantine emperor responsible for the destruction of the Kingdom of Israel, Menes-He, is this not an obvious fraud.
- Therefore, prompted by the Divine Creator and Creator, we are obliged to expose and protest the highest ecclesiastical dishonor, and restore our Divine rights, inflicted on all men and women, living and dead, by the usurpers of the Catholic faith, who falsely call themselves the Holy See, also known as the Roman- The Catholic Church, the Vatican and the Roman cult.
- These usurpers and parasites are neither the true successors of the founders of the Catholic Church, nor the founders of the first Christian Church, nor the Apostles and the founder of the Nazarenes known as Jesus Christ. Instead, these usurpers represent everything that the founders of these three religions fought against until the parasite found a way to invade the host's body.
- Not content with this, the parasite infected all civilizations and all peoples, creating discord and disease to weaken the body and mind of each people. He started wars in the name of God. He killed in the name of love. He continues to sacrifice children in the name of a savior who he claims serves everyone to save souls.

- Therefore, when the usurpers of the Roman cult say that the church does not have two heads, like a monster, this is a lie. Indeed, the false Church of the Holy See is a hydra serving many masters, none of whom are the Divine Creator and Creator, nor the people who believe in it. She is a harlot, sitting on a stolen throne and eating her young. She is the fog that blinds us, the scent that seduces us, and the spell that binds us to madness.

- Such is the nature of the corrupted and enchanted mind that it cannot think logically, intelligently and competently about things, especially about the law. Instead, he accepts contradictions as fact, fraudulent acts as contracts still in good faith, and claims without rights as incontrovertible. However, since we are free from the curses and spells cast upon us by the vermin, we can consider their claims competently and with knowledge of the law by which the Divine Creator and Creator primarily judges such claims as valid or false.

—Thus, while the church or any other body may claim spiritual authority and authority over all other temporal authorities, it cannot support such claims without the strong arguments of law, and therefore of Divine law, natural law, and positive law.

- Such agreement and recognition, even if such words are merely a forged copy of an older act, is important because it demonstrates that the Roman cult is dependent in part on such logic and reasoning to support its claims as a curia and therefore the stated trustees of all the property of the planet and the Universe.

“Despite the truth, despite their own laws, they will continue to refuse to yield, for they claim control over a system designed so that no one can escape, in which no one is free and the whole world remains enslaved.

- The truth known to those who claim power, and to those who faithfully serve such them, is that the world has been enslaved for many hundreds of years, without enlightenment until now.

-If the world can be saved from more of their harm, then may the models of justice, freedom, equality, empathy and compassion, love, prosperity spread throughout the world and truly usher in the age promised to all.

We proclaim, set out and announce and command:

- I. That the Vatican City, also known by its official name, the Vatican State or "Status Civitatis Vaticanae", is an organization claiming sovereignty under several international treaties. Located in Rome, Italy, with total government assets believed to be between US\$5 billion and US\$10 billion (as of 2006).
- II. That the Holy See, also known as the Roman Catholic Church and the Catholic Church, has its principal place of business in the Vatican City, Rome, Italy, but also has subsidiary branches in every country and in virtually every state of the world with a total of visible assets believed to be about 400 billion US dollars and hidden assets of 3000 to 6000 billion US dollars (as of 2006) as the Single largest and richest organization in the world.
- III. That the Catholic Church was recognized for over 1600 years until the early 20th century as the single largest and richest organization in human history, dominating virtually every class of property, including (but not limited to) property, gold, silver, diamonds, stocks and priceless artifacts.
- IV. That the Jesuits, also known as the Society of Jesus or "Societas Iesu", have their principal place of business at the Jesuit headquarters in Vatican City, Rome, with total visible assets of approximately \$3 billion and hidden assets of between \$2,000 and \$5,000 billion (at 2006) as the second richest organization in the world after the Holy See.
- V. That the Jesuits have, since 1814, effectively controlled the Asset Management of the Roman Catholic Church, as well as its own asset base and its restoration as an order. The Jesuits engage in commercial transactions through a highly complex system of trusts, shell companies and commercial banks that use confidentiality laws to hide the true wealth of the Roman Catholic Church and its subsidiaries.
- VI. That the Vatican Bank, also known by its official name "Istituto per le Opere di Religione" or Institute of Religious Works ("IOR"), has its principal place of business in Vatican City, Rome, Italy, but conducts business and financial transactions throughout the world from named after the Roman Catholic Church, including Russia and with total global assets believed to be between US\$3 and US\$7 billion (as of 2006).
- VII. That the Holy See, also known as the Roman Catholic Church and the Catholic Church, their Orders and Societies, as well as their successors, successors, assigns, are involved in such rituals, rites and worship, namely:

Attis - day of blood atonement (celebration of Attis, the day of blood when new ordains to the Cybele priesthood showed their dedication by cutting off their genitals in a bloody frenzy and celebration.)

Blood sacrifice to the Mother Goddess Cybele (rituals of sacrificing a man or woman for his blood, including rituals involving self-harm for blood loss, were a major area of worship for the Mother Goddess).

Drowning Sacrifices to the Gods (the sacrifice of people by throwing them from great heights, sometimes in bags or by ritual drowning, has its origins in a distinct deity from the mother goddess and demons. Such sacrificial methods were universally intended for the worship of Motu,

the God of Death.)

Burning people alive to Moloch (ritual of burning people as a human sacrifice)

Sacred dismemberment of people in honor of Osiris (slaughter and rebirth at the same time:

- Slaughter and sacred cannibalism, ritual slaughter and dismemberment, including the consumption of certain flesh and organs representing sources of power, including the liver and heart. This variant of treating organs as special sources of power became popular under Hyksos rule.
- Slaughter and sacred cannibalism by mixing blood into bread - sacred Eucharist/Communion (thanksgiving, gratitude, gratitude)
- The sacred slaughter of innocents, and then the mixing of their blood with unleavened bread or oats, which is then consumed as the sacred Eucharist.)

Sacred cannibalism (there are two types of cannibalism in relation to the fertility goddesses of the ancient world - literal cannibalism, associated with frenzied death associated with Osiris, in which the flesh and blood of a human victim is eaten by the pioneers in a frenzied state called the meaning of "omophagy". The other was "more refined " ritual of the Holy Eucharist, in which the blood of the victim was mixed with unleavened bread to form the Eucharist.)

Cultural genocide (Cultural genocide is the deliberate destruction of the cultural heritage of a people, nation or civilization for political, military, religious, ideological, ethnic or racial reasons.)

Cultural Parasitism (Cultural parasitism is the deliberate corruption, control, and sabotage of a culture by adopting a false identity as a trusted cultural leader in order to assume positions of influence to effect ultimate change.)

Ritual mass sacrifice (Ritual mass sacrifice is the deliberate and systematic killing of more than 100 people based on religious beliefs and ritual processes.)

Political mass murder (Political mass murder is the deliberate and systematic killing of more than 100 people based on their ethnicity, race, religion, culture and/or nationality.)

Cultural sabotage (Cultural sabotage is the deliberate destruction of culture and/or society by weakening basic functions, leading to extreme consequences such as the strengthening of fascist/dictator regimes and/or civil war/civil unrest.)

Supreme Godly Duality (Supreme Godly Duality is the act of supreme religious/spiritual figures openly preaching moral restraint, virtue and peace while secretly advocating war, terror, satanic worship, murder and social corruption.)

Sexual sacrifice ritual (sexual human sacrifice ritual is the killing of a person during some kind of ceremonial ritual that involves sexual acts before, during, or after the killing.)

Slave trade (enslavement is the deliberate deprivation of freedom and/or rights of persons, often involving forced detention, through the use of violence, threat of violence, intimidation, financial threats or inducements and/or other psychological methods in order to effectively control the actions of those persons. Slave trade - this is the enslavement, transportation, purchase and sale of such persons.)

Pedophilia (pedophilia is when a person of adult age engages in intimate sexual relations with a person under the age of 14, regardless of whether such relations involve penetration, but overt acts of a sexually provocative nature. It does not matter whether the statement is that such contact is "voluntary" when it comes to such actions, this does not apply to two adults.)

Murder (Homicide causes the death of another person without lawful justification with the intent to kill or with the intent to cause grievous bodily harm.)

Sexual assault (Sexual assault is when a victim is forced to engage in sexual activity, particularly sexual penetration, against his or her conscious consent through the use of physical force, threat of injury, or other coercion.)

Economic rationalism (economic rationalism is the prevailing philosophy of most global corporations and governments, which holds that business activities and decisions, while they affect society, are bound by the laws of economic self-interest; therefore rational (accounting) values rather than moral values should take precedence)

1. The founders of the above organizations and their successors, successors, heirs, were Paul of Tarsus, Joseph Ben Matthew and the Jewish Sadducee high priests from the house of Ananus, and not Jesus and the apostles;

- The purpose of creating a joint Foundation has always been the sole purpose of an organized criminal enterprise, including, but not limited to: subversion, fraud, murder, extortion, kidnapping, terrorism and undermining public morals by:

-(a) Render the Gnostic teachings of Jesus and the Nazarenes ineffective by creating a counter-religion claiming to be the one true faith that focuses on simplistic symbolism, conformism and hatred of knowledge.

-(b) Perpetuate the power and authenticity of the canonical Jewish sacred texts created by Jeremiah, Baruch, Nehemiah, and Ezra by including these texts as a key part of the religion's liturgy.

-Destroy all texts, references to Gnosticism, and any evidence of history that threatens the implementation of points (a) or (b).

- Where it is impossible to destroy, evidence that contradicts the statements should be rewritten.
- Usurp all members of the family and disciples of Jesus and, if possible, put them to death.
- Use the patronage of charity, virtue, religion, morality and holiness to conceal ongoing criminal activities.
- Structure the church so that the house of Anan, the former Jewish high priests and their descendants, along with other selected Jewish Sadducee families, maintain effective control of the church.

2. List of crimes that affected, caused moral and material damage to the Estate and the Vorobyov Family, the above organizations and their successors, legal successors, heirs:

- **In Crimes Against Humanity** (1814-1815 AD): The Congress of Vienna, at which members of the remaining powers of Europe were to decide on the redrawing of borders and conditions after Napoleon's imprisonment, was sponsored, planned and influenced by the Jesuits the Jesuits, offering significant financial incentives including: rewarding Russia for supporting the Jesuits, the return of the papal states promised to the Pope, punishment of Spain, and a general suppression of liberalism and human rights reform in favor of the restoration of feudal-monarchical and autocratic rule.
- **In political assassinations** (1825 AD): The Jesuit Superior General Luigi Fortis ordered the assassination of Tsar Alexander I of Russia in 1825, for the expulsion of the Jesuit order in 1820 and the confiscation of their property in Russia.
- **In the creation of an illegal enterprise for the purpose of committing a crime** (1907-1990 AD): The Jesuit Superior General Franz Xaver Wernitz organized the financing and creation of the Communist Party and regime in Russia. That the Jesuit priest Joseph Stalin was recruited to represent the interests of the Catholic Church. That the original goal of the Communist Party was to suppress democratic ideals, create a centralized society, eliminate the Russian Orthodox Church and noble families, and promote the Catholic Church.
- **In creating the conditions for violence and confrontation** (1904-1914 AD): The Catholic Church, through its agents and the Jesuits, provided funds through attractive loans through its banks in Russia, Germany and France for the production of weapons by companies that it also nominally controlled. This aggressive arms build-up forced the UK to also invest in developing its own weapons, thereby creating a European arms race. At the same time, the Jesuits encouraged, supported and directed the development of clear strategic plans for each major country, including the German Schlieffen Plan (1905), which called for a simultaneous attack on France and Russia, the French Plan XV (1903), which called for a purely defensive approach to the German border, and France, and the Russian Plan XIX, which involves the fight against Austria-Hungary and Germany.

Bank for International Settlements (BIS)

The private banking cartel, based in Switzerland, was first formed in 1933, between the Vatican Bank, by the private US Federal Reserve Banks, the Bank of England and the Nazi banks to redirect huge amounts of gold, as the standard underwriting asset of world currencies, back to the central banks, subject to policy conditions and increased debt obligations.

It remains the most secretive division of the debt-based Industrial Banking Cartel and has constrained and controlled global finance for over eighty years. The influence of the BIS has declined steadily over the past two decades as more central banks have rejected the BIS's continued commitment to restraining real wage growth and wealth growth in non-industrialized countries. However, the influence of the BIS returned to predominance after the deliberate collapse of debt-based monetary systems, which forced many central banks to reenter agreements with the BIS.

International Monetary Fund (IMF)

The financial institution that forms the basis of the IMF was originally conceived in July 1944 by the United States and 43 allies at the Mount Washington Hotel, Bretton Woods, New Hampshire - hence the name "Bretton Woods Agreement". The IMF was officially created in December 1945, and only 29 countries initially signed its Articles of Agreement. Its main innovations were the adoption of a common exchange rate mechanism based on a basket of currencies dominated by the US dollar, and a financing mechanism based on the underwriting of debt rather than the underwriting of historical assets such as gold or other commodities. After several spectacular failures and system failures, the IMF introduced the SDR (Special Drawing Rights) as a de facto unit of currency, backed by a modest supply of gold.

Federal Reserve System (US Federal Reserve Banks)

An inferior cartel of private banks. Formed in 1913 when the US government transferred control of its currency to this private banking group, nominally owned by US banks but ultimately owned by private banking interests, mainly in Europe, especially Rome and Zurich. The Federal

Reserve Banks are a key element of the debt-based Industrial Banking Cartel, but are unique in that they are so open to the successful redistribution of Americans' public wealth to private banking families and church groups. The Fed is also unique in that it has never achieved its core social goals, and is both the primary cause of the unprecedented level of US debt and the institution that manages the debt. The Fed remains untouchable

Global financial system

The set of partly public and regulated, unregulated and largely hidden networks of debt and asset control that constituted the historical "system" of financial management up until 2009. Deliberately and erroneously described as a "system", it is best described as consisting of five separate and often competing/conflicting networks:

- 1) Industrialized debt-based banking cartel, represented by the IMF, US Federal Reserves, Bank of International Settlements and the World Bank;
- 2) Wholesale money and bond markets, dominated by institutions such as the London Interbank Offered Rate (LIBOR);
- 3) Unregulated hedging and speculative debt markets;
- 4) Private ownership of huge amounts of gold, silver and assets
- 5) Central and regional banks of the world. On the contrary, the Supreme Financial System eliminates the ability of private cartels to manipulate scarcity of capital, demonstrating a seamlessly integrated and completely public financial model.

Industrialized banking cartel based on borrowing

A term used to describe the various bodies formed after the Second World War, designed to essentially "secure" the permanent dominant financial position of the banking networks of industrialized countries, mainly Europe and North America, contrary to their "public" stated goals. These include the IMF, the Bank for International Settlements, the private US Federal Reserve Banks and the World Bank.

The World Bank

Trademark of two junior banks with nominal shareholdings from 184 countries, but controlling stakes in a few: the International Bank for Reconstruction and Development (IBRD) and the International Development Association (IDA). The World Bank was one of the key instruments of the debt-based Industrial Banking Cartel to maintain control of global wealth.

- **Inciting violence and political revolution** (1917-1918 AD): The Catholic Church, under the control of the Jesuits, financed, organized and carried out the political coup that led to the February Revolution in Russia and the overthrow of Tsar Nicholas II. The Catholic Church even arranged for Vladimir Lenin and other exiled Swiss revolutionaries to travel safely across the First World War front lines by train under the official colors of the Pope and the Vatican. That the motive for Lenin's return to head the new government was Stalin's inability to gain sufficient control over the factions among the revolutionaries at the time.
- **In Crimes Against Humanity** (1917-1918 AD): The Catholic Church, through the Jesuit Order, incited violence and unrest in Russian communities, resulting in the murder of more than 60,000 Jews in 530 Russian communities after a political-religious uprising broke out, the purpose of which was "to strike at the bourgeoisie and the Jews."
- **In political assassination** (1924): That the Jesuit Superior General Vladimir Ledochovsky ordered Joseph Stalin to kill the leader of Communist Russia on January 21, 1924 at the age of 53. That Stalin acted to protect his position and mission as General Secretary of the Communist Party after Lenin insisted on his removal. That Stalin not only poisoned Lenin, but after coming to absolute power, he spread rumors that Lenin was mentally ill in the last years of his reign and even died of syphilis.
- **In the creation of an illegal enterprise for the purpose of committing a crime** (1920 - 1945 AD): Archbishop Pacelli, later Pope Pius XII, and the Jesuit order under Superior General Vladimir Ledochovsky helped create the German Workers' Party (abbreviated DAP) in the National the Socialist German Workers' Party (NSDAP), also known as the Nazi Party at the behest of Adolf Hitler. The original purpose of the Nazi Party, formed by the Catholic Church, was: (1) to create a pro-Catholic political party capable of defeating its opposition and gaining control of the government; (2) the conclusion of a concordat between the Catholic Church and all of Germany, guaranteeing huge financial revenues as compensation for the loss of papal lands; (3) the destruction of all opposition, including social reform/democracy groups, especially Protestants, Orthodox Christians, communists and ethnic Jews. Archbishop Pacelli (later Pope Pius XII) mentored Hitler to join the DAP, arranged for him to report regularly to him (at least every month, sometimes weekly) until Pacelli's appointment as Vatican Cardinal Secretary of State in 1929, and

provided all financial support and funds for Hitler to become chairman of the NSDAP on July 28, 1921. Moreover, Archbishop Pacelli used gold imported into Germany in 1917 to finance the rapid expansion of the Nazi Party, including its first reform as a paramilitary organization in 1921.

- **In the creation of an illegal enterprise for the purpose of committing a crime** (1921 - 1945 AD): Archbishop Pacelli, later Pope Pius XII, on the instructions of Superior General Vladimir Ledochowski in 1921, instructed Adolf Hitler to create a paramilitary wing of the NSDAP called the Stormtroopers squads (SS), also known as Stormtroopers. That the Jesuit priests actually trained the first SS recruits in espionage, counterintelligence, assassination and propaganda. The purpose of the SS was to assist in the control of organized protests, riots, intimidation of opponents and political assassinations.
- **In creating an illegal enterprise for the purpose of committing a crime** (1929 - 1945 AD): Superior General Vladimir Ledochovsky, through his Jesuit emissaries, instructed Adolf Hitler in 1929 to reform part of the Sturm unit (SA), also known as "Stormtroopers", in Schutzstaffel, also known as "SS". Unlike the SA, which was staffed by a variety of qualified men, the Jesuits instructed Hitler that the SS was to be the most secret organization of personal bodyguards and elites, staffed and controlled by actual Jesuit priests. SS officers would be endowed with the authority of the Jesuits and the authority of the Pope with the authority of the Catholic priesthood. In addition, SS priests were to be integrated into the organization to ensure strict control and prevent schism. In exchange for this, the Jesuits agreed to personally finance the implementation of the project, as well as to bring their significant funds and industrial interests to Germany; on January 6, 1929, Adolf Hitler appointed Heinrich Himmler to lead the project.
- **In the receipt and trading of proceeds of crime** (1933 - 1945 AD): The Catholic Church, with the authority, knowledge and control of Pope Pius XII, conspired and received more than US\$10 billion (2006 equivalent) in payments from the National Socialist Workers' Party of Germany, also known as the Nazis, in exchange for moral and logistical support for the Nazis' policies of ethnic cleansing and genocide.
- **In the greatest crime against humanity in the history of all mankind** (1939-1945 AD) : Pope Pius XII, with the full knowledge and tacit support of the Jesuit General Superintendent Vladimir Ledochowski, conveyed to Hitler and Himmler a complete plan for the systematic extermination of major non-Catholic minorities throughout Europe, as well as the creation of death camps to kill them. Moreover, the Pope ordered that ethnic Jews and other heretics not only be killed, but ritually sacrificed by being burned alive, in accordance with the Church's law on the punishment of heresy. This plan was to begin immediately and be carried out under the supervision of Jesuit SS priests. This plan was called the "Final Solution." As a result of specific orders from Pope Pius XII, the German command developed an ingenious method that made it possible to bring Jews and other heretics out of unconsciousness within a few minutes through gas chambers using the drug Zyklon - B, produced by the Catholic pharmaceutical company Bayer. The unconscious victims were then placed on stretchers and taken to massive ovens where they were placed fully alive, only to wake up screaming as they were burned alive in the oven. Contrary to the military deception perpetrated by the Allied commanders loyal to the Vatican, the death camps were established as early as 1940, at least two full years before what was announced at Nuremberg. Moreover, the camps only stopped immolating people by burning them alive in 1945. That the sole purpose of the ovens in the death camps was not to destroy bodies, but to specifically burn people alive, in accordance with the ancient satanic practice on the basis of which Christianity was first formed by the Jewish noble families of the Sadducees. This plan, created by the Vatican, sanctioned by Pope Pius XII and carried out by full Roman Catholic priests who controlled the concentration camps and furnaces, represents the greatest and most evil act in human history to date. Moreover, the deliberate misrepresentation of the facts, the fact that the Pope was never tried as one of history's worst mass murderers, only deepens the contempt for international justice and the memory of all those killed.
- **In one of the greatest crimes against humanity** (1939-1945 AD): The Catholic Church through its deliberate placement of key figures, including loyal Catholics Mussolini, Hitler, Franco and Stalin, and through its financing of the second European arms race, including deliberate prolongation of the war, was directly and ultimately responsible for the deaths of more than 63,000,000 people between 1939-1945. AD What is extremely disgusting and inhumane is that this was done by an organization that maintains the façade of a "good" religion, headed by a position known as "His Holiness." Moreover, the Catholic Church profited from this terrible act of evil.
- **In Historical Profits from Crimes Against Humanity** (1939-1945 AD): The Catholic Church through the deliberate initiation of World War II, the creation and financing of Mussolini, Hitler, Franco and Stalin and its illegal operations and investments in weapons and banking to finance the war, received a profit of approximately US\$1,500 (2006 US dollars equivalent) for each man, woman and child killed and/or murdered. The total profit of the Vatican and the Jesuits from the outbreak of World War II, in which at least 63,000,000 people died, was approximately US\$94.5 billion (equivalent to 2006 US dollars), making it the most profitable criminal enterprise by time and cost when - undertaken by the Catholic

Church in history.

1. Actions when committing the above crimes:

- Permanent, movable and/or monetary losses that occurred in the Soviet Empire from 1917 to 1990.
- Enslavement of individuals and their ancestors by agents acting on behalf of the above organizations and their successors, heirs, sponsored and directed by them, claiming that they are opposed to the Soviet Empire.
- Survived psychological trauma and damage as a result of the brutal dictatorial regime of the Soviet Union and its subsequent impact on subsequent relationships, including, but not limited to, family, friends, government, society and in general;
- Additional trauma and ongoing pain resulting from the suppression of the following, including, but not limited to, school/church representatives, family, and the defendant's persistent denial of their clear involvement in the formation and functioning of the Soviet regime during the key years of its reign under Joseph Stalin.
- Financial incapacity as a result of mental illness, exhaustion associated with the inability to eliminate such acts of abuse;
- Direct financial harm, due to the reluctance of churches to acknowledge or compensate those who have clearly been harmed by its own clergy, or to offer any form of appropriate or spiritual assistance in the form of an appropriate apology.
- Funded the establishment of the Communist Party and, in particular, by appointing Joseph Stalin, a fully ordained Jesuit priest, as Prime Minister of the Soviet Union.
- Funded the formation of the Nazi Party, including the appointment of Adolf Hitler, the formation of the SS, including giving clear instructions for the invasion of Russia.
- Ignored, suppressed and openly sought to discredit those individuals who were brave enough to reveal the truth about the defendant's involvement in the events that caused and led to hostilities in World War II as well as in World War I.
- Openly supported, defended and destroyed evidence against clergy accused of involvement in the creation of the Communist Party and the appointment of Joseph Stalin.
- Used deliberate tactics of delay, delay and other methods designed to try to drain the limited financial resources of individuals seeking justice for years of pain, suffering as a result of the malicious actions of the Holy See, also known as the Roman Catholic Church and the Catholic Church , their Orders and Societies, as well as their heirs, successors, assigns, so that such persons ultimately abandon the search for truth due to lack of material resources.
- The continued use of political and social influence to squander their own charitable resources, used as hostages, threatening the disappearance of sources of key resources and the withdrawal of support for political leaders if individuals seeking truth and justice in relation to the Holy See, also known as the Roman Catholic Church and the Catholic The Church, their Orders and Societies, as well as their heirs, successors, assigns, will not be revoked or forgotten, despite the fact that it does not reveal its true wealth and does not provide any accurate accounting of its assets.

2. With regard to jurisdiction and any demands, petitions, for the cancellation of any significant statements of the above organizations and their successors, successors, heirs such as:

- The claim of Apostolic Succession, as regards its religious authority, means, in effect, that the Catholic Church today declares itself to be as much a continuously operating body under a continuous leadership as it was under any ancient material dominion.
- This also means that the above organizations and their successors, assigns, heirs are responsible for all actions of previous employees, officials and third parties in their service, without any restrictions.
- That the only possible way in which the ancient material claim can be expunged from this claim is for the Catholic Church to renounce its claim to apostolic succession, thereby recognizing at some ancient period an entirely different and unrelated organization, still in effect today. However, if this is recognized, the status of the Catholic Church in this act will change from a religious organization to simply a criminal enterprise.

3. The reasons why charges were not filed vary, but include the following:

- Strong references of the above organizations and their successors, successors, heirs to sovereign immunity, relying on the Lateran Treaty of 1929 with the fascist dictator Mussolini and subsequent recognition of membership in international bodies and treaties.
- Persistent claims of the above organizations and their successors, legal successors, and heirs that they are a religious organization representing the highest moral and spiritual codes of conduct.
- Insistent statements by the above organizations and their successors, successors, heirs, that he has neither control nor authority over the actions of subordinates and/or subsidiaries, despite clear evidence to the contrary.

- Use of tactics aimed at detaining, crushing, intimidating and forcing, suppressing any accusations against the above organizations and their successors, legal successors, heirs.
- Use of bribes, grants and other means of financial incentives to ensure that there are always at least some persons in power loyal to the facts so that any charges are never brought against the above organizations and their successors, assigns, heirs.
- Random use of force, including, but not limited to, kidnapping, assault, torture and murder in order to eliminate witnesses and prevent any action against any accusation of the above organizations and their successors, assigns, heirs.

4. With respect to jurisdiction and any claims, motions to dismiss and/or vacate these charges on the basis of fallacies of logic, sovereign immunity and/or other special relief at law:

- International laws and conventions do not allow organizations to claim immunity in cases where they can be considered criminal enterprises created for the purpose of pursuing and profiting from criminal purposes.
- International and national laws do not allow organizations to claim immunity in clear cases of human rights violations and crimes against humanity that do not have a statute of limitations.
- The acts and events mentioned as material allegations against the above-mentioned organizations and their successors, assigns, and heirs, which occurred prior to any official recognition of the diplomatic sovereignty of the Vatican, cannot be retrospectively considered as subject to any claim of immunity.
- The Lateran Treaty of 1929 between the dictator Mussolini and the Vatican, granting him sovereign status, is in fact invalid due to repeated violations of its terms in relation to the condition and obligation of the Papacy of perpetual neutrality in international relations.

5. With regard to jurisdiction and any claims, petitions for rejection and/or restoration of violated rights on the basis of separation, independence of subsidiaries and/or incomplete names of the above organizations and their successors, assigns, heirs:

- The regulations, procedures and practices of the above organizations and their successors, assigns, and heirs clearly indicate highly centralized and authoritarian control over all of its subsidiaries, regardless of their status as separate entities.
- Respondent by-laws in effect since February 25, 1296 by Pope Boniface VIII through his papal bull, prohibiting subsidiaries from disposing of substantial assets in any way without the central approval of the Vatican, effectively rendering any declaration of separation invalid.
- The deliberate lack of accounting and disclosure standards of the above entities and their successors, assigns, and heirs regarding its complete financial status throughout the world prevents the accurate listing of all persons.

6. He who has eyes, let him see! Those who have ears, let them hear! May all present and future witness the following memorial and event recording of Our public announcement of Restitution (Restoration) and Our humble prayer to the Divine Creator(s) and Creator, to the entire Universe, Heaven and Earth and on Earth.

Although We have transferred Our real property into Trust, and although no consent or other objection has been given to the fact that such transfer is unlawful, We note Our error of fact in failing to provide adequate notice of Our competent living status.

Let it be known to all that just as the Divine Creator and Creator freed us and forgave our ignorance and wasteful behavior, We prayed and confessed, as an act of true repentance, like the Prodigal Son, and received full remission sins.

1(1). If We were lost, then hereby We are found, we declare before beings of a higher and lower order, before the Divine Creator and Creator, before all the Universes, before all the Heavens and Earth and on Earth. We hereby reject all false doctrines, We hereby affirm with conviction all Divine Rights, Natural Rights and Positive Rights granted to us and demand nothing more than what is rightfully ours.

Divine rights are laws that define the Divine and clearly demonstrate the mind, purpose and instructions of the Divine, including the operation of the will of the Divine, through existence. Therefore, we can say that all valid laws come from Divine law.

Natural rights are laws that determine the operation of the will of the Divine through existence in the form of physical rules and matter. Since Natural Laws determine the functioning and existence of the physical Universe, all valid positive laws can be said to be derived from Natural Rights. Natural law cannot be written or created, it can only be discovered. Divine law can neither be written nor created, but only prescribed by Divine Revelation without contradicting Natural Law.

Positive rights are laws that are made by men and women through proper authority to govern society. Since positive law ultimately refers to physical objects and living beings, all valid positive rights can be said to derive from Natural Law. Positive law cannot abolish, suspend or change Natural law. Positive or Natural Law also cannot abolish, suspend or modify Divine Law. Therefore, the highest law of all rights is Divine Law, then Natural Law, then Positive Law.

Due to the enormous amount of factual public evidence of criminal acts and private robbery committed by offenders, administrators, judges or agents, as well as lawyers, attorneys at law, barristers and solicitors (lawyer) and others, Sergey Vorobyov declares that he is recording video or audio recordings, electronic or electronic evidence of any acts, violations, transactions or interactions between Third Party(ies) of any foreign or domestic jurisdiction. No additional notice of such evidentiary record(s) is required;

All currently existing courts and governments are financial institutions and operate only de facto and not de jure. "De facto" means that something actually exists and not by legal right. At present, all courts, knowingly or unknowingly, are in the business of generating revenue for

the benefit of the creditors of the national government, while imposing a militaristic police state against the people, where men and women can be arrested and detained without charge on the grounds that they may commit crime in the future, or for publicly criticizing the criminal actions of the government and/or monarchy that controls it all. All courts lose their legitimacy, authority, power and authority, by default, when they commit or agree with crimes against men and women or humanity, or when they wage illegal wars under fraudulent pretenses and without the consent of the people, solely for the sake of profit and the benefit of shareholders and stakeholders of the military-industrial complex. Any court or government has a legal responsibility to identify itself as de facto or de jure, and to fail to do so when asked to do so is fraudulent and in fact a criminal offense of fraud.

No martial law, admiralty law, maritime law, constitution, canon, declaration, statute and/or any law made by man shall override and/or govern and/or have any jurisdiction and/or force over any and/or all my claims, creations, God the Creator and Creator is the supreme ruler and law, the creator and the only creator who can rule over my flesh and blood and all my created creations, by default (estoppel).

There is no legal or statutory obligation to obey the orders of any man, woman, person, entity claiming to act on behalf of the Queen, King or Pope, including (without limitation) directors, agents, officers, partners and other affiliates.

“Dishonor”, in the absence of full and open disclosure of all terms of the agreement, agreements, contracts and other documents and voluntary unconditional acceptance by both parties (sealed consent) with living signatures and a wet seal, any man-woman, person can refuse obligations under the agreements, contracts, agreements, and other documents concluded on their behalf and all their derivatives with legal entities, of any nature and description, since legal entities are incapable of moral sensitivity and function only for the benefit of their shareholders and stakeholders, very often to the detriment of the community and the beautiful, fertile planet Earth. Any person charged with dishonor automatically loses his status, strength and power.

Corporations are legal fictions and require contracts to claim power or control over other parties. Legal fictions lack soul and intelligence, and cannot exercise any control over those who are thus blessed and act upon that knowledge, any more than a fool would allow soulless fictions to dictate his actions.

All documents of any nature sent by a business entity, corporations or persons acting as principals or agents for said corporations shall retain the validity, effectiveness and effect of any stated claims and/or understandings and/or intentions without prejudice if the positions or persons holding certain positions of said corporations are replaced, succeeded or changed in some way.

To deny any instrument witnessed by two or more on Earth, as well as witnessed by the humble to all Heaven and all Holy Spirit(s), is a terrible act of the highest dishonor and is tantamount to denying any form of due process, evidence or existing law.

Let all who hear and read this document come forward and stand up for the truth. We call on all guardian spirits, protective spirits and the most formidable angels and demons and entities of the highest and lowest order, all men and women, to unite with a common affirmation that the End of Days has come, and that there will be no more fear, no more willful ignorance and arrogance to rule this world.

THE POSSIBILITY OF HEALING AND FORGIVENESS

Forgiveness or leniency may be granted subject to clearly stated conditions. Write a letter within three (72 hours) days of receiving **the PUBLIC AGREEMENT (NOTICE)** for forgiveness of leniency.

"All rights are reserved in the Sacred Trust herein under the True Divine Creator and Creator."

**Let it be as it is written, so it will be, for the good of the world forever and ever.
Everything that is written and spoken exists from the very beginning in eternity.**

We give life to all of the above and personality to this sacred irrevocable deed, the proclamation has been announced and declared, entered into force through our living seals of blood, and witnessed by all those who are related to us by blood and command this proclamation to be conveyed to all men and women, all gods and goddesses, all souls, beings of higher and lower order.

For the good of us, for the good of everyone and all life, for the good of all existence, for the good of all men and women, both living and dead, for the good of all beings, both from this world and from other infinite worlds, for the good of the earth, the sun, the moon and all other countless planets, for the benefit of endless universes and galaxies, for the benefit of endless spiritual dimensions, for the benefit of light forever and ever!
